The Hospital reports patient accounts receivable for services rendered at net realizable amounts from third party payers, patients, and others. The Hospital provides an allowance for doubtful accounts based upon a review of outstanding receivables, historical collection information, and existing economic conditions. As a service to the patient, the entities bill third party payers directly and bill the patient when the patient's liability is determined. Patient accounts receivable are due in full when billed. Accounts are considered delinquent and subsequently written off as bad debts based on individual credit evaluation and specific circumstances of the account. An aggregate cost to charge ratio was used to provide bad debt at cost for Part III line 2. The estimated amount calculated for Part III line 3 was determined by taking the total amount of charity care applications which failed to meet eligibility requirements and multiplying it by the cost to charge ratio.
