Identifier	Return Reference	Explanation
Part X	Description of Uncertain Tax Positions Under FIN 48	During the year ended December 31, 2009, the Organization adopted the accounting standard related to uncertain income tax positions. The standard requires that an uncertain income tax position must be more likely than not (greater than 50% likelihood) before it is recognized in the financial statements. Furthermore, the standard requires that the amount recognized be the same as that which would be determined as a result of a review by tax authorities having all relevant information and applying current conventions. During the year ended December 31, 2009, management did not identify any uncertain income tax positions and believes the Organization is no longer subject to federal, state and local income tax examinations by taxing authorities for the years before 2006.
