Part X	Description of Uncertain Tax Positions Under FIN 48	The society has adopted the accounting standards related to uncertain income tax positions. The standard requires that an uncertain income tax position must be more likely than not (greater than 50% likelihood of receiving a benefit) before it is recognized in the financial statements. Furthermore, the standard requires that the amount recognized be the same as that which would be determined as a result of a review by tax authorities having all relevant information. During the year ended August 31, 2010, management did not identify any significant uncertain income tax positions. At a minimum, the tax years beginning in 2006 through 2009 are open for examination by tax authorities.
