t - Cost basis information was provided by a third party. We treat it as original cost basis, as of the date it is provided, and we assume that for equities, it reflects any prior corporate actions, and for asset-backed fixed-income securities, it reflects any prior principal pay downs. We do not apply any wash sale rules to tax lots with third party-provided cost basis.

d - Adjusted cost basis reflects any cumulative original issue discount, premium, or acquisition premium (including any year-to-date amount). It assumes such amounts were amortized or accrued for tax purposes from the acquisition date through the disposition date. Premium amortization was calculated using the yield-to-maturity method. Acquisition premium was calculated using the ratable accrual method. Any market discount accretion for this position was calculated using the straight-line method and, if applicable, recognized upon disposition. Gain/loss displayed for this transaction is calculated using the cost basis adjustments, as described above. The adjusted cost basis used here may not reflect all adjustments necessary for tax reporting purposes (such as wash sale adjustments) and may not apply if you are using an alternative amortization calculation Refer to IRS Publication 550, *Investment Income and Expenses*, for additional information.

j - Current year amortized premium was calculated using the yield-to-maturity amortization method. Cumulative premium amortization from acquisition date through disposition date is reflected in the adjusted cost basis. For tax-exempt securities, amortization of premium is required and is not deductible from taxable income. For taxable bonds, a tax election may be required to amortize premium, and the current year's amortized premium may be deductible from taxable income. Our adjusted cost basis calculation may not reflect all adjustments necessary for tax reporting purposes. It may not be applicable if you have not made a particular tax election or if you are using an alternative amortization calculation method. Review prior adjustments that you have made, and consult your tax advisor and IRS Publication 550, *Investment Income and Expenses*, for additional information.

a - Average Cost-Single Category

cp - Cost basis information (or proceeds from short sales) was provided by you. We treat it as original cost basis. For equities, we will adjust the cost basis for any corporate actions which our system supports from the date the security was transferred to the account. For asset-backed fixed income securities, we will adjust the cost basis for principal pay downs from the date the security was transferred to the account. We do not apply any wash sale

f - FIFO (First-in, First-out)

p - For fixed income securities subject to paydowns (early repayment of principal), cost basis is adjusted using a method that takes paydowns into account and, in some cases, calculates original issue discount, premium, and acquisition premium using a straight-line method. Note that this method may not produce your adjusted tax basis for federal tax purposes. Refer to IRS Publication 550, *Investment Income and Expenses*, for more information and consult your tax advisor. If gain/loss has not been calculated for this position, it has had return of principal payments greater than it's original cost basis.

Amortization, accretion, and similar adjustments to cost basis are not provided for short-term instruments, unit investment trusts, or securities of foreign issuers.
