### UNREALIZED GAIN (LOSS) LOT DETAIL

NFS-provided estimated cost basis (including cost basis and short sale proceeds information provided to NFS by customers), realized gain and loss, and holding period information may not reflect all adjustments necessary for tax reporting purposes. Taxpayers should verify such information against their own records when calculating reportable gain or loss resulting from a sale, redemption, or exchange. NFS does not report such information to the IRS or other taxing authorities and is not responsible for the accuracy of such information. Taxpayers may be required to report to federal, state, and other taxing authorities with respect to, and specifically disclaims any liability arising out of a customer's use of or any tax position taken in reliance upon, such information. Unless otherwise specified, NFS determines cost basis at the time of sale based on the average cost-single category (ACSC) method for open-end mutual funds and based on the first-in, first-out (FIFO) method for all other securities. Customers should consult their tax advisors for further information.

For the specific share identification cost basis method, appropriate instructions must be given before or at the time of the trade. If specific shares were selected manually rather than electronically, if some or all of the tax lots a customer specified do not correspond with NFS records, or if a customer used the specific share identification method before such method could be tracked by NFS systems, then cost basis and gain (loss) information displayed here for such transactions will be based on the first-in, first-out (FIFO) method. Affected customers will need to refer to their trade confirmation for the shares (tax lots) they specified and calculate their gain (loss) accordingly. Additionally, all cost basis and realized and unrealized gain (loss) information based on the first-in, first-out method may need to be re-calculated to remove the effect of any tax lots that were specifically identified and allocated to other sales. Amortization, accretion and similar adjustments to cost basis have been provided for many fixed income securities (and some bond-like equities), however, they are not provided for certain types, such as short-term instruments, Unit Investment Trusts, foreign fixed income securities, or those that are subject to early prepayment or principal (pay downs). Where current year premium or acquisition premium is provided, the prior years' cumulative amortization is reflected in the adjusted cost basis, but we cannot provide a breakdown or the total of such prior amortization amounts.

**LIMITATION ON COST BASIS INFORMATION:** NFS's cost basis information system has a cumulative lifetime limit on how much activity it can track for each individual security position in an account. For this purpose, each buy, sell, dividend, wash sale, disallowed loss, stock split, stock merger, etc. is an event. For some customers, this limit can be reached with approximately 1500 events. Upon reaching the limit, the system no longer displays or tracks cost basis information for the affected position, and such information will usually show as not available or unknown. Once the limit is reached, all cost basis information for the affected position will need to be tracked and updated by you, the investor.

Securities in accounts carried by NFS are protected in accordance with the Securities Investor Protection Corporation, SIPC, up to \$500,000. For claims filed on or after July 22, 2010, the \$500,000 total amount of SIPC protection is inclusive of up to \$250,000 protection for claims for cash, subject to periodic adjustments for inflation in accordance with terms of the SIPC statute and approval by SIPC's Board of Directors. NFS also has arranged for coverage above these limits. Neither coverage protects against a decline in market value of securities, nor does either coverage extend to certain securities that are considered ineligible for coverage. For more details on SIPC, or to request a SIPC brochure visit [www.sipc.org](http://www.sipc.org) or call 1-202-371-8300.

Important Information Regarding Auction Rate Securities. ARS ARS are debt or preferred securities with an interest or dividend rate reset periodically in an auction. Although there may be daily, weekly and monthly resets, there is no guarantee that there will be liquidity. If there are not enough bids at an auction to redeem the securities available for sale, the result may be a failed auction. In a failed auction, there is no assurance that a secondary market will develop or that the security will trade at par, or any other price reflected on statements. Accordingly, investors should not rely on pricing information appearing in their statements with respect to ARS.

If you have a margin account with NFS through your broker-dealer, as permitted by law, NFS may use certain securities in your account for among other things, settling short sales and lending the securities for short sales, and as a result may receive compensation in connection therewith.
