FIN 48	SCHEDULE D PART X	On June 1, 2009, the Association adopted recently issued accounting rules for uncertain tax positions. These rules require financial statement recognition of the impact of a tax position if a position is more likely than not of being sustained on audit, based on the technical merits of the position. The rules also provide guidance on measurement, derecognition, classification, interest and penalties, accounting in interim periods, transition, and disclosure requirements for uncertain tax positions, including those related to unrelated business income. The adoption of the new rules had no impact on the consolidated financial statements. The federal tax returns for tax years ending May 31, 2007 and later remain subject to examination by taxing authorities.
