RESEARCH GRANT PROGRAM GUIDELINES

PURPOSE: The IWMF Research Grant Program is pledged to promote and support basic research leading to improved understanding of the cause, diagnosis, treatment and cure for the disease, Waldenstrom's macroglobulinemia.

Submissions: Research proposals may be submitted at any time. Following a review process that may take as long as three months, awards will be made to successful applicants.

Review Process: Research proposals are reviewed by scientists and/or doctors selected by members of the IWMF Scientific Advisory Committee. Their comments and recommendations are considered by the IWMF Research Committee which in turn forwards the comments on to the applicant for a response. Once the application is approved by the reviewers it goes to the IWMF Board of Trustees for funding decisions. Authors of proposals will be notified by the IWMF Research Committee as soon as a decision is made. The Grant Award Agreement is signed by the IWMF President and Treasurer then sent to the research institute for signature by the principal investigator and the appropriate, authorized financial officer prior to funds being awarded. A Project Liaison Officer will be appointed by the IWMF Research Committee. This person is the IWMF point of contact for the Principal Investigator for technical questions. The Project Liaison Officer is responsible for keeping the IWMF members informed about the progress of the project.

Range of Grant Awards: IWMF anticipates funding grants in the range of $35,000 to $100,000, depending on complexity and goals, and on the funds available for research projects. Multi-year and/or cooperative grants for teams of researchers at higher levels of funding appropriate for the scope of the project are also encouraged.

Project length: IWMF anticipates research projects will have a 12 to 24 month project period, but projects of up to four years in length have been approved previously. A project may be extended by filing an additional grant request which must be approved by the Scientific Advisory Committee and the IWMF Board of Trustees.

Payment policy: IWMF research grant payments are scheduled as follows: An initial start-up payment is determined by the principal investigator and the IWMF VP of Research and remitted to the institution within three weeks of the project starting date. For the remainder of the project period, incremental grant payments are made every six months once the six month project report is approved by the IWMF Research Committee. One-half of the last payment is withheld until a final report is received and approved by the IWMF Research Committee. Upon approval of the Research Committee the last payment will be made. The indirect costs are limited to 8% of the project costs. The payment schedule will be listed in the contract for the research project.

Reporting requirements: Six-month progress reports in non-scientific language shall be submitted to the IWMF Project Liaison Officer by the Principal Investigator at the end of a period, but no later than 30 days after the period ends. Such progress reports will describe the activities and findings of the previous six-months and provide a plan for the next six-month period. A draft final report is required no later than two months after the project ending date which shall describe the results and findings as they relate to the stated goals of the project for the full term of the project

GRANT REVIEW CRITERIA

The following is the list of review criteria used by the IWMF Scientific Advisory Committee to evaluate research proposals:

What is your analysis of the proposed project's overall applicability to furthering scientific knowledge of the cause,

diagnosis, treatment, or cure for the disease Waldenstrom's macroglobulinemia?

Are the goals reasonable?

Is the technical approach valid?

Are key personnel sufficient in number, and qualifications, to undertake this project?

Are there any particular strengths or weaknesses that should be highlighted?

Are you aware of any similar studies recently completed or ongoing that parallel this proposal. or which would complement this proposal?

Is the budget reasonable and appropriate to costs for the proposed research activities to be performed?

Any other comments on any aspect of the proposal you think should be noted.

Summary comments and recommendations to fund or not.

RESEARCH GRANT OPPORTUNITIES for WALDENSTROM'S MACROGLOBULINEMIA

The International Waldenstrom's Macroglobulinemia Foundation (IWMF) is seeking proposals for basic and translational research that would lead to a better understanding of how the disease develops, new targets for drug development, and eventually a cure for Waldenstrom's Macroglobulinemia

Individual grants have ranged from $35,000 to $70,000 for a twelve month project period We also encourage multi-year, and/or cooperative grants for teams of researchers at a higher level of funding, but appropriate for the scope of the project

Proposals are considered as they are received, reviewed by the IWMF Scientific Advisory Committee for their comments and recommendations and then come to the IWMF Board of Trustees for final approval The review process normally takes three to four months to complete
