(1) Please note that the value of any equity-linked certificates of deposit and/or notes ("Structured Products") that are in your account are estimated, and their actual value may differ if you elect to sell such investments in the secondary market prior to maturity. Hilliard Lyons relies on an outside equity derivatives pricing vendor to determine the value of each such Structured Product. Such valuations are based upon a mathematical approximation of market value derived from both proprietary models as of a given date based on certain assumptions regarding past, present and future market conditions and certain financial information. Details regarding our pricing methodology are available upon request. Please also note that (i) the secondary market for Structured Products is generally illiquid, (ii) the actual value of Structured Products may be different from their purchase price, and (iii) a significant loss of principal could result if Structured Products are sold prior to maturity.
