Identifier	Return Reference	Explanation
Part X	Description of Uncertain Tax Positions Under FIN 48	The Foundation, the Institute, WiSys, Properties, and the Corporation have been granted an exemption from federal income tax under Section 501(c)(3) of the Internal Revenue Code. Under this exemption, income tax is paid only on net unrelated business income. The organizations are also exempt from Wisconsin income and real estate tax. On July 1, 2009, the Organization adopted the accounting standard on accounting for uncertainty in income taxes, which addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under this guidance, the Organization may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities, based on the technical merits of the position. Examples of tax positions include the tax-exempt status of the Organization and various positions related to the potential sources of unrelated business taxable income (UBIT). The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement. The guidance on accounting for uncertainty in income taxes also addresses de-recognition, classification, interest and penalties on income taxes, and accounting in interim periods. Upon implementation of this guidance and as of June 30, 2010, there were no unrecognized tax benefits identified or recorded as liabilities. The Organization files forms 990 in the U.S. federal jurisdiction and the state of Wisconsin. With few exceptions, the Organization is no longer subject to examination by the Internal Revenue Service for years before 2007.
