St Joseph's Eligibility Guidelines for Charity Care Discounts The Federal Poverty Guidelines for income are the basis for determining eligibility for charity care discounts For example, individuals with incomes below 100% of the Federal Poverty Guidelines will be eligible for free care Individuals with incomes greater than 100% of the Federal Poverty Guidelines may be eligible for care at discounted rates depending on their income level and/or the amount due to the hospital Charity/Medical Indigence Parameters Charity/Medical Indigence parameters are based on Federal Income Poverty (FPL) Guidelines which are updated annually Generally, no patient's financial responsibility shall be greater than 20% of the household adjusted gross income, subject to an asset test This determination shall be made per episode of care where income exceeds 300% of the FPL, and, when warranted, in aggregate for multiple episodes The parameters will be reviewed annually with the FPL updates The review will include assessment of the sliding scale ranges, maximum out of pockets, and overall impact to the facilities and system Revisions will be completed as warranted

The text of the footnote that is included in the Sisters of Mercy Health System, Inc. and Subsidiaries audited financial statements that describes bad debt expense follows: "Patient accounts that are uncollected, including those placed with collection agencies, are initially charged against the allowance for uncollectible accounts in accordance with collections policies of the Health System and, in certain cases, are reclassified to charity care if deemed to otherwise meet the health system's charity care policy. The provision for uncollectible receivables is based on management's assessment of historical and expected net collections considering business and economic conditions, trends in healthcare coverage, and other collection indicators. Periodically throughout the year, management assesses the adequacy of the allowance for uncollectible receivables based upon the payor composition and aging of receivables as of the reporting date with consideration of the historical payment and write-off experience by payor category. The results of these reviews are then used to make any modifications to the provision for uncollectible receivables to establish an appropriate allowance for uncollectible receivables. After satisfaction of amounts due from insurance, the health system follows established guidelines for placing past-due balances with collection agencies." To determine the amount of bad debt expense, at cost, bad debt expense attributable to patient accounts was multiplied by a ratio of cost to charges. The ratio of cost to charges used was based on detailed cost accounting, where available. Where cost accounting is not available, cost report cost to charge ratios were utilized. The filing organization determined that the estimated amount of bad debt expense (at cost) attributable to patients eligible under the organization's charity care policy is \$0. Although the charity care policy requires the participation of the patient requesting assistance, we have a process under presumptive charity (refer to disclosure for Part III, #9b) to address accounts for patients who do not provide the information. We believe that our charity policy is comprehensive enough to capture almost all patients who qualify for charity care.

Form 990 Schedule H, Part VI - Supplemental Information, Line 1

Accounts active in accounts receivable and active with collections agencies are adjusted to charity when patients or guarantors met the guidelines outlined in our policy. Accounts previously written off to bad debt as uncollectible and later returned are not adjusted to charity, unless additional information has been collected by the collection agency. Subsequent events and additional information that would lead to consideration of charity vs. bad debt include bankruptcy filing or death notice with no surviving spouse or estate. Credit reporting agencies will be notified for any changes to account balances that have been previously listed on the patient guarantor credit reports. The Medicare shortfall was computed using the annual prepared Medicare Cost Report, CMS Form 2552-96. It is the position of St. Joseph's that 100% of the short fall should be treated as community benefit. This amount represents cost of providing services that remain uncompensated to the provider.

Form 990 Schedule H, Part VI - Supplemental Information, Line 1

Mercy will utilize the Search America tool to enhance our ability to determine charity qualification. Presumptive charity will be granted in situations where we have been unable to obtain information from our patients or the information provided is not complete enough to make a charity determination. Mercy will utilize presumptive charity prior to bad debt placement for charity adjustments in excess of \$10,000. In these cases, Mercy will utilize the Search American report status of "probable charity" as the basis for the assigning the charity level. Mercy will pursue appropriate means in the collection of delinquent accounts from patients with an established ability to pay or an unwillingness to cooperate in validating eligibility for financial assistance, including legal action consistent with Mercy mission and values, which may include liens upon real property and reasonable wage garnishments. Legal actions will generally not include bank garnishment, repossession of assets or foreclosures to enforce satisfaction of lien. Mercy has policies and procedures established to address the initiation of legal action. Mercy annually reviews collection agency compliance with all policies.

St Joseph's Mercy Health System's objectives of community needs assessment are to identify health needs in Hot Springs and surrounding communities, and involve the community in the health planning efforts. The information gathered is used to plan strategically, and better meet the health and human service needs of these communities. St Joseph's looks at community needs assessment as an opportunity to build relationships, educate the community and identify resources that are available to meet identified needs. Basic discussion forums have been utilized to foster conversation with key stakeholders. Examples of forums include an advisory board, specific focus groups, opinion surveys, and community round table discussions. Stakeholder participants include board members, community/civic leaders, local employers, other health care providers, former patients, and co-workers.

Form 990 Schedule H, Part VI - Supplemental Information, Line 3

The filing organization has printed material available at each point of registration in our facility, in addition to electronically availability at our web site. Specific information provided: Financial Assistance Information. As a part of our healing ministry, the filing organization is committed to providing quality healthcare services to patients regardless of their financial situation. We offer payment assistance for those who do not have insurance or who are in financial need. Uninsured Patient Discounts: A discount from the hospital's regular billed charges will be provided to patients who do not have insurance. This includes patients whose financial situation normally would not otherwise qualify them for charity care discounts. Patients without insurance whose financial situation qualifies them for charity care discounts (see Eligibility Guidelines below) must first find out if they are eligible for Medicaid before applying for financial assistance. Patients denied Medicaid eligibility then must provide certain information to show financial need. Applications for charity care discounts will be reviewed for eligibility based on the applicant's income, family size, amount of payment due and availability of other assets or resources. Please note that care must be medically necessary to be considered eligible for uninsured patient discounts. Eligibility Guidelines for Charity Care Discounts: The Federal Poverty Guidelines for income are the basis for determining eligibility for charity care discounts. For example, individuals with incomes below 100% of the Federal Poverty Guidelines will be eligible for free care. Individuals with incomes greater than 100% of the Federal Poverty Guidelines may be eligible for care at discounted rates depending on their income level and/or the amount due to the hospital. Additional Financial Assistance: After appropriate discounts have been applied, arrangements may be made for an interest-free monthly payment plan. Generally, no patient's financial responsibility will be greater than 10% of annual household income, adjusted to consider availability of other assets that could be used toward making payments.

The total population of Garland County in 2005 was 91,690 with the largest urban area being the city of Hot Springs, population 35,750. Garland County is a popular retirement area and as a result it has a large Medicare population, 18,652 or 20.7% of the population is over age 65. Like many counties in Arkansas, Garland County has a large population of persons who are poor. From 2005 estimates on the census, Garland County had 16.8% of the population at less than 100% of federal poverty levels. There is also a large percentage of "working poor" persons who are employed but do not have health insurance.
