If applicable, describe the income-based criteria for determining eligibility for free or discounted care under the organization's charity care policy. Also describe whether the organization uses the asset test or other threshold regardless of income to determine eligibility for free or discounted care. Saint Elizabeth Regional Medical Center provides free and discounted care to certain patients whose health insurance coverage, if any, does not provide full coverage for all of their medical expenses. The amount of any free or discounted care provided by SERMC takes into consideration the patient's income and assets, and the extent to which payment of the uninsured medical expenses would make that patient indigent. When Catholic Health Initiatives, the parent organization to Saint Elizabeth Regional Medical Center, established its charity care policy it was determined that a household income scale based upon the HUD Very-Low Income Guidelines more accurately reflected the socioeconomic dispersions among urban and rural communities across the states. In comparing HUD guidelines to the Federal Poverty Guidelines "FPG", it was noted that on average HUD guidelines compute to approximately 200% to 300% of FPG. An individual's income under the HUD guidelines is a significant factor in determining eligibility for charity care, however, in determining whether to extend discounted or free care to a patient, the patient's assets may also be taken into consideration. For example, a patient suffering a catastrophic illness may have a reasonable level of income, but a low level of liquid assets such that the payment of medical bills may be seriously detrimental to the patients basic financial well being and survival. Such patients may be extended discounted or free care based upon these extenuating facts and circumstances. Saint Elizabeth Regional Medical Center's eligibility for the application of charity discounts is based upon 130% of the annually updated HUD Very-Low Income guidelines. The HUD Guidelines take into consideration family incomes that do not exceed 50% of the median family income for a geographic area and utilize a sliding scale approach based upon family income and size. Patients whose income is less than or equal to the "base" may be eligible for an uninsured discount of 100%. Patients whose income is greater than the base, but less than 150% of the base may be entitled to a discount of between 25% and 100% based upon that individual's circumstances. Patients whose income is more than 150% of base will generally not qualify for a discount, except under unusual circumstances.

If the organization's community benefit report is contained in a report prepared by a related organization, rather than a separate report prepared by the organization, identify the related organization Saint Elizabeth Regional Medical Center prepares an annual community benefits report at the close of each fiscal year This report explains the past years' initiatives toward developing Healthier Communities and spotlights real life stories of how patients have benefited from these activities Employee engagement in community health improvement, charity care, cash and in-kind contributions, health professional education and other community benefits provided are discussed The Community Benefit Report includes the activities of Saint Elizabeth Regional Medical Center and its Affiliates (Saint Elizabeth Foundation and Saint Elizabeth Health Services) This report is provided to the Board of Directors, management team, mayor of the community, Chamber of Commerce, State Senators, City council members, University Board of Regents, employees of the organization, various other community stakeholders and also is distributed to approximately 80,000 households within our service area In addition to the hard copy distribution of the Community Benefits Report it is also made available by posting on-line at [http //www saintelizabethonline com](http://www.saintelizabethonline.com)

Form 990 Schedule H, Part VI - Supplemental Information, Line 1

Provide an explanation of the costing methodology used to calculate the amounts reported in the table. If a cost accounting system was used, indicate whether the cost accounting system addresses all patient segments (for example, inpatient, outpatient, emergency room, private insurance, Medicaid, Medicare, uninsured or self pay). Also indicate whether a cost-to-charge ratio was used for any of the figures reported in the table. Describe whether this cost-to-charge ratio was derived from Worksheet 2, and, if not, what kind of cost-to-charge ratio was used and how it was derived. If some other costing methodology was used besides a cost accounting system, cost-to-charge ratio, or a combination of the two, describe the method used. The unpaid cost of Charity and Medicaid services are calculated utilizing CHI provided worksheets which calculate a cost of services (total costs less other operating revenues, bad-debts, excess related organization costs and direct community benefit cost) provided based upon cost to charge ratios or daily per diem amounts which are directly related to payer specific services provided to patients. Other community benefit costs are based upon the actual direct cost incurred, including an employee benefits factor, which is applied in calculating the community benefit. Indirect cost factors related to providing Other Community Benefits are applied when sufficient evidence exists that there are incremental overhead costs associated with the Community Benefit activity. Prior years third party payer settlements received or paid are netted with the current year's revenues.

Form 990 Schedule H, Part VI - Supplemental Information, Line 1

If applicable, state the bad debt expense included on Form 990 Part IX, line 25, column (A) but subtracted for purposes of calculating the percentage in this column. Total bad-debt expense reported on Form 990, Part IX, line 25, column (A) was \$7,979,566

Form 990 Schedule H, Part VI - Supplemental Information, Line 1

Provide the rationale and the costing methodology used to determine the amount reported in Part III lines 2 and 3. Describe how the organization accounts for discounts and payments on patient accounts in determining bad debt expense. Also describe the method the organization uses to determine the amount that reasonably could be attributable to patients who likely would qualify for financial assistance under the hospital's charity care policy, if sufficient information has been available to make a determination as to their eligibility. Also, provide if applicable, the text of the footnote to the organization's financial statements that describes bad debt expense. If the organization's financial statements include a footnote on these issues that also includes other information, report only the relevant portions of the footnote. If the organization's financial statements do not contain such a footnote, state that the organization's financial statements do not include such a footnote and explain how the financial statements account for bad debt, if at all. The costing methodology for the amounts shown on line 2, were obtained by utilizing the cost to charge ratios developed during the calculation of the unpaid costs of Charity and Medicaid services. This overall ratio of cost to charges of 35.5%, attributable to Saint Elizabeth Regional Medical Center, is multiplied by the bad-debt expenses recorded in the financial statements and reported in Part 1, line 7, column (f) to arrive at \$2,832,745 ($\$7,979,566 \times 35.5\% = \$2,832,745$). Discounts extended to self-pay patients are recorded as a deduction from revenue, not as bad-debt expense. To the extent that SERMC receives payments on accounts that were previously written off as bad-debts, SERMC reduces its current period bad-debt expenses. Saint Elizabeth Regional Medical center does not believe that any portion of the bad debt expense could reasonably be estimated and allocated to patients who qualify for financial assistance. Patient accounts are timely reviewed for financial assistance eligibility beginning on the financial assistance application date and all accounts over \$10,000 that are viewed to be uncollectible are reviewed for financial hardship and extenuating circumstances prior to being submitted for collection. Finally, patients may submit financial assistance applications subsequent to a determination of uncollectibility and if the application is approved the patient's account is removed from bad-debt expense and recorded as charity care, and all collection activity ceases. Saint Elizabeth Regional Medical Center does not issue a separate company audited financial statement, thus no footnote describing the bad-debt expenses is available. However, bad-debt expense recorded on the financial statements represents an estimate of bad-debts based upon historical collection results. Bad-debts expense represents actual write-offs incurred during the period, recoveries on accounts from collection agencies and managements estimate of the bad-debt allowance required to properly state outstanding accounts at net realizable value. The bad-debt allowance amounts are adjusted monthly based upon managements analysis of bad-debts trends by payer and end of month accounts receivable aging schedules.

Form 990 Schedule H, Part VI - Supplemental Information, Line 1

Describe the costing methodology used to determine the Medicare allowable costs reported in the organization's Medicare Cost Report, as reflected in the amount reported in Part III, line 6 Describe, if applicable, the extent to which any shortfall reported in Part III, line 7 should be treated as a community benefit, and the rationale for the organization's position Using essentially the same Medicare cost report principles as to the allocation of general service costs and "apportionment" methods, the "CHI Workbook" calculates a payers gross allowable costs by service (so as to facilitate a corresponding comparison between gross allowable costs and ultimate payments received) The term "gross allowable costs" means costs before deductibles or co-insurance are subtracted, although Saint Elizabeth Regional Medical Center's ultimate reimbursement will be reduced by any applicable co-payment or deductible Where Medicare is the secondary insurer, amounts due from the insured's primary payer were not subtracted from Medicare allowable costs because the amounts are typically immaterial Although not presented on the Medicare cost report, and in order to facilitate a more accurate understanding of the "true" cost of services (for "shortfall" purposes) the CHI Workbook allows a healthcare facility to not off-set costs that Medicare considers to be non-allowable, but for which the facility can legitimately argue are related to the care of the facility's patients In addition, although not reportable on the Medicare cost report, the CHI workbook includes the cost of services that are paid via a set fee schedule rather than being reimbursed on costs (e g outpatient clinical laboratory) Finally, the CHI Workbook allows a facility to include other health care services performed by a separate facility (such as a physician practice) that are maintained on separate books and records (as opposed to the main facility's books and records which has its costs of services included within a cost report) Total Medicare Revenue \$72,189,867 Total Medicare costs \$87,564,839 Surplus of Shortfall \$(15,374,972) Saint Elizabeth Regional Medical Center believes that excluding Medicare losses makes the overall community benefit report more credible for these reasons Unlike subsidized areas such as burn units or behavioral health services, Medicare is not a differentiating feature of a tax exempt health care organization, in fact, for-profit hospitals focus on attracting patients with Medicare coverage, especially in the case of well-paid services that include cardiac and orthopedics Significant effort and resources are devoted to ensuring hospitals are reimbursed appropriately by the Medicare program The Medicare Payment Advisory Payment Commission (MedPAC), an independent Congressional agency, carefully studies Medicare payment and access to care that Medicare beneficiaries receive The commission recommends payment adjustments to Congress accordingly Although Medicare losses are not included by Catholic hospitals as community benefit, the Catholic Health Association guidelines allow hospitals to count as community benefit some programs that specifically serve the Medicare population For instance, if hospitals operate programs for patients with Medicare benefits that respond to identified community needs, generate losses for the hospital, and meet other criteria, these programs can be included in the CHI framework in Category C as "subsidized health services" Medicare losses are different than Medicaid losses, which are counted in the CHA community benefit framework, because Medicaid reimbursements generally do not receive the level of attention paid to Medicare reimbursement Medicaid payment is largely driven by what states can afford to pay

Form 990 Schedule H, Part VI - Supplemental Information, Line 1

If the organization has a written debt collection policy and answered "yes" to Part III, line 9b, describe the collection practices set forth in the policy that apply to patients who it knows qualify for charity care or financial assistance, whether or not such practices apply specifically to such patients or more broadly to also cover other types of patients. Saint Elizabeth Regional Medical Center's debt collection policy provides that Saint Elizabeth will perform a reasonable review of each inpatient account, prior to turning an account over to a third-party collection agent and prior to instituting any legal action for non-payment, to assure that the patient and patient guarantor are not eligible for any assistance program (e.g. Medicaid) and do not qualify for coverage through Saint Elizabeth community assistance policy. After having been turned over to a third-party collection agent, any patient account that is subsequently determined to meet the Saint Elizabeth community assistance policy is required to be returned immediately by the third-party collection agent to Saint Elizabeth for appropriate follow-up. Saint Elizabeth Regional Medical Center requires its third party collection agents to include a message on all statements indicating that if a patient or patient guarantor meets certain stipulated income requirements, the patient or patient guarantor may be eligible for financial assistance. All of Catholic Health Initiatives' hospitals contracts with third party collection agencies include the following standards: *Neither CHI hospitals nor their collection agencies will request bench or arrest warrants as a result of non-payment, *Neither CHI hospitals nor their collection agencies will seek liens that would require the sale or foreclosure of a primary residence, and *No Catholic Health Initiatives' collection agency may seek court action without hospital approval. Finally, collection agencies are trained on the Catholic Health Initiatives Mission, Core Values and Standard of Conduct to make sure all patients are treated with dignity and respect.

PART III - STATEMENT OF PROGRAM SERVICE ACCOMPLISHMENTS

PRIMARY EXEMPT PURPOSE Saint Elizabeth Regional Medical Center "Saint Elizabeth", a not-for-profit, health care facility located in Lincoln, NE was founded in 1889 by the Sisters of St. Francis of Perpetual Adoration for the purpose of providing medical services to all in need regardless of ability to pay

EXEMPT PURPOSE ACHIEVEMENTS Introduction Saint Elizabeth Regional Medical Center is a 501(c)(3) organization that was originally formed, as Lincoln's first hospital, in 1889 by the Sisters of St. Francis of Perpetual Adoration for the purpose of providing medical care. The mission of Saint Elizabeth Regional Medical Center is to nurture the healing ministry of the Church by bringing it new life, energy, and viability in the Twenty-First Century. Fidelity to the Gospel urges us to emphasize human dignity and social justice as it moves toward the creation of healthier communities. As the first Catholic hospital to serve the community, Saint Elizabeth Regional Medical Center ("Saint Elizabeth"), has since joined with other religious congregations to form Catholic Health Initiatives. Saint Elizabeth has a board of directors that is comprised of independent community representatives. Saint Elizabeth is included in the Official Catholic Directory as a tax-exempt hospital. Community service has always been at the core of Saint Elizabeth's activities. Each year, services and programs are expanded to promote a healthy communities through innovative programs, collaborations and partnerships. The programs and services described throughout this report not only serve the community, but also reduce the burdens on the government. For example, if Saint Elizabeth did not provide charity care, the burden of providing charity care would fall on government-supported institutions. Saint Elizabeth provides essential health care services by maintaining a 265 bed medical center with 44 outpatient beds designed to provide the highest quality medical care while embracing traditions rich in spirituality. The regions most innovative and holistic care is available through association with more than 475 physicians, many who are board certified, as well as a physician network of family and specialty clinics in Lincoln and the surrounding areas. During 2010 Saint Elizabeth provided 58,006 days of acute inpatient care, in surgical, orthopedics, pediatrics, oncology, general medical, intensive care, cardiology and obstetrics, to 13,236 patients. Four thousand seven hundred eleven days of care were provided in the nursery. Outpatient registrations totaled 111,524. In addition to the services provided locally, Saint Elizabeth has committed its expertise in wound care to other communities and providers. During 2010 mobile wound services provided 82,894 minutes (over 1,381 hours) of care to patients in surrounding communities. A focus on delivering exceptional patient care in a state-of-the-art environment with experienced medical professionals has driven Saint Elizabeth to go beyond the basic and provide services lines designed to provide specialty care in the local community. Examples include:

- Emergency Care Saint Elizabeth operates a 24-hour emergency department "ED" 365 days per year. The emergency room is open to all individuals regardless of ability to pay. During 2010 over thirty-four thousand visits were made to the emergency center. Saint Elizabeth's ED is one of the top medical centers in the U.S. for the fastest response time for heart attack patients - giving them the best chance for survival and recovery. Now that response time is even shorter with the addition of diagnostic quality EKG equipment that has been installed in the city ambulances. The ED has also been awarded second place in the medium hospital category for "Overall Emergency Department Satisfaction" by The Jackson Organization, an independent organization that surveyed more than 150 hospitals across the country. Chest pain, stroke, broken bones, high fever or other emergencies receive expert compassionate care fast and have access to Certified Chest Pain and Certified Stroke Centers.
- Neonatal Intensive Care Unit - NICU The birth of a baby is a wonderfully complex process, however, in the event of complications, Saint Elizabeth has physician specialists, state-of-the-art

Form 990 Schedule H, Part VI - Supplemental Information, Line 2

t technology, highly trained nurses, and other uniquely trained professionals who are focused upon providing immediate care to the medical challenges of newborns. During 2010 Saint Elizabeth provided 6,758 days of care to 376 NICU patients. Burn Center The Saint Elizabeth Regional Burn Center is verified by the American College of Surgeons. The Burn Center was opened as the region's first Burn Center in 1973 and currently maintains a 16-bed center with dedicated operating, procedure and treatment room for the ongoing care of burns and wounds. The Burn Center offers specialized care, services, equipment and staff to treat the most critical burn injuries. Members of the burn team are specially trained surgeons, nurses, physical and occupational therapists, social workers, nutrition and pharmacy consultants, respiratory therapists, pastoral care staff and volunteers who are focused upon assisting each burn patient make a physical, emotional and psychological recovery. The Center has demonstrated leadership in research, education, outreach, prevention, system planning and the ability to care for the most severely burned patients. The Center serves as a resource to area hospitals within the region, and nurses from the Burn Center staff are on the Homeland Security national bio-terrorism and disaster team. The Burn Center provided 3,943 inpatient days of care, 121 outpatient observation days of care and had 2,468 outpatient visits to the Center in 2010.

Cancer Care The Saint Elizabeth Cancer Institute is approved by the Commission on Cancer of the American College of Surgeons, a designation recognizing their outstanding care and dedication to patients and the community. The Cancer Institute has a full spectrum of cancer services including prevention and early detection, diagnosis and treatment, rehabilitation, home care and hospice. The healing environment and holistic approach distinguish Saint Elizabeth cancer care. In fact, Saint Elizabeth is the first hospital in Nebraska to offer Palliative Care to both chronic and critically ill patients. This fairly new and unique care concept guides and supports the decisions of patients and their families with understanding, emotional support and spirituality.

Pregnancy and Children Saint Elizabeth Home Care Services provides services for mothers needing specialized care during and after pregnancy. For infants and children, a variety of services are also available and tailored to meet their needs and those of their family. Saint Elizabeth is the first hospital in the US to have earned Gold Seal certification in BOTH High Risk Neonatal (newborn intensive care) and High Risk Pregnancy certifications from the distinguished national certifying organization for more than 17,000 hospitals and healthcare systems, the Joint Commission.

Home Medical Services Saint Elizabeth Home Medical Services provides home medical equipment (volume ventilators, wheelchairs, walking aids, bathroom safety equipment, and patient room equipment, etc.) and counseling to patients to promote their ability to ambulate and be members of the community. Home medical services provided care to 1,318 individuals during 2010.

Palliative Care Saint Elizabeth's Palliative Care provides services in the home to improve the quality of life for those who are living with chronic and life-limiting illnesses such as heart and lung diseases, cancer, multiple sclerosis, and ALS. This care includes the management of pain and other symptoms as well as assistance with physical, emotional and spiritual needs. Our intent is to assist patients and their families in achieving their best possible quality of life consistent with their personal values and goals. Saint Elizabeth has an open medical staff, and participates in a variety of programs intended to benefit the populations within, and those individuals entering into its service area. These programs include Medicare, Medicaid, TriCare/Champus, Workers Compensation and other discounted health

Form 990 Schedule H, Part VI - Supplemental Information, Line 3

Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's charity care policy Saint Elizabeth Regional Medical Center displays information concerning its financial assistance policy in both English and Spanish in obvious locations throughout the hospital, including the emergency room and other patient intake areas, as well as in outpatient facilities In addition, Saint Elizabeth registration clerks are trained to provide consultation, to those who have no insurance or potentially inadequate insurance, concerning their financial options including application for Medicaid and financial assistance under Saint Elizabeth's charity care policy Upon registration, and once all EMTALA requirements are met, patients who are identified as uninsured and not covered by Medicare or Medicaid are provided with a packet of information that addresses the financial assistance policy and procedures including an application for assistance Saint Elizabeth staff will also assist the patient or guarantor with applying for other available coverage, such as Medicaid, if necessary Counselors assist Medicaid eligible patients in enrollment by providing referrals to the appropriate government agency

Form 990 Schedule H, Part VI - Supplemental Information, Line 7

If the organization is part of an affiliated health care system, describe the respective roles of the organization and its affiliates in promoting the health of the communities served. Saint Elizabeth Regional Medical Center and affiliated organizations are part of Catholic Health Initiatives. Catholic Health Initiatives "CHI" is a national faith based non-profit health care organization with headquarters in Denver, Colorado. CHI's exempt purpose is to serve as an integral part of its national system of hospitals and other charitable entities, which are described as market based organizations, or MBO's. An MBO is a direct provider of care or services within a defined market area that may be an integrated health system and/or a stand alone hospital or other facility or service provider. CHI serves as the parent corporation of its MBO's which are comprised of 73 hospitals, of which 21 are designated a critical access hospitals by the Medicare program, 40 long-term care, assisted living and residential facilities, two community health service organizations and two accredited nursing colleges. Together these facilities provided \$590 million in charity care and community benefits in the 2010 fiscal year, including services for the poor, free clinics, education and research. CHI provides strategic planning and management services as well as centralized "shared services" for the MBO's. The provision of centralized management and shared services, including areas such as accounting, human resources, payroll and supply chain, provides economies of scale and purchasing power to the MBO's. Cost savings associated with centralized services for the fiscal year ended June 30, 2010 include more than \$105 million in supply chain expense, approximately \$30 million for insurance costs and more than \$10 million as the result of a system-wide effort to coordinate and negotiate technology and equipment purchases. The cost savings achieved through CHI's centralization enable MBO's to dedicate additional resources to high quality health care and community outreach services to the most vulnerable members of our society. Saint Elizabeth Regional Medical Center, along with Saint Elizabeth Foundation and Saint Elizabeth Health Services, operate together and with other joint venture health providers to serve the health care needs of Lincoln, Nebraska and the surrounding communities.
