Feather River Hospital provides quality medical health care regardless of race, creed, sex, national origin, handicap, age, or ability to pay. Although reimbursement for services rendered is critical to the operation and stability of Feather River Hospital, the organization recognizes that not all individuals possess the ability to pay for essential medical services. Adventist Health's vision is to enhance the health of the communities where we live and serve, by engaging our communities and our patients in a new definition of a partnership for personal community health. In keeping with this commitment to serve all members of the community, the following will be considered when individuals who need health care cannot pay: providing free care and/or subsidized care; providing care to persons covered by governmental programs at below cost; providing health/wellness activities and community education programs. Not only does Feather River Hospital provide low-cost care to individuals covered by government programs and those unable to afford health care, but it also helps patients find and access private and governmental resources for health care benefits. Feather River Hospital recognizes below-cost reimbursement as charity and uncompensated care in meeting its mission to the entire community. The unreimbursed value of providing care to these patients in 2009 was \$13,175,960. Inpatient services in 2009 were provided to 5,910 patients. Part VI Supplemental Information

Complete this part to provide the following information

- 1** Provide the description required for Part I, line 3c, Part I, line 6a, Part I, line 7g, Part I, line 7, column (f), Part I, line 7, Part III, line 4, Part III, line 8, Part III, line 9b, and Part V See Instructions

[illegible]

Part III, Line 4Uncollected patient accounts are analyzed using written patient financial services policies that apply standard procedures for all patient accounts. The result of the analysis is what is recognized as bad debt expense. For example, all self-pay patients receive a discount. If the discounted account is unpaid after collection efforts, the unpaid balance is classified as bad debt. The cost-to-charge ratio described for Part I, Line 7 is multiplied times the hospital's bad debt expense as reported in the system-wide audited combined financial statements. The resulting figure has been reported as bad debts at cost on Part III, Line 2. The portion of the bad debts attributed to charity care as reported on Part III, Line 3 was calculated by an independent third-party consulting firm. A statistically valid sampling of patient accounts written-off was evaluated. The evaluation used various factors to determine which patients would have been eligible for charity care. Had the hospital obtained sufficient information, those accounts would have been reclassified from bad debt expense to charity care. The system-wide audited combined financial statements do not contain a footnote describing bad debt expense.

Part III, Line 8 The Medicare cost report apportions the hospitals costs on the basis of inpatient days and ancillary and outpatient charges to establish the costing methodology Healthcare delivery by hospitals is a complex, highly regulated business in the United States Healthcare unit cost inflation is driven by compliance with ever-expanding regulatory requirements, shortages of highly skilled labor and evolving medical and information technology The health care market basket is unrelated to that of the average individual consumer Since the 1997 Balanced Budget Act, Medicare annual payment updates have fallen behind actual healthcare cost inflation to the point that Medicare payments to many U S hospitals are well below the cost of providing care These unreimbursed costs are a community benefit for seniors and others in the community as these individuals are continuing to receive care without which many would become dependent on other governmental resources such as Medicaid The benefit to the community for healthier Medicare recipients is no different than those benefits the community realizes for uninsured and underinsured patients who are eligible for partial and full charity care Medicare is a safety net for seniors and others Without Medicare coverage, many individuals would undoubtedly qualify for charity care In addition to the mismatch between Medicare payment increases and healthcare cost inflation, the highly complex Medicare payment systems and formulas produce disparate payment levels from one hospital to another for the same service These disparate payment levels create disparate results within groups of hospitals Supplemental for Part III, Line 8 Reconciliation of Medicare Revenue from the Hospital's Medicare Cost Report to GL Revenue Rec * Medicare Cost Report Revenue 48,966,698 Prior Year Settlements 2,090,730 Cost Report Reimbursable Bad Debts 427,983 Estimates and Accrual Variances (360,429) Amounts included in Part 1, lines g and f - Other 204,184 Total Medicare Revenue in G/L 51,329,166 * Note The Medicare Cost Report revenue does not include the bad debt reimbursement The Cost Report revenue does include the patient co-pay and deductible amounts Adding the bad debt reimbursement would have duplicated the revenue already accounted for in the co-pay and deductible amounts

When a patient has requested screening for charity care, the hospital must immediately cease collection activity and place the account in a charity pending status. If 100% charity is approved, the entire account balance is written off to charity care. If the patient has a sliding scale liability based on the federal poverty guidelines, they are billed only for that liability. If the patient fails to pay their after-charity liability, they are assigned to a collection agency with an identifier that indicates to the agency that the patient is "low income" and the following criteria must be followed by the agency: 1. They may not report the patient to a credit bureau; 2. They may not file a lawsuit to recover the outstanding liability; 3. They may not charge interest.

Part I, Line 7 The costs were determined by using a cost-to-charge ratio. The cost-to-charge computation is based on hospital specific data included in the system-wide audited combined financial statements. The formula used for computation equals financial statement data labeled as follows: $\text{Total expenses} - (\text{Provision for bad debts} + \text{Other revenue} + \text{Interest income}) / \text{Gross patient charges}$.

- 2 Needs assessment.** Describe how the organization assesses the health care needs of the communities it serves
- The organization conducts a Community Needs Assessment every three years in conjunction with its annual community survey tool. These additional questions are extrapolated into a specific community needs assessment report and are evaluated in addition to other data compiled from various other listening posts throughout the organization, such as the Physician Referral program, the President's Advisory Forum, complaint data, bright idea suggestions and community outreach at events
-
- 3 Patient education of eligibility for assistance.** Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's charity care policy
- At the time of registration, patients who are uninsured and underinsured are provided information about government healthcare programs. Patients also are orally informed of their right to request charity assistance. Signs and other communiqués are posted and displayed throughout the hospital in multiple languages informing patients of this right as well. The hospital also provides a brochure during the registration process that explains the hospital billing and collection procedures, and how to request financial assistance. In addition, every billing statement sent to patients contains information on how to request financial assistance
-
- 4 Community information.** Describe the community the organization serves, taking into account the geographic area and demographic constituents it serves

The hospital's secondary service area is defined broadly as those communities surrounding the primary service area, namely Oroville, Chico, Durham, Gridley, etc. This broader geographical region is comprised of more than 120,000 residents. Some services of the hospital (such as the Birth Day Place and the Joint Replacement Center) bring in patients from communities outside these service area designations, due to their specialty and reputation. Identifier	Return Reference	Explanation
Sch J, Part I, Line 6b	Part I, Line 6b Explanation of organization compensation contingent on net earnings from related or	A flexible benefits plan (CAA) is offered to groups of highly-compensated employees meeting certain criteria. The participants are provided with an amount equivalent to 41 percent of their base compensation, less the value of their corporate provided benefits, from which to select various benefits. A portion may be set aside for nonvested deferred compensation that is subject to substantial risk of forfeiture and is at risk to the creditors of Adventist Health. Payouts occur according to the participants' payment elections after all substantial risks of forfeiture have lapsed. The Supplemental Executive Retirement Plan (SERP) is a defined contribution plan designed to encourage the participants continued employment with Adventist Health and is subject to the participants satisfying specified substantial risks of forfeiture. The SERP benefit distribution occurs when the executive achieves 30 years of Adventist health care service, 20 of which are to be as an executive and at least 10 are to be with Adventist Health System/West, and reaches age 60. Until that time, the SERP benefit is at risk to the creditors of Adventist Health. The SERP benefit is designed to help the executive receive employer-provided retirement benefit income equal to 60% of pre-retirement income. This goal is below the market median for executive retirement plans in the not-for-profit health care industry. An incentive plan is included as part of the board-approved compensation plan for hospital executives. The hospital has a similar plan for department directors. The purpose of these plans is to provide incentives to hospital management to accomplish the financial, operational, quality, and mission objectives of the hospital during each fiscal year. Each member of the management team is evaluated against pre-determined objectives to arrive at the incentive amount, if any, for the fiscal year. See Schedule O for additional detail.
