Part IV Supplemental Information

Complete this part to provide the information required in Part I, line 2, and any other additional information

Pt I Line 2 Payments are subject to an agreement/memorandum of understanding/ contract between Plan and the third party. The program is often broken into discrete projects and activities planned over time. Funding would be released in tranches with each tranche being conditional on satisfactory progress of the program activity and a satisfactory accounting for funds already advanced. Local program staff will work with implementing partners throughout the project's life and finance department staff and operational management visit to review progress periodically. Larger projects will be visited by senior operational and financial management from the Country Office. Additionally, the country's own internal control teams may "audit" projects as might Plan's Global Assurance Team. Projects that are funded by grants received from third party donors will also be subject to scrutiny via reporting specified by the donor, typically quarterly. Such reporting is typically quarterly and such projects may also be subject to external audit on behalf of the donor. Finally, Plan's external auditors review project spending as part of the annual audit process.

Pt I Line 3 Col (F) All expenditure incurred in program countries is classified as program expenditure with the exception of a comparatively small amount spent in a handful of countries aimed at generating additional income. Central expenditure is classified as Program (where it directly relates to programmatic activities such as research and global campaigns), fundraising and operating.
