Securities Purchased. Securities purchased through your account during 2009 are displayed in this section. We provide this information to you because you will need it to calculate a gain or loss upon disposition of the securities. The net cost displayed includes commissions and fees. If the security purchased is a debt instrument, the net cost does not include accrued interest purchased. Accrued interest purchased is reported separately in this section of your Tax Information Statement. The cost of securities purchased during 2009 should be reported on your tax return in the year in which the securities are sold or redeemed on IRS Form 1040, Schedule D.

The Schedule of Realized Gains and Losses is not reported to the IRS. This Schedule may not reflect all cost basis adjustments necessary for tax reporting purposes; for example, it does not reflect disallowed losses from wash sale events. Adjustments to cost basis may have been made for prior income received and subsequently reclassified by the issuer as a return of capital. Typically these adjustments are received after year-end and there may be differences in cost basis reflected on your monthly client brokerage statement at year end versus any subsequent reports or online displays you may have available to you. Return of capital information has been obtained from sources we believe to be reliable.

When you report your cost basis on your tax return, it should be verified with your own records. In particular, there may be other adjustments which you need to make and you should consult with your tax advisor in order to properly report your gain or loss for tax purposes. Pershing shall not be responsible for and makes no representations or warranties with respect to the accuracy of any information that you report to the IRS or other taxing authorities, and, accordingly, disclaims any and all liability that may arise with respect to your use and reliance on the information provided herein for such reporting.

There may be differences between the Schedule of Realized Gains and Losses and 1099 reporting. Below are some of the reasons for these differences:

- Account Number Changes - If your account number changed during the year, the Schedule of Realized Gains and Losses may have been transferred from the original account to the new account. The new
