		The Organization adopted ASC Topic 740, Income Taxes, on May 1, 2009. This guidance was created to develop a single model to address accounting for uncertainty in tax positions. The guidance clarifies the accounting for income taxes by prescribing a minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. The guidance also provides guidance on derecognition, measurement, classification, interest and penalties, disclosure and transition. The adoption of this guidance did not have a significant impact on the Organization's financial position or results of operations.
