		Part X, Line 2 The Foundation adopted the accounting standard related to uncertain income tax positions. The standard requires that an uncertain income tax position must be more likely than not (greater than 50% likelihood to occur) before it is recognized in the consolidated financial statements. Furthermore, the standard requires that the amount recognized be the same as that which would be determined as a result of a review by tax authorities having all relevant information. During the year ended December 31, 2009, management did not identify any uncertain income tax positions. At a minimum, the 2006 through 2009 tax years are open for examination by taxing authorities.
