Statement 1

Form 990-EZ- Part III - Statement of Program Service Accomplishments - Line 28

ACTIVITY SUMMARY

This report details project activities completed on the German Gulch Watershed Restoration Project. Progress on each task is briefly outlined below.

Task 1. Stream Restoration

GGTU conducted a second willow and shrub planting project on May 16th 2009, with GGTU board members, and local Boy Scout volunteers attending. Willows and shrubs were planted throughout the pilot reach. Excess plants were purchased from the SBC revegetation project. Weeds were sprayed twice during the summer, and a fall spaying is also planned.

An agreement was reached between GGTU, NRD, and Confluence Consulting to repair a portion of the pilot restoration reach. Permits are in the process of being obtained and construction is planned for fall 2009.

Task 2. Tailings Removal/Upland Vegetation Improvement

GGTU and NRD staff met with Joel Chavez at MDEQ in fall 2008. MDEQ has received preliminary approval from British Petroleum to accept tailings as part of the Silver Bow Creek cleanup effort, but final details need to be completed. Joel indicated that due to rising construction costs, there is likely not enough funding in the grant to complete the project. GGTU will work to address this issue in coordination with NRD.

Task 3. Bridge/Trail Construction

GGTU board members conducted annual trail maintenance activities on August 11th, 2009. Board members and volunteers cleared the trail and removed obstructions.

USFS has started construction on the upper trailhead and parking area. GGTU and USFS are coordinating final fencing and signage for the area, but all work should be completed this fall.

Task 4. Water Lease

A new well was drilled at the Spangler Ranch in May 2008. The well log and preliminary driller estimates suggest adequate production to meet our lease needs. We also plan to complete and use the 6-inch test well drilled as part of the PDG in 2004. The well has been designed and the manufactured screen was on back order for over two months. The well was completed and developed the week of September 14th, 2008. During development activities, the air tool became stuck in the well, and the screen was damaged beyond repair. The well will need to be re-drilled, with all costs borne by the drilling subcontractor.

The new well was drilled and pump tested in early 2009. Pump test results showed that the production from the two wells would be at the low end of the feasible range for the water lease. As a result, WET had the 8-inch well airbursted in June to increase capacity.

A follow-up pump test is scheduled, and water rights paperwork will be filed upon results of the new test.

A fish screen design (Farmer's Screen – <u>www.fcasolutions.org</u>) was selected FWP and its consultant, and approved by Doug Butori. The fish screen was installed in November 2008. Problems with water backup were encountered during screen start-up activities, and adjustments were made in spring 2009. Extreme runoff conditions in May/June resulted in a partial failure of the streambank just upstream of the fish screen, which needs repair. Also, the screen still needs further adjustment. This work is in the planning stages and is planned for the end of the irrigation season.

Two sections of the Spangler pipeline have been repaired. The upper portion of the Spangler pipeline was also shored up in November 2008. Pipe supports were replaced and rock gabions were installed to protect the pipe from washing out. The lower section was repaired in May 2009. Two concrete joints and a section of pipe under the BN railroad tracks were replaced. This work was completed satisfactorily.

Task 5. Layton Acquisition

GGTU has completed the land transfer with FWP on the lower claim. The transaction on the upper two claims with USFS has been approved by the regional office and GGTU is awaiting final paperwork.

Task 6. Cultural Resource Assessment

Preliminary costs and design options have been researched for the signs. GGTU is working on language for approval by NRD before ordering.

MATCH MONEY SUMMARY

Please refer to the German Gulch expense tracking spreadsheet in Attachment A. Also included is a summary sheet showing a monthly tally of in-kind hours from GGTU board members over the project reporting period, as well as a cumulative total of in-kind time. A spreadsheet showing board time is included in Attachment C. Occasionally timesheets are not received for all board members at the time of submittal; as a result, slight modifications to the board time may be made in the future.

Form 990-EZ-Part III, Line 29 - Statement of Program Service Accomplishments

During the fiscal year, The George Grant Chapter began negotiations to acquire property on the upper Clark Fork River, known as the Paracini Pond If the acquisition is successful, the organization will donate the property to the Montana Department of Fish, Wildlife and Park to be used as a public fishing access site

The property provide outstanding access to the upper Clark Fork River, access to a wild brown trout fishery and access for waterfowl hunting and general recreation. During the fiscal year the George Grant Chapter of Trout Unlimited applied to the Montana Natural Resource Damage Program for a grant to acquire the property. By the end of the fiscal year, the application was still pending and negations with the selling landowner were still ongoing.
