f - FIFO (First-In, First-out)

s* - Some or all of the lot(s) you identified for this transaction do not correspond with our records. We have therefore provided cost basis and gain/loss information based on the First-In, First-out (FIFO) calculation method for lots we were unable to identify. Please refer to your trade confirmation, which displays the lot(s) selected for this trade. Refer to your own cost basis records for reporting gain/loss information to the IRS. You may view a list of your open and closed tax lots online.

d - Adjusted cost basis reflects any cumulative original issue discount, premium, or acquisition premium (including any year-to-date amount). It assumes such amounts were amortized or accrued for tax purposes from the acquisition date through the disposition date. Premium amortization was calculated using the yield-to-maturity method. Acquisition premium was calculated using the ratable accrual method. Any market discount accretion for this position was calculated using the straight-line method and, if applicable, recognized upon disposition. Gain/loss displayed for this transaction is calculated using the cost basis adjustments, as described above. The adjusted cost basis used here may not reflect all adjustments necessary for tax reporting purposes (such as wash sale adjustments) and may not apply if you are using an alternative amortization calculation method. Refer to IRS Publication 550, Investment Income and Expenses, for additional information.

Amortization, accretion, and similar adjustments to cost basis are not provided for short-term instruments, unit investment trusts, or securities of foreign issuers.
