Part X	Description of Uncertain Tax Positions Under FIN 48	NHE has adopted the accounting standard related to uncertain income tax positions. The standard requires that an uncertain income tax position must be more likely than not (greater than 50% likelihood) before it is recognized in the consolidated financial statements. Furthermore, the standard requires that the amount recognized be the same as that which would be determined as a result of a review by tax authorities having all relevant information. During the year ended December 31, 2009, management did not identify any uncertain income tax positions. At a minimum, the 2006 through 2009 tax years are open for examination by taxing authorities.
