### Brown Monson Foundation Attachment to 2009 Form 990-PF ID# 22-3065848

This attachment to the form 990–PF for the Brown Monson foundation tax ID number 22–3065848 is in regards to the timely filing of the return. An extension was filed timely which extended the original due date of the return. Subsequent to this, an additional extension was prepared, of which we have attached a copy that was in our records. However, our records do not include a postal return receipt and as such it is unclear as to us whether or not the second extension was timely filed.

If no record of a second extension exists with regards to this return we are respectfully requesting an abatement of any penalties associated with the late filing. In regards to this we ask that you consider the following;

Historically the returns have never been filed late and all extensions have been timely filed and all taxes have been timely paid.

This was an isolated incident and accidental and normal processes usually keep extensions filed in a timely manner.

The systems have been reviewed and revisited to monitor such issues in the future and we do not expect that a late filing will occur in the future.

There are no taxes due with regards to this return, and the entity currently has a significant overpayment and no monetary or significant issues are raised due to the late filing of the return.

The return requires a fairly significant coordination of records including receiving K-1s from partnership that are often not available until well after the original filing date. From there, reconciliation of the activity takes some time and clarity of the numbers is scrutinized and reviewed. Because of this, the return is usually extended to allow for proper and complete processing.

Thank you in advance for your consideration of this request.
