Supplemental Information

Complete this part to provide the following information

1

Provide the description required for Part I, line 3c, Part I, line 6a, Part I, line 7g, Part I, line 7, column (f), Part I, line 7, Part III, line 4, Part III, line 8, Part III, line 9b, and Part V See Instructions

The filing organization submits an annual community benefit report to the State of Oregon In addition, the parent organization, Samaritan Health Services (SHS) provides an annual report to the community that includes community benefit reporting for the system as a whole

Physician clinics meeting the definition of subsidized health services were included in the reporting for line 7g The portion of net community benefit expense related to these clinics is \$3,848,968

The costing methodology used to calculate the amounts reported in Schedule H, Part I, line 7a and 7b is a cost-to-charge ratio derived using Worksheet 2, Ratio of Patient Care Cost-to-Charges from the Schedule H instructions For line 7g, a combination of the cost-to-charge ratio and cost accounting system calculations is used since not all services are tracked in the cost accounting system

The costing methodology used to calculate bad debt expense (at cost) on line 2 of Part III is based on the facility cost-to-charge ratio, in conjunction with Worksheet A from the Schedule H, Part III instructions Line 3 represents an estimate of the amount of cost included in Line 2(bad debt expense at cost) that reasonably could be attributable to patients who likely would qualify for financial assistance under the organization's charity care policy, but for whom the organization was not able to obtain sufficient information to make a determination The methodology used to estimate this potential charity care cost is based on financial assistance applications denied due to incomplete documentation, multiplied by the average charity care write-off for approved applications Mid-Valley Healthcare, Inc (MVH), includes Samaritan Lebanon Community Hospital (SLCH) one of five hospitals of Samaritan Health Services (SHS) As a network, SHS prepares its financial statements on a consolidated basis Footnote 1(r) from the audited consolidated financial statements entitled "Provision for Uncollectible Accounts" describes bad debt expense as follows "SHS provides for an allowance against patient accounts receivable for amounts that could become uncollectible SHS estimates this allowance based on the aging of accounts receivable, historical collection experience by payor, and other relevant factors There are various factors that can impact the collection trends, such as changes in the economy, which in turn have an impact on unemployment rates and the number of uninsured and underinsured patients, the increased burden of copayments to be made by patients with insurance coverage and business practices related to collection efforts These factors continuously change and can have an impact on collection trends and the estimation process used by SHS "

Total Medicare allowable costs reported on Part III, Section B, line 6 is calculated by utilizing Worksheet B in the Schedule H instructions in conjunction with amounts taken directly from the filing organization's Medicare cost report The cost report includes activity for Medicare fee-for-service patients but not Medicare managed care patients

Per hospital guidelines, if a patient is determined to qualify for financial assistance prior to sending an account to collections, the charity write-off is processed and no collection attempt is made If an account is already in collections and Medicaid eligibility is deemed active during the account date of service, no further collection attempt will be made

None
