If applicable, describe the income-based criteria for determining eligibility for free or discounted care under the organization's charity care policy. Also describe whether the organization uses the asset test or other threshold regardless of income to determine eligibility for free or discounted care. When Catholic Health Initiatives (the ultimate parent organization to Lakewood Health Center) established its charity care policy it was determined that establishing a household income scale based on the HUD very low income guidelines more accurately reflects the socioeconomic dispersions among the 69 urban and rural communities in 19 states served by CHI hospitals and health care facilities. In comparing HUD guidelines to the Federal Poverty Guidelines ("FPG"), we find that on average HUD guidelines compute to approximately 200% to 250% (and sometimes 300%) of FPG. Lakewood Health Center bases its charity care eligibility on HUD's 130% of Very Low Income Guidelines based on geography, and affords the uninsured and underinsured the ability to obtain charity care write-offs, based on a sliding scale after that to about 195% of the guidelines. An individual's income under the HUD guidelines is a significant factor in determining eligibility for charity care. However, in determining whether to extend discounted or free care to a patient, the patient's assets may also be taken into consideration. For example, a patient suffering a catastrophic illness may have a reasonable level of income, but a low level of liquid assets such that the payment of medical bills would be seriously detrimental to the patient's basic financial (and ultimately physical) well-being and survival. Such a patient may be extended discounted or free care based upon the facts and circumstances.

Provide an explanation of the costing methodology used to calculate the amounts reported in the table. If a cost accounting system was used, indicate whether the cost accounting system addresses all patient segments (for example, inpatient, outpatient, emergency room, private insurance, Medicaid, Medicare, uninsured or self pay). Also indicate whether a cost-to-charge ratio was used for any of the figures reported in the table. Describe whether this cost-to-charge ratio was derived from Worksheet 2, and, if not, what kind of cost-to-charge ratio was used and how it was derived. If some other costing methodology was used besides a cost accounting system, cost-to-charge ratio, or a combination of the two, describe the method used. A cost accounting system was not used to compute amounts in the table, rather costs in the table were computed using the organization's cost-to-charge ratio. The cost-to-charge ratio covers all patient segments. The cost-to-charge ratio for the year ended 6/30/10 was computed using the following formula: Operating expense (before restructuring, impairment and other losses) divided by gross patient revenue. Based on that formula, \$14,049,516 / \$18,619,041 results in a 75% cost-to-charge ratio. Worksheet 2 was not used to derive the cost-to-charge ratio.

Form 990 Schedule H, Part VI - Supplemental Information, Line 1

Provide the rationale and the costing methodology used to determine the amount reported in Part III lines 2 and 3. Describe how the organization accounts for discounts and payments on patient accounts in determining bad debt expense. Also describe the method the organization uses to determine the amount that reasonably could be attributable to patients who likely would qualify for financial assistance under the hospital's charity care policy, if sufficient information has been available to make a determination as to their eligibility. Also, provide if applicable, the text of the footnote to the organization's financial statements that describes bad debt expense. If the organization's financial statements include a footnote on these issues that also includes other information, report only the relevant portions of the footnote. If the organization's financial statements do not contain such a footnote, state that the organization's financial statements do not include such a footnote and explain how the financial statements account for bad debt, if at all. Costing methodology for amounts reported on line 2 is determined using the organization's cost/charge ratio of 75%. When discounts are extended to self-pay patients, these patient account discounts are recorded as a reduction in revenue, not as bad debt expense. Lakewood Health Center does not believe that any portion of bad debt expense could reasonably be attributed to patients who qualify for financial assistance since amounts due from those individuals' accounts will be reclassified from bad debt expense to charity care within 30 days following the date that the patient is determined to qualify for charity care. Lakewood Health Center does not issue separate company audited financial statements, however, this organization is included in the consolidated financial statements of Catholic Health Initiatives. The consolidated bad debt footnote reads as follows: "the provision for bad debts is based upon management's assessment of historical and expected net collections considering historical business and economic conditions, trends in health care coverage, and other collection indicators. Management periodically assesses the adequacy of the allowances for uncollectible accounts based upon historical write-off experience by payer category. The results of these reviews are used to modify, as necessary, the provision for bad debts and to establish appropriate allowances for uncollectible net patient accounts receivable. After satisfaction of amounts due from insurance, CHI follows established guidelines for placing certain patient balances with collection agencies, subject to the terms of certain restrictions on collection efforts as determined by each facility."

Form 990 Schedule H, Part VI - Supplemental Information, Line 1

(A) Describe the costing methodology used to determine the Medicare allowable costs reported in the organization's Medicare Cost Report, as reflected in the amount reported in Part III, line 6 (B) Describe, if applicable, the extent to which any shortfall reported in Part III, line 7 should be treated as a community benefit, and the rationale for the organization's position (A) Lakewood Health Center is designated as a Critical Access Hospital ("CAH") CAHs are rural community hospitals that are certified to receive cost-based reimbursement from Medicare The reimbursement that CAHs receive is intended to improve their financial performance and thereby reduce hospital closures CAHs are certified under a different set of Medicare Conditions of Participation (CoP) Shortfalls are created when a facility receives payments that are less than the costs of caring for program beneficiaries Because shortfalls are based on costs, not charges, and Lakewood Health Center, due to their designation as a CAH, received cost-based reimbursement for Medicare purposes, Lakewood Health Center will not experience Medicare related shortfalls (B) However Lakewood Health Center and its affiliates, believe that excluding Medicare losses from community benefit makes the overall community benefit report more credible for these reasons Unlike subsidized areas such as burn units or behavioral-health services, Medicare is not a differentiating feature of tax-exempt health care organizations In fact, for-profit hospitals focus on attracting patients with Medicare coverage, especially in the case of well-paid services that include cardiac and orthopedics Significant effort and resources are devoted to ensuring that hospitals are reimbursed appropriately by the Medicare program The Medicare Payment Advisory Commission (MedPAC), an independent Congressional agency, carefully studies Medicare payment and the access to care that Medicare beneficiaries receive The commission recommends payment adjustments to Congress accordingly Though Medicare losses are not included by Catholic hospitals as community benefit, the Catholic Health Association guidelines allow hospitals to count as community benefit some programs that specifically serve the Medicare population For instance, if hospitals operate programs for patients with Medicare benefits that respond to identified community needs, generate losses for the hospital, and meet other criteria, these programs can be included in the CHA framework in Category C as "subsidized health services " Medicare losses are different from Medicaid losses, which are counted in the CHA community benefit framework, because Medicaid reimbursements generally do not receive the level of attention paid to Medicare reimbursement Medicaid payment is largely driven by what states can afford to pay, and is typically substantially less than what Medicare pays

Form 990 Schedule H, Part VI - Supplemental Information, Line 1

If the organization has a written debt collection policy and answered "yes" to Part III, line 9b, describe the collection practices set forth in the policy that apply to patients who it knows qualify for charity care or financial assistance, whether or not such practices apply specifically to such patients or more broadly to also cover other types of patients. Lakewood Health Center's debt collection policy provides that Lakewood Health Center will perform a reasonable review of each inpatient account prior to turning an account over to a third-party collection agent and prior to instituting any legal action for non-payment, to assure that the patient and patient guarantor are not eligible for any assistance program (e.g., Medicaid) and do not qualify for coverage through Lakewood Health Center community assistance policy. After having been turned over to a third-party collection agent, any patient account that is subsequently determined to meet the Lakewood Health Center community assistance policy is required to be returned immediately by the third-party collection agent to Lakewood Health Center for appropriate follow-up. Lakewood Health Center requires its third-party collection agents to include a message on all statements indicating that if a patient or patient guarantor meets certain stipulated income requirements, the patient or patient guarantor may be eligible for financial assistance. All of Catholic Health Initiatives' hospitals' contracts with third-party collection agencies include the following standards: * Neither CHI hospitals nor their collection agencies will request bench or arrest warrants as a result of non-payment, * Neither CHI hospitals nor their collection agencies will seek liens that would require the sale or foreclosure of a primary residence, and * No Catholic Health Initiatives' collection agency may seek court action without hospital approval. Finally, collection agencies are trained on the Catholic Health Initiatives Mission, Core Values and Standard of Conduct to make sure all patients are treated with dignity and respect.

Introduction

LakeWood Health Center Mission, Vision and Tax-Exempt Purpose

The mission of LakeWood Health Center and Catholic Health Initiatives is to nurture the healing ministry of the Church by bringing it new life, energy and viability in the 21st century. Fidelity to the Gospel urges us to emphasize human dignity and social justice as we move toward the creation of healthier communities. The vision of LakeWood Health Center and Catholic Health Initiatives' is to live up to our name as one CHI.

Initiatives

Pioneering models and systems of care to enhance care delivery

LakeWood Health Center in Baudette, Minnesota, is a Catholic, not-for-profit care organization, sponsored by Catholic Health Initiatives, one of the largest Catholic, not-for-profit health care systems in America. LakeWood Health Center is dedicated to the health and well-being of the community and to providing quality, holistic health care services and facilities for the residents of Baudette, Lake of the Woods County and surrounding communities of the Lake of the Woods Region. LakeWood Health Center is located in a rural and isolated area of Northern Minnesota serving Lake of the Woods County and surrounding counties of Roseau, Koochiching, Beltrami and on occasion residents of Canada. LakeWood Health Center is a federally designated, 15-bed Critical Access Hospital. LakeWood Health Center offers a continuum of care including long-term care, assisted residential community (board and lodging with services), home care, hospice, public health, school nursing, hospital care and outpatient services to include clinic office visits. LakeWood Health Center closed OB services in September 2009. The clinic is staffed with three family practice physicians and one family practice nurse practitioner. LakeWood Health Center serves all persons in the community on a nondiscriminatory basis and participates in Medicaid and Medicare programs. The emergency room is available 24 hours a day and is open to all persons regardless of ability to pay. LakeWood Health Center has partnered with Hibbing Community College to bring the Associate Degree RN program to North Central Minnesota, to make nursing education accessible and to address potential nursing shortage issues that are projected into the future. LakeWood Health Center provides classroom space, ITV equipment, clinical experience and clinical instructors for the nursing program. LakeWood Health Center has a governing body (Board of Directors) of independent persons representative of the community comprising the majority along with three board members from within the organization.

History

LakeWood Health Center opened in March 1950 as Baudette Community Hospital. It was owned by the community and operated by the Sisters of St. Joseph out of Crookston. The hospital was leased to the Sisters of St. Joseph in 1954 and in 1957 the Sisters purchased the hospital and changed the name to "Trinity Hospital." In 1982, the Sisters entered into a management contract with United Health Resources of Grand Forks, North Dakota until the hospital was sold to Franciscan Sisters Health Care, Incorporated in 1985. During this time, Trinity Hospital took over management of the Pioneer Nursing Home, the long-term care facility located one mile east of the hospital. In 1986, the hospital acquired the county-owned public health service. Trinity Hospital bought the Pioneer Nursing Home in 1990 and the name was changed to "LakeWood Health Center" to reflect the coming together of acute care, long-term care (LakeWood Care Center), and home health/public health (LakeWood Nursing Service) under one umbrella. Catholic Health Corporation of Omaha, Nebraska took over sponsorship of LakeWood Health Center in 1993. Two years later they merged with two other large Catholic health care systems to form Catholic Health Initiatives (CHI), our current sponsor, based in Denver, Colorado. LakeWood Health Center completed a building and renovation project in 2000 that resulted in all health care services being available on one campus. LakeWood Health Center is the only healthcare provider in Lake of the Woods County.

II. Community Benefit Approach

We are a small facility in a rural area.

Form 990 Schedule H, Part VI - Supplemental Information, Line 2

nd isolated setting Lake of the Woods County census is declining and estimated at 4000 and population per square mile is 3.1. The decline in population is thought to be related to the economic downturn and loss of young families from the area. Collaborating and cooperating with our community is "a way of life" and part of the culture for LakeWood Health Center and its employees. LakeWood Health Center is the largest employer in the county with an economic impact of about 18.3 million dollars. The Mission Leader and Chief Financial Officer gather and track the community benefit data. The Board of Directors and Senior Leadership Team along with Department Heads collaborate throughout the year on how to make a difference in the community we serve and are a part. Community focus groups were held April - July of 2009 to assess the needs of the community. At this forum, needs identified were wellness education, a variety of support group needs, nutrition with a focus on plans to assist with planned weight loss, improved dental care, need for more public transportation, and identified limited access to psychiatry, podiatry, ophthalmology, audiology, and obtaining dialysis services closer to home. The community is interested in how technology can be utilized in this area as advances are made in telemedicine. Community forums are held with the community every three to five years to review progress on community goals, assess current needs and update action plans. A coalition for Violence Prevention was most recently formed to identify a priority focus and develop an action plan to prevent at least one form of violence. Violence within our community was identified within the focus groups as an outcome from other "abuses" - alcohol or substance abuse were noted as the main root cause for much of the domestic abuse/violence that occurs within the community. The current economic situation has contributed another stressor for people to look to drugs and alcohol. Bullying was brought forward within the groups as a topic of concern primarily for school-age children. Bullying isn't primarily done the old-fashion way. Rather, much of the bullying is through texting on cell phones or through Facebook and other online communication venues. It was even noted that children are not learning how to handle social issues because of the migration from face-to-face conversations to online relationships and exchanges. LakeWood Health Center strives to have community benefit a visible part of who we are and provide an annual report for our community. We are thankful to have the resources of time, talent and other gifts to share for the good of our community. Financial Assistance Policies and Programs "Spirit of Caring" is an internal program (traditional charity care) for the medically needy that will assist patients, residents or clients financially by forgiving or reducing their medical debt at LakeWood Health Center. The billing and insurance office identifies those individuals or families without insurance coverage or those that are underinsured and provides application assistance for this program. A pamphlet on payment options and financial assistance is available in the lobby areas of the facility for patients and visitors to read and take with them and includes contact information. All staff receive annual education reviewing the availability of the charity care program. The "Spirit of Caring" program is highlighted with the annual community benefit report published in the NorthReach (facility newsletter for the public - sent to approximately 6000 box holders). III Qualitative Description of Community Benefit Diabetes Resource Center LakeWood Health Center, in conjunction with the local retail pharmacy, has developed the Diabetes Resource Center to bring awareness of the chronic disease to the public and provide education for people with diabetes to help them understand and manage their disease. The program is offered in class sessions and encourage

Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's charity care policy Lakewood Health Center includes information concerning its financial assistance policy on its website Lakewood Health Center prominently displays its charity care policy in both English and Spanish in obvious locations throughout the hospitals, including the emergency rooms and other patient intake areas, as well as in Lakewood Health Center outpatient facilities In addition, Lakewood Health Center registration clerks are trained to provide consultation to those who have no insurance or potentially inadequate insurance concerning their financial options including application for Medicaid and for financial assistance under Lakewood Health Center's charity care policy Upon registration (and once all EMTALA requirements are met), patients who are identified as uninsured (and not covered by Medicare or Medicaid) are provided with a packet of information that addresses the financial assistance policy and procedures including an application for assistance Lakewood Health Center registration clerks read the organization's medical assistance policy to those who appear to be incapable of reading, and provide translators for non English-speaking individuals Lakewood Health Center's staff will also assist the patient/guarantor with applying for other available coverage (such as Medicaid), if necessary Counselors assist Medicare eligible patients in enrollment by providing referrals to the appropriate government agencies

Form 990 Schedule H, Part VI - Supplemental Information, Line 7

If the organization is part of an affiliated health care system, describe the respective roles of the organization and its affiliates in promoting the health of the communities served. Lakewood Health Center, along with its affiliated outpatient facilities are part of Catholic Health Initiatives. Catholic Health Initiatives (CHI) is a national faith-based nonprofit health care organization with headquarters in Englewood, Colorado. CHI's exempt purpose is to serve as an integral part of its national system of hospitals and other charitable entities, which are described as market-based organizations, or MBOs. An MBO is a direct provider of care or services within a defined market area that may be an integrated health system and/or a stand-alone hospital or other facility or service provider. CHI serves as the parent corporation of its MBOs which are comprised of 73 hospitals, 40 long-term care, assisted- and residential-living facilities, and two community health-services organizations. Together, these facilities provided \$590 million in charity care and community benefit in the 2010 fiscal year, including services for the poor, free clinics, education and research. CHI provides strategic planning and management services as well as centralized "shared services" for the MBOs. The provision of centralized management and shared services - including areas such as accounting, human resources, payroll and supply chain - provides economies of scale and purchasing power to the MBOs. Cost savings associated with centralized services for the fiscal year ended June 30, 2010 include more than \$105 million in supply chain expense, approximately \$30 million for insurance costs and more than \$3.9 million as the result of a system-wide effort to coordinate and negotiate technology and equipment purchases. The cost savings achieved through CHI's centralization enable MBOs to dedicate additional resources to high-quality health care and community outreach services to the most vulnerable members of our society.
