services are sometimes unable to provide timely information. Where pricing sources are not readily available, particularly on certain debt securities, estimated prices may be generated by a matrix system taking various factors into consideration. The pricing of listed options takes into account the last closing price, as well as the current bid and offer prices. Where securities have not been priced, such securities have not been included in the Asset Allocation information at the beginning of this statement

Reinvestment - The dollar amount of Mutual Fund distributions, Money Market Fund dividend income, Bank Deposit interest income, or dividends for other securities shown on your Statement may have been reinvested. You will not receive confirmation of these reinvestments. However, information pertaining to these transactions which would otherwise appear on confirmations, including the time of execution and the name of the person from whom your security was purchased, will be furnished to you upon written request to your introducing firm. In dividend reinvestment transactions, Pershing acts as your agent and receives payment for order flow, the source and nature of which payment will be furnished to you upon written request to your introducing firm.

Option Disclosure - Information with respect to commissions and other charges incurred in connection with the execution of option transactions has been included in confirmations previously furnished to you. A summary of this information is available to you promptly upon your written request directed to your introducing firm. In order to assist your introducing firm in maintaining current background and financial information concerning your option accounts, please promptly advise them in writing of any material change in your investment objectives or financial situation Expiring options which are valuable are exercised automatically pursuant to the exercise by exception procedure of the Options Clearing Corporation. Additional information regarding this procedure is available upon written request to your introducing firm

Foreign Currency Transactions - Pershing may execute foreign currency transactions as principal for your account. Pershing may automatically convert foreign currency to or from U.S dollars for dividends and similar corporate action transactions unless you instruct your financial organization otherwise. Pershing's currency conversion rate will not exceed the highest interbank conversion rate identified from customary banking sources on the conversion date or the prior business day, increased by up to 1%, unless a particular rate is required by applicable law. Your financial organization may also increase the currency conversion rate. This conversion rate may differ from rates in effect on the date you executed a transaction, incurred a charge, or received a credit. The Schedule of Realized Gains and Losses is not reported to the IRS. This Schedule may not reflect all cost basis adjustments necessary for tax reporting purposes; for example, it does not reflect disallowed losses from wash sale events. Adjustments to cost basis may have been made for prior income received and subsequently reclassified by the issuer as a return of capital. Typically these adjustments are received after year-end and there may be differences in cost basis reflected on your monthly client brokerage statement at year end versus any subsequent reports or online displays you may have available to you. Return of capital information has been obtained from sources we believe to be reliable.

When you report your cost basis on your tax return, it should be verified with your own records In particular, there may be other adjustments which you need to make and you should consult with your tax advisor in order to properly report your gain or loss for tax purposes. Pershing shall not be responsible for and makes no representations or warranties with respect to the accuracy of any information that you report to the IRS or other taxing authorities, and, accordingly, disclaims any and all liability that may arise with respect to your use and reliance on the information provided herein for such reporting

ERRORS AND OMISSIONS EXCEPTED

PORTFOLIO HOLDINGS

This section includes the net market value of the securities in your account on a settlement date basis, including short positions, at the close of the statement period The market prices have been obtained from quotation services which Pershing believes to be reliable, however, Pershing cannot guarantee their accuracy Securities for which a price is not available are marked "N/A" and are omitted from the Total

The estimated annual income (EAI) and estimated current yield (ECY) figures are estimates and for informational purposes only These figures are not considered to be a forecast or guarantee of future results These figures are computed using information from providers believed to be reliable, however, no assurance can be made as to the accuracy Since interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political, and business conditions, they should not be relied on for making investment, trading, or tax decisions These figures assume that the position quantities, interest and dividend rates, and prices remain constant A capital gain or return of principal may be included in the figures for certain securities, thereby overstating them Refer to www pershing com/business_continuity html for specific details as to formulas used to calculate the figures Accrued interest represents interest earned but not yet received

PAYMENT FOR ORDER FLOW PRACTICES

The following statement is provided to you as required by Rule 11Ac1-3 of the Securities Exchange Act of 1934

Pershing sends certain equity orders to exchanges, Electronic Communication Networks, or broker-dealers during normal business hours and during extended trading sessions Certain of these venues provide payments to Pershing or charge access fees to Pershing depending upon the characteristics of the order and any subsequent execution In addition, Pershing may execute certain equity orders as principal The details of these payments and fees are available upon written request Pershing receives payments for directing listed options order flow to certain option exchanges Compensation is generally in the form of a per option contract cash payment. For a listing of organizations that pay Pershing for order flow, please refer to www orderroutingdisclosure com

Best Execution

Notwithstanding the previous paragraph regarding payment for order flow, Pershing selects certain market centers to provide execution of over-the-counter and exchange-listed securities transactions which agree to accept orders, transmitted electronically up to a specified size, and to execute them at or better than the national best bid or offer (NBBO) On certain larger orders, or if the designated market centers do not make a market in the subject security, Pershing directly contacts market centers to obtain an execution The designated market centers to which orders are automatically routed are selected based on the consistent high quality of their executions in one or more market segments and their ability to provide opportunities for executions at prices superior to the NBBO

If an order for an exchange-listed security is not immediately executable on the exchange to which it is routed, such order may be represented in the national marketplace using the various means available for price discovery Pershing also regularly reviews reports for quality of execution purposes
