AMA/GLMA Survey of US Physicians on LGBT Healthcare Needs					
In 2009, GLMA and the American Medical Association (AMA) contin	ued work on a joint				
project to study physicians' attitudes, knowledge and beliefs a	bout LGBT patients'				
unique health care needs. The AMA is supporting this project wi	th a \$100,000 grant				
to GLMA to conduct two national surveys. In 2008, GLMA and AMA	staff conducted an				
extensive literature review and finalized the survey instrument	. The first survey				
was conducted in the spring of 2008, and investigated the exper	iences of LGBT				
physicians and their perceptions of discrimination against LGBT	patients and				
healthcare professionals. A second survey, was mailed to a rand	omly selected sample				
of U.S. physicians who specialize family practice, internal med	icine, adolescent				
medicine, obstetrics and gynecology, and psychiatry in the fall	of 2008. This survey				
will investigate physician experiences, practices, attitudes an	d training related to				
their LGBT patients and colleagues. Analysis of these surveys w	ill be finalized in

Lesbian Health Fund					
One of GLMA's most important programs is the Lesbian Health Fun	d (LHF), which makes				
direct grants to fund lesbian health research, the world's only	fund solely				
dedicated to the unique health needs of lesbians. In 2009, LHF	awarded grants				
totaling more than \$65,000 to projects for lesbian health resear	rch. Recent areas or				
research include alternative insemination in sexual minority wor	men, social exclusion

Since its founding in 1992, LHF has provided more than \$616,000 in funding for this important research. LHF grantees have gone on to secure over \$10 million in funding from a variety of sources for follow-on studies, made possible because of findings from their LHF-funded research. Form 990, Part III, Line 4d - Other Program Services Description Provider Directory An important aspect of GLMA's work is to connect members of the LGBT community with culturally competent health care providers. Discrimination in health care settings and barriers to insurance coverage for members of the LGBT community continue to discourage regular visits to a primary care providers, and often inhibit the quality of information sharing necessary between patients and providers. In some areas of the country, it can be very difficult to find an LGBT friendly therapist, a fertility clinic who will work with same-sex couples, or providers with HIV/AIDS care training. In 2008 GLMA made technology investments to expand provider directory, which was in created in 2001. During 2009, the number of providers listed in the online directory increased 70%, from 706 to 1205. On average, in 2009, more than 3,000 unique users visit the online provider directory each month. GLMA staff also provides live assistance to those without internet access.
