Identifier	Return Reference	Explanation
		Part V, Line 4 - The Organization has adopted investment and spending policies for investment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Investment assets include those assets that the organization will designate for a specific purpose as board-designated funds. Under this policy, the assets are invested in a manner that seeks both preservation of capital and growth of capital on a real return basis. Asset Allocation guidelines have been established for the assets based on liquidity needs and time horizon. The rebalancing of assets will occur annually, or as needed and will be reviewed by the board of directors. During the course of a complete market cycle, the total return objective shall be to achieve a return greater than capital market returns with a similarly weighted asset allocation. Actual returns in any given year may vary from this amount.

Explanation

Part V, Line 4 - The Organization has adopted investment and spending policies for investment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Investment assets include those assets that the organization will designate for a specific purpose as board-designated funds. Under this policy, the assets are invested in a manner that seeks both preservation of capital and growth of capital on a real return basis. Asset Allocation guidelines have been established for the assets based on liquidity needs and time horizon. The rebalancing of assets will occur annually, or as needed and will be reviewed by the board of directors. During the course of a complete market cycle, the total return objective shall be to achieve a return greater than capital market returns with a similarly weighted asset allocation. Actual returns in any given year may vary from this amount.
