Part X	Description of Uncertain Tax Positions Under FIN 48	A new accounting standard requires changes in recognition and measurement for uncertain tax positions. The effects of tax positions are generally recognized in the financial statements consistent with amounts reflected in returns filed, or expected to be filed, with taxing authorities. For tax positions that the Trust considers to be uncertain, current and deferred tax liabilities are recognized, or derecognized, when it is probable that an income tax liability has been incurred and the amount of the liability is reasonably estimable, or when it is probable that a tax benefit, such as a tax credit or loss carryforward, will be disallowed by a taxing authority. There are no uncertain tax positions that require recording a liability as of December 31, 2009.
