Identifier	Return Reference	Explanation
Part X	Description of Uncertain Tax Positions Under FIN 48	The Organization accounts for uncertain income tax positions by prescribing a minimum probability threshold a tax position must meet before a financial statement income tax benefit is recognized The minimum threshold is defined as a tax position, based solely on its technical merits, that would more likely than not be sustained upon examination by the relevant tax authority with knowledge of the same facts The tax benefit to be recognized is measured as the largest amount of benefit that is greater than 50% likely of being realized upon ultimate resolution Based on all known facts and circumstances and current tax law, the Organization believes the total amount of uncertain income tax position liabilities and related accrued interest are not material to its financial position
