Part VI

Supplemental Information

Complete this part to provide the following information

1 Provide the description required for Part I, line 3c, Part I, line 6a, Part I, line 7g, Part I, line 7, column (f), Part I, line 7, Part III, line 4, Part III, line 8, Part III, line 9b, and Part V. See Instructions.

Part I Line 3c - Self Pay Discount All self pay patients who do not qualify for the hospitals charity program regardless of income are eligible for a discount of 30% off the hospitals gross charges for general hospital services. Certain implanted device charges billed under specific revenue codes will be discounted by 60% off the hospitals gross charges.

Part I Line 7 Column f The Total Expenses reported on Form 990 Part IX line 25 column A was reduced by Bad Debt Expense of 1452752 in the calculation of Percent of Total Expenses for Sch H Part I line 7 column e.

Part III Line 4 - Bad Debts Bad debt expense is not included as a community benefit for the state of Texas statutory threshold for charity care & community benefit. Regarding line 3 above we treat each patient qualifying for charity care as a charity patient and no charges related to that patient are included in bad debt expense. The amount shown on line 3 is an estimate since we have no data to show which patients who fail to provide the documentation necessary to qualify for charity care have all or a portion of their bill written off as bad debt. The hospital is part of a consolidated group Texas Health Resources (THR) that conducts a financial audit on a system-wide basis. The audited financial statements of THR which include the activity of the hospital contain a footnote regarding Accounts Receivable and Allowance for Doubtful Accounts which reads: Patient accounts receivable are reported net of estimated allowances for doubtful accounts and contractual adjustments in the consolidated balance sheets. The provision for bad debts is based upon a combination of the aging of receivables and management's assessment of historical and expected net collections considering business and economic conditions, trends in health care coverage, and other collection indicators. Management assesses the adequacy of the allowance for doubtful accounts based upon historical write-off experience and payment trends by payor category. Patient accounts are also monitored and if necessary, past due accounts are placed with collection agencies in accordance with guidelines established by management.

Part III Line 8-Unreimbursed Medicare The state of Texas treats Medicare shortfall calculated using a cost to charge ratio applied to gross charges less payments received as community benefit for meeting statutory requirements for charity care & community benefit. The shortfall amount reported to the state of Texas for 2009 is 3381816, significantly lower than the amount calculated using cost report data as shown above.

2 Needs assessment. Describe how the organization assesses the health care needs of the communities it serves.

Part VI Line 2-Needs Assessment Texas Health community health profiles provide a snapshot of 13 suburban, urban, and rural service areas within North Texas using key health indicators which facilitate comparisons locally, regionally, and over time. Community Health profiles are intended to assist internal stakeholders, entity community health council members, and the Texas Health Community Health Improvement Department in deciding where to allocate resources and address health inequalities. All entity advocates use national, state, and local secondary and primary data sources to provide a current overview of local health needs, factors impacting disease and injury burden, socioeconomic status, access to health care, age distribution indicators, and lifestyle behaviors. This data is used to galvanize joint community health efforts between each Texas Health entity and Texas Health System Services to improve health and reduce health inequalities and to empower the greater community. For example, THW, in collaboration with the Department of Health & Human Services, provided a free toolkit and presentation to the coaching staff on Heads Up relating to concussions in high school sports.

3 Patient education of eligibility for assistance. Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's charity care policy.

Part VI Line 3-Patient Education of Eligibility for Assistance The hospital's financial assistance policy and contact information is posted in various areas of the hospital, including admissions & registration, emergency, and outpatient departments. Additionally, financial assistance information is provided verbally and in written brochures to all self-pay patients by financial counselors. Financial assistance information is also included in every patient bill. Patients who discharge prior to meeting with a financial counselor are advised of financial assistance through phone calls and letters in both English and Spanish. The hospital's financial assistance policy is communicated to the patient by financial counselors who also screen self-pay patients for potential eligibility for other governmental assistance programs. If it is determined that the patient is potentially eligible for governmental assistance, the financial counselor will assist the patient in completing any forms necessary to apply for the assistance. At the same time, the patients are provided with a Texas Health Charity Care application and informational flyer. The patient is informed that the Texas Health hospital is a non-profit charitable organization offering financial assistance to patients who are deemed medically or financially indigent. The financial counselors will then assist the patient in completing the Charity Care application and obtain any available verifications. Once the patient is discharged, the financial counselors will continue to contact the patient to ensure all needed forms and verifications needed to file an application for governmental assistance, and Charity Care have been provided. A description of the Charity Care program and the application are available on the Texas Health Resources Website at [www.TexasHealth.org](#). The application is available in both English and Spanish.

4 Community information. Describe the community the organization serves, taking into account the geographic area and demographic constituents it serves.

Part VI Line 4-Community Information Texas Health Presbyterian Hospital Winnsboro, THW, is located in a rural area with a population of just over 59,000, with an average household income for the service area of \$52,925. Over twelve percent of THW's patients are uninsured, and 128% are Medicaid recipients. The hospital's service area has an uninsured rate of 19.3% of the population. There are five other non-for-profit hospitals, one community hospital, and one for-profit company in the same service area.

5 Community building activities. Describe how the organization's community building activities, as reported in Part II, promote the health of the communities the organization serves.

6 Provide any other information important to describing how the organization's hospitals or other health care facilities further its exempt purpose by promoting the health of the community (e.g., open medical staff, community board, use of surplus funds, etc.).

Part VI Line 6-Other Information The board of trustees is comprised of community members, including medical and business professionals. Many of these trustees reside in the hospital's service area and volunteer their time to the organization. Medical staff privileges are offered to all qualified physicians in the community. The hospital utilizes surplus funds to maintain access to patient services, to expand access to healthcare services, to provide community benefit programs, and to fund capital improvements to the healthcare facilities of the hospital.

7 If the organization is part of an affiliated health care system, describe the respective roles of the organization and its affiliates in promoting the health of the communities served.

Part VI Line 7-Healthcare System The hospital is part of Texas Health Resources. Texas Health, Texas Health is one of the largest faith-based nonprofit health care delivery systems in the United States and the largest in North Texas in terms of patients served. Texas Health's system of 13 hospitals includes Texas Health Harris Methodist Hospitals, Texas Health Arlington Memorial Hospital, Texas Health Presbyterian Hospitals, an employed physician organization, and an organization for medical research and education. The Texas Health system also includes two foundations that foster philanthropic relationships to help support the programs and services of the hospitals they support. The mission of the hospitals in the Texas Health system is to improve the health of the people in the communities served. Texas Health takes its responsibility to its communities seriously and invests charitable resources to promote good health and prevent disease. Not only does Texas Health provide health care services to those who do not have the means to pay its hospitals, it also conducts a variety of programs designed to improve health and prevent illness in the community. The community health strategies of Texas Health and its affiliated healthcare organizations are driven by community health needs, are community-based, and include confronting health problems at the source and emphasize health promotion, disease prevention, and early treatment of illness.

8 If applicable, identify all states with which the organization, or a related organization, files a community benefit report.
