	Client Note1	Executive Compensation is determined by the Executive Committee of the Valley Presbyterian Hospital Board. In determining each individual's compensation the Committee utilizes the most recent California Regional Executive Compensation Survey Report prepared by Integrated Healthcare Strategies (formerly known as Clark Consulting). This survey provides executive compensation data (including benefit data) from 120 California health systems and hospitals. The Hospital pays senior executives both a base salary and an incentive bonus based upon both the organization's and the individual's performance. Base salaries are paid at the midpoint between the 50th and 75th percentiles for California hospitals of similar size based upon annual net revenue. Annual incentives allow the individual executive to achieve up to the 75th percentile of total cash compensation for good performance. The 75th percentile was chosen given the fact that 1) net revenue for the hospital fails to adequately state the complexity of the organization because net revenue is understated by virtue of the fact that over-all revenue is deflated by the hospital's large Medi-Cal percentage and the fact that it is classified as a disproportionate share hospital and, 2) the hospital does not provide common senior executive benefits such as a supplemental retirement plan, supplemental life insurance, supplemental long-term disability insurance and long term care insurance. 80% of the individual annual executive incentive awards are based upon measurable objectives established at the start of the fiscal year by the Governing Board's Executive Committee. The objectives include quality, financial, and business development components. The remaining 20% of the incentive awards are awarded at the discretion of the Executive Committee. Target incentive awards are set at 20% of the Executive's base salary, with the exception of the CEO, whose target incentive award is set at 25% of base salary.
