2010 ANNUAL STATEMENT SUMMARY

Your Tax Reporting Statement information that follows is a personal summary of your account activity and is not reported to the IRS.

The Capital Gain and Loss Transaction section is provided to facilitate your review and the preparation of your tax return. In calculating gain (loss), unless otherwise noted, it was assumed that the oldest position was liquidated first, and that an election was in effect to amortize the premium paid on the purchase of taxable bonds. The gain (loss) information may not include return of capital, sales load deferral or wash sales adjustments. RICs (which may include mutual funds and unit investment trusts) may reclassify principal distributions as capital gains. The Cost Basis for these securities may not have been adjusted on your statement to reflect such reclassifications. Please refer to information provided by the RIC and discuss with your tax advisor. Securities distributed from a retirement account reflect the tax basis on the date of distribution. Other methods for calculating gain (loss) are available. The cost basis for most Original Issue Discount (OID) obligations includes the accretion of OID. For purposes of allocating original purchase price to the components of an equity unit consisting of a purchase contract and a debt security subject to a remarketing event, we assumed that the fair market value of the debt security on purchase date was equal to its adjusted issue price. The difference between your original cost and the amount allocable to the debt component was allocated to the purchase contract. In making adjustments to the cost basis of the purchase contract, it was assumed that the unit holder included contract adjustment payments in income when received.

Data from Forms 1099 (reportable Dividend and Interest) is also repeated in this summary for your convenience. Additionally, we have included items such as margin interest and select account fees if applicable. Please discuss the deductibility of these items with your tax advisor. For select clients, we have also included a summary of Visa charges and checking activity.

Merrill Lynch is neither a tax return preparer nor tax advisor. Please see your tax advisor for more information.

The cost basis for most Original Issue Discount (OID) obligations includes the accretion of OID. For purposes of allocating original purchase price to the components of an equity unit consisting of a purchase contract and a debt security subject to a remarketing event, we assumed that the fair market value of the debt security on purchase date was equal to its adjusted issue price. The difference between your original cost and the amount allocable to the debt component was allocated to the purchase contract. In making adjustments to the cost basis of the purchase contract, it was assumed that the unit holder included contract adjustment payments in income when received.

Data from Forms 1099 (reportable Dividend and Interest) is also repeated in this summary for your convenience. Additionally, we have included items such as margin interest and select account fees if applicable. Please discuss the deductibility of these items with your tax advisor. For select clients, we have also included a summary of Visa charges and checking activity.

Merrill Lynch is neither a tax return preparer nor tax advisor. Please see your tax advisor for more information.

Note: Capital gains and losses in this statement are not reported to the Internal Revenue Service.

** Difference reflects items that are included in the reportable gross proceeds section of your statement but are not included in the gain/loss section (e.g., liquidation of fractional shares and the proceeds from certain tender offers). It also reflects items that are included in the gain/loss section of your statement but not in the reportable gross proceeds section (e.g., option premium received).

- Bonds purchased at a discount show accretion.

(A) Year-to-Date and Life-to-Date amortization/accretion figures are net adjustments and may include Original Issue Discount, and/or premium or market discount adjustments, if applicable. These figures assume that the client has made all elections to amortize bond premium and accrete market discount on a current basis. A negative figure indicates a net reduction in cost basis due to such factors as premium amortization.

(C) The Cost Basis reflects adjustments for amortized and/or accreted amounts.
