Also complete this part to provide any additional information.

Effective July 1, 2009, the Association adopted a new accounting standard "Accounting for Uncertainty in Income Taxes", which creates a single model to address accounting for uncertainty in tax positions. It clarifies the accounting for income taxes by prescribing a minimum recognition threshold a tax position is required to meet before being recognized in the consolidated financial statements. It also provides guidance on derecognition, measurement, classification, interest and penalties, disclosure and transition. Management has determined that the Association has no material uncertain tax positions that would require recognition.
