		Furniture and equipment purchased with contract funds belong to the State of California. Furniture and equipment are stated at cost. As long as the Center continues in operation, the State of California has granted the Center a beneficial interest in the furniture and equipment. Accordingly, these assets are not depreciated. For accountability, furniture and equipment is shown as an asset on the statement of financial position with an off setting liability account, investment in State equipment. The Center has adopted the accounting standard on accounting for uncertainty in income taxes, which prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken, or expected to be taken, in a tax return and requires the affirmative evaluation that is more-likely-than-not, based on the technical merits of a tax position, that an organization is entitled to economic benefits resulting from tax positions taken in income tax returns. If a tax position does not meet the more-likely-than-not recognition threshold, the benefit of that position is not recognized in the financial statements. This standard also requires organizations to disclose additional quantitative and qualitative information in their financial statements about uncertain tax positions. The Center's adoption of this standard did not have a material impact on the financial statements. The Center's evaluation on June 30, 2010 revealed no tax positions that would have a material impact on the financial statements. The 2006 through 2009 tax years remain subject to examination by the Internal Revenue Service. In addition, the 2005 through 2009 tax years remain subject to examination by the California Franchise Tax Board. The Center does not believe that any reasonably possible changes will occur within the next twelve months that will have a material impact on the financial statements.
