Total	\$-112,764.28

Realized gains and losses

Estimated 2009 gains and losses for transactions with trade dates through 12/31/09 have been incorporated into this statement. To calculate gains and losses, we liquidate the oldest security first. This is known as the first-in, first-out or FIFO accounting method. We use this method unless otherwise specified when tax lots close when you placed your order. This is known as a versus purchases or VSP order. See important information about your statement on the last page of this statement for more information.

We may not adjust gains and losses for all capital changes. Cost basis for coupon tax-exempt municipal securities include securities subject to AMT, has been adjusted for mandatory amortization of bond premium. Securities in the Unclassified section can not be classified as short term or long term because information is missing or the product is one in which the gain/loss calculation is not provided.

Total reinvested is the total of all reinvested dividends. It does not include any cash dividends. It is not a tax lot for the purposes of determining holding periods or cost basis. The shares you receive each time you reinvest dividends become a separate tax lot.

Cost basis is the total purchase cost of the security, including reinvested dividends. The cost basis may need to be adjusted for return of capital payments in order to determine the adjusted cost basis for tax reporting purposes.

Unrealized gain or loss is the difference between the current value and the cost basis. The unrealized gain or loss may need to be adjusted for return of capital payments in order to determine the realized gain or loss for tax reporting purposes.

Investment return is the current value minus the amount you invested. It does not include any cash dividends that were not reinvested.
