Identifier	Return Reference	Explanation
Part X	Description of Uncertain Tax Positions Under FIN 48	CSG accounts for the effect of any uncertain tax positions based on the "more likely than not" threshold to the recognition of the tax positions being sustained based on the technical merits of the position under scrutiny by the applicable taxing authority. If a tax position or positions are deemed to result in uncertainties of those positions, the unrecognized tax benefit is estimated based on a "cumulative probability assessment" that aggregates the estimated tax liability for all uncertain tax positions. Interest and penalties assessed, if any, are accrued as income tax expense. CSG has identified its tax status as a tax exempt entity as a tax position, however, CSG has determined that such tax position does not result in an uncertainty requiring recognition. In addition to its tax status, CSG has other tax positions that have been determined to be highly certain and, therefore, no reserve for unrecognized tax liability is deemed necessary. CSG is not currently under examination by any taxing jurisdiction. Its federal and state income tax returns are generally open for examination for the past 3 years.
