INDEPTH meets the facts-and-circumstances test because its level of public support is consistently above 20% and:

(1) It is organized and operated to attract new and additional public or governmental support on a continuous basis.

It regularly solicits funds from international nongovernmental organizations, governments and governmental agencies, private foundations, public charities, corporations and individuals. Its current support derives from a broadly representative range of sources--not a single family or foundation--including international nongovernmental agencies, academic research institutes and several private foundations. (2) Its governing body represents the broad interests of the scientific and medical community that it serves. Its governing body consists of individuals with special knowledge or expertise in the field in which Indepth operates who bring expertise from diverse regions (Africa, Europe and India). In addition to its board, to ensure that Indepth's goals align with health, population and social issues and areas of greatest potential impact Indepth is advised by a "Scientific Advisory Committee" consisting of 15 individuals who represent diverse constituencies and a broad cross-section of the views and interests of the medical and public health community, including NGOs, academic institutions, pharmaceutical and clinical research organizations, and other organizations.

(3) INDEPTH provides services directly for the benefit of the public on a continuing basis through a definitive program to accomplish its charitable work in the community, and it regularly publishes the results of its studies, which are widely used by others in the medical and scientific community. INDEPTH provides an empirical understanding of health and social issues in resource-constrained countries and applies this understanding to alleviate the most severe health and social challenges in those countries. Indepth disseminates the results of its findings through the "Indepth Monograph Series," a compilation of comparative data provided by various Sites on particular health topics. Monographs are distributed to the media, universities, libraries, Ministries of Health, DS Sites, donors and developmental partners free of charge to share knowledge and bridge the information gap. INDEPTH publishes the results of its research and DS Site findings in various publications, journals and newsletters published by international NGOs, and presents its findings and achievements through consortiums and at international conferences, such as the INDEPTH Annual General and Scientific Meeting.
