Part V, Line 4	Description of Intended Use of Endowment Funds	The Foundation's endowment consists of approximately 175 individual funds established by donor contributions for a variety of purposes As required by generally accepted accounting principles, net assets associated with endowment funds, including funds designated by the Board to function as endowments, are classified and reported based on the existence or absence of donor-imposed or legal restrictions The Board of Directors has interpreted state law as allowing the utilization of appreciation on permanently restricted assets unless explicit donor stipulations specify how net appreciation must be used As a result of this interpretation, the Foundation classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by state law The Foundation has adopted investment and spending policies for its endowment assets that attempt to provide a predictable stream of funding for its programs while seeking to maintain the purchasing power of the endowment assets Under this policy, as approved by the Board, the Foundation shall seek to invest the endowment funds in such a manner that the investments will provide a spendable return consistent with a long-term goal of preserving the funds in real terms Actual returns in any given year may vary from this amount To satisfy its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends) The Foundation has invested in debt and equity securities that target a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints In order to address highly unstable market conditions, the committee began placing all new monies received in cash or cash equivalents in short term certificates of deposit as a temporary measure until market conditions showed signs of stabilizing This temporary measure was implemented in October of 2008 and continued until the end of the fiscal year
