Identifier	Return Reference	Explanation
Part X	Description of Uncertain Tax Positions Under FIN 48	The Organization changed its method of accounting for uncertainty in income taxes as of October 1, 2009 as a result of adopting new principles required by generally accepted accounting principles (GAAP). Using the new accounting method, an uncertain tax position is recognized as a benefit only if it is more likely than not that the tax position would be sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized is the largest amount of tax benefit that is greater than 50% likely of being realized on examination. For tax positions not meeting the more likely than not test, no tax benefit is recorded. The Organization has no material uncertain tax positions that qualify for either recognition or disclosure in the financial statements. As of September 30, 2010, the Organization has accrued no interest and no penalties related to uncertain tax positions. It is the Organization's policy to recognize interest and/or penalties related to income tax matters in income tax expense. The Organization files a U.S. Federal information tax return. Variety is currently open to audit under the statute of limitations by the Internal Revenue Service for the years ended September 30, 2007 through 2010.
