Betty V. and John M. Jacobson Foundation EIN: 27-0412575 2010 FORM 990-PF

Page 4, Part VII-A, Question 8b Explanation

The State of Ohio has requested that foundations that must file with its Charitable Law Section file with the state a form entitled "Verification of Filing with the Internal Revenue Service" rather than filing the 990-PF with the state. See attached copy of the letter Ohio foundations received from the Ohio Attorney General's Charitable Law Section.

The Betty V. and John M. Jacobson Foundation will file its 2010 "Verification of Filing with the Internal Revenue Service" form with Ohio the same day that it files its 2010 990-PF with the IRS.

Dear Charitable Trustee:

Our records indicate that your organization is registered with the Attorney General pursuant to Ohio's Charitable Trust Act. This letter is being sent to inform you of recent changes to the Administrative Rules and Regulations of Ohio's Charitable Trust Act. This is not a notification of a delinquency.

If your organization files a federal form 990, 990-PF or 990-EZ with the Internal Revenue Service; it has been required to file a copy of the federal tax return with our office in the past. However, recent changes to the Administrative Rules now allow organizations headquartered in Ohio to submit the enclosed "VERIFICATION OF FILING WITH THE INTERNAL REVENUE SERVICE" form in lieu of the federal tax return, along with any applicable filing fee. The verification form simply certifies that an organization has submitted the required federal tax return to the Internal Revenue Service. The Internal Revenue Service is now providing the Attorney General with information regarding federal tax filings. Therefore, you will only need to complete the enclosed verification form and return it to our office on or before the fifteenth day of the fifth month following the close of your organization's fiscal tax year, or by any federal extension of time, along with any applicable filing fee. It is important that the required filing fee be postmarked by the financial report due date to avoid assessment of a \$200.00 late fee. Checks should be made payable to "Treasurer, State of Ohio".

If your organization is not based in Ohio, or files a federal form 1041, you will continue to submit a complete copy of your financial return with all attachments, along with any applicable filing fee. Please submit an asset schedule, or you may indicate the fair market value of assets on the federal form 1041.

If your organization had gross receipts of less than twenty-five thousand dollars, or does not otherwise file a federal tax return, you must file the "Annual Financial Report of Charitable Organization." This form is available through our website at www.ag.state.oh.us/ag forms/charitable-law.htm. If the reported total assets exceed twenty-five thousand dollars, a filing fee is also due. Again, it is important that the required filing fee be postmarked by the financial report due date to avoid assessment of a \$200.00 late fee.

Also available through our website are instructions for filing the Annual Financial Report of Charitable Organization, a copy of Ohio's Charitable Trust Act (Revised Code Chapter 109.23-.33), the revised Administrative Rules and Regulations, the Verification of Filing with the Internal Revenue Service form, and an information sheet which further explains the requirements under this law.

If you do not have access to the Attorney General's website, please contact our office at the telephone number listed below to obtain the required forms.

The Attorney General appreciates your cooperation in complying with these registration requirements. The registry serves to increase public confidence in the integrity of Ohio's charities. If you have any questions, do not hesitate to contact the Charitable Law Section at (614) 466-3180. Thank you for your cooperation and for your work in promoting charitable giving in Ohio.

Sincerely,

JIM PETRO

ATTORNEY GENERAL

This appraisal report is subject to the scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. The Appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum. (1) perform a complete visual inspection of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, venfy, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

DEFINITION OF MARKET VALUE: As per Fannie Mae the definition of market value is the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby. (1) buyer and seller are typically motivated, (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest, (3) a reasonable time is allowed for exposure in the open market, (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto, and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area, these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by compansons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions

- 1 The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- 2 The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.
- 3 The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- 4 The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law
- 5 The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, detenoration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, detenoration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
- 6 The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner

File No. 7961 Case No

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that

- 1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report
- 2 I performed a visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property
- 3 I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared
- 4 I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report
- 5 I researched, venfied, analyzed, and reported on any current agreement for sale for the subject property, any offening for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years pnor to the effective date of this appraisal, unless otherwise indicated in this report
- 6 I researched, venfied, analyzed, and reported on the pnor sales of the comparable sales for a minimum of one year pnor to the date of sale of the comparable sale, unless otherwise indicated in this report
- 7 I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property
- 8 I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land
- 9 I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales
- 10 I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property
- 11 I have knowledge and experience in appraising this type of property in this market area
- 12 I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located
- 13 I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct
- 14 I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property
- 15 I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct
- 16 I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report
- 17 I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, mantal status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law
- 18 My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event
- 19 I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report, therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it
- 20 I identified the client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report

21 I am aware that any disclosure or distribution of this appraisal report by me or the client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me

22 If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that

- 1 I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification
- 2 I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification
- 3 The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law
- 4 This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared
- 5 If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS

This appraisal is subject to the following assumptions and limiting conditions

- This report is prepared using forms developed and copyrighted by the Appraisal Institute However, the content, analyses, and opinions set forth in this report are the sole product of the appraiser. The Appraisal Institute is not liable for any of the content, analyses, or opinions set forth herein
- No responsibility is assumed for matters legal in character or nature. No opinion is rendered as to title, which is assumed to be good and the property is marketable. All existing liens, encumbrances, and assessments have been disregarded, unless otherwise noted, and appraised as though free and clear, having responsible ownership and competent management
- I have examined the property described herein exclusively for the purposes of identification and description of the real property. The objective of our data collection is to develop an opinion of the highest and best use of the subject property and make meaningful comparisons in the valuation of the property. The appraiser's observations and reporting of the subject improvements are for the appraisal process and valuation purposes only and should not be considered as a warranty of any component of the property. This appraisal assumes (unless otherwise specifically stated) that the subject is structurally sound and all components are in working condition
- I will not be required to give testimony or appear in court because of having made an appraisal of the property in question, unless specific arrangements to do so have been made in advance, or as otherwise required by law
- I have noted in this appraisal report any significant adverse conditions (such as needed repairs, depreciation, the presence of hazardous wastes, toxic substances, etc.) discovered during the data collection process in performing the appraisal. Unless otherwise stated in this appraisal report, I have no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and have assumed that there are no such conditions and make no guarantees or warranties, express or implied. I will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because I am not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable public and/or private sources that I believe to be true and correct
- I will not disclose the contents of this appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and/or applicable federal, state or local laws
- The Client is the party or parties who engage an appraiser (by employment or contract) in a specific assignment. A party receiving a copy of this report from the client does not, as a consequence, become a party to the appraiser-client relationship. Any person who receives a copy of this appraisal report as a consequence of disclosure requirements that apply to an appraiser's client, does not become an intended user of this report unless the client specifically identified them at the time of the assignment. The appraisers written consent and approval must be obtained before this appraisal report can be conveyed by anyone to the public through advertising, public relations, news, sales, or other media
- A true and complete copy of this report contains 20 pages including exhibits which are considered an integral part of the report. The appraisal report may not be properly understood without access to the entire report.
- If this valuation conclusion is subject to satisfactory completion, repairs, or alterations, it is assumed that the improvements will be completed competently and without significant deviation

VALUE DEFINITION

X Market Value Definition (below)

Alternate Value Definition (attached)

MARKET VALUE is defined as the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby

buyer and seller are typically motivated, both parties are well informed or well advised and acting in what they consider their own best interests, a reasonable time is allowed for exposure in the open market, payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto, and the pince represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale
