This year (2009), we have had 4 formal Board meetings. The primary topics at these Board meetings were.

1. The presentation of a motion to accept the donation of 0.3 acres of salt marsh in Apponaug Cove, Warwick, RI. The board agreed that this heavily impacted salt marsh required remediation and restoration and despite it's small size would be an ideal location for environmental education. It was voted to contact the Warwick High School's Environmental Studies teacher and together develop a management plan in which the students could participate. A total of 11 students have visited the marsh, discussed the primary issues and have proposed potential site actions designed to measure marsh recovery. We were able to meet with the City of Warwick Tax Assessor and have the parcel listed as a conservation land. We have since then learned that this area was also the site owned by the shipyard that produced gunships for the new republic in the very late 1700's. This provides additional opportunity for historic education purposes.

2. The presentation of a motion to accept the donation of 26 acres located in Stillwater, Smithfield, RI was passed. The property consists of historic mill structures, a dam, a pond, a stream and wetlands. Five subcommittees were formed with the following mandates: A. Business plan/micro hydro - Research the potential installation of a small hydroelectric generation facility. Electricity not used on-site may be donated for public benefit and the "green credits" generated can be used to offset the cost of equipment acquisition and site maintenance including dam maintenance and safety issues.

B. Historic site investigation - Determine the historic dimension of the site. We had invited the State of RI Historic Preservation office's Industrial Archeologist to visit and examine the site. He was able to confirm that the existing structures were constructed in the 1800's and that a portion of the site appears to date into the 1700's. In order to confirm this possibility, we have invited archeologist from Brown University to examine the site and conduct educational programs on the property.

C. Historic Restoration - Investigate funding resources, work with Brown University, Smithfield Historic Commission and RI SHPO to determine prioritization for structure stabilization and restoration opportunities.

D. Pond, Stream and Wetland Restoration/Preservation - investigate funding resources through the US Dept. of Agriculture the RIDEM Division of Fish and Wildlife, US Army Corps and the USEPA. Consult with the USDA field biologist and develop habitat classifications and designate areas providing opportunity for habitat restoration.

E. Work with other Stakeholders in the Woonasquatucket River Valley to establish long range goals, including the State,

Town, Federal Governments and other non-profits. Determine area of mutual interest and goals.

III. Presentation of Historic Lighthouse Drawing Reproductions to local community settings where they can be appreciated by the public. Free Public showings have been conducted at the University of Rhode Island Library and at the Nantucket, MA Life Saving Museum.

IV. Business meeting to review the past years activities, present the suggested form 990 prior to submission and vote upon any needed changes and vote to submit to IRS. Discuss the direction and emphasis we should follow in the coming year. Also identified was the need to regularly monitor and to enforce the written conflict of interest policy, discussion centered on the fact that there are only three members and we are all too busy to have any conflict of interest. It was determined that we still need to have at least a form that will be filled out yearly that states what we have or own that could be potentially representative of a conflict of interest. We had already decided that the conflict of interest records, the financial statements and and governing documents would be made available to the public upon request.
