PORTFOLIO DETAILS

IMPORTANT NOTE: According to our records, it appears that your account contains a concentrated position. Academic studies and real-world experience have shown that asset allocation is the key factor in long-term investment performance. By choosing a diversified mix of stocks, bonds and other asset classes, investors may create the portfolios that best match their financial goals and tolerance for risk. Concentrated positions entail greater risks than a diversified portfolio. Morgan Stanley Smith Barney can provide you with strategies to reduce your exposure to a concentrated position. To discuss your asset allocations and potential strategies to reduce the risk and/or volatility of a concentrated position, please contact your Financial Advisor. Please note, to the extent the concentrated position involves Citigroup or Morgan Stanley stock, we are providing this notice for informational purposes only. Under regulatory rules, Morgan Stanley Smith Barney cannot solicit the purchase or sale of stock or investments/hedges derived from an affiliate's stock.

Your holdings are valued using the most current prices available to Citigroup Global Markets Inc. (CGMI). In most cases, these values are as of 12/31/09, but in some cases CGMI's sources are unable to provide timely information. To see the date of the most recent price update, please view your account online at www.smithbarney.com.

Securities purchased or sold are included or excluded in this section as of the trade-date. This section may include securities that have not settled as of this statement closing date. Please see the "Unsettled Purchases/Sales" section for more information. Dividend yield is the estimated annual income, assuming the current dividend, divided by the security's market price at the end of the statement period. We do not guarantee the accuracy of the prices reflected on the statement nor do these prices represent levels at which securities can be bought or sold. **Please Note:** unrealized gain/(loss) is being shown for informational purposes only and should not be used for tax preparation without the assistance of your tax advisor.

Money fund

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

Common stocks & options

Citi Investment Research & Analysis (CIRA), Morgan Stanley & Co. Incorporated (Morgan Stanley) and Standard & Poor's research ratings may be shown for certain securities. All research ratings represent the "opinions" of the research provider and are not representations or guarantees of performance. Because the research report contains more complete information regarding the analyst's opinions, analysis, and rating, you should read the entire research report and not infer its contents from the rating. Where a particular company is covered by both CIRA and Morgan Stanley, you can and should view both research reports. CIRA and Morgan Stanley research reports may contain different or conflicting information about the subject companies of such research reports because they are prepared separately from each other. CIRA stock recommendations include an investment rating and a risk rating. The Investment Rating Code (1, 2 or 3) is a function of CIRA's expectation of total return (forecast price appreciation and dividend yield within the next twelve months) and a Risk Rating. The Risk Rating (L, M, H or S) represents the stock's expected risk, taking into account price volatility and fundamental criteria. Please refer to the end of this statement for a guide describing CIRA ratings. Morgan Stanley and Standard & Poor's research ratings have been normalized by these providers to a 1 (Buy), 2 (Hold), and 3 (Sell). Morgan Stanley Smith Barney is not the author of, does not take responsibility for, and does not guarantee the accuracy, completeness, or timeliness of research prepared by Standard & Poor's.

Please note, this material is being prepared for informational purposes only and should not be used for tax preparation without the assistance of your tax advisor. Absent specific instructions from you, trades are allocated using the FIFO (first-in/first-out) method. Day traders should therefore not rely on this section for day trading results. Your reinvestment activity has been summarized. Single lines have been designated to distinguish Short-term (ST) or Long-term (LT) information. Detailed information will be available at year-end in your 1099 Year-end summary.
