Total reinvested is the total of all reinvested dividends. It does not include any cash dividends. It is not a tax lot for the purposes of determining holding periods or cost basis. The shares you receive each time you reinvest dividends become a separate tax lot.

Cost basis is the total purchase cost of the security, including reinvested dividends. The cost basis may need to be adjusted for return of capital payments in order to determine the adjusted cost basis for tax reporting purposes.

Unrealized gain or loss is the difference between the current value and the cost basis. The unrealized gain or loss may need to be adjusted for return of capital payments in order to determine the realized gain or loss for tax reporting purposes.

Investment return is the current value minus the amount you invested. It does not include any cash dividends that were not reinvested.

Prices reflected are obtained from sources within and external to UBS. These prices are indicative and may differ from the price at which the security may be bought or sold, and may not necessarily reflect the value you would receive upon liquidation. The accuracy is not guaranteed. Actual market values may vary and thus gains/losses may not be accurately reflected. If there is no value indicated for any ARS, it is because UBS has not been able to determine a valuation for that security. This does not mean that we believe the security has no value, but rather reflects the fact that we cannot provide a price that we believe is accurate.
