## Money fund

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

### Common stocks & options

Citi Investment Research & Analysis (CIRA), Morgan Stanley & Co. Incorporated (Morgan Stanley) and Standard & Poor's research ratings may be shown for certain securities. All research ratings represent the "opinions" of the research provider and are not representations or guarantees of performance. Because the research report contains more complete information regarding the analyst's opinions, analysis, and rating, you should read the entire research report and not infer its contents from the rating. Where a particular company is covered by both CIRA and Morgan Stanley, you can and should view both research reports. CIRA and Morgan Stanley research reports may contain different or conflicting information about the subject companies of such research reports because they are prepared separately from each other. CIRA stock recommendations include an investment rating and a risk rating. The Investment Rating Code (1, 2 or 3) is a function of CIRA's expectation of total return (forecast price appreciation and dividend yield within the next twelve months) and a Risk Rating (L, M, H or S) represents the stock's expected risk, taking into account price volatility and fundamental criteria. In addition, CIRA may place covered stocks "Under Review" in response to exceptional circumstances (e.g. lack of information critical to the analyst's thesis) affecting the company and/or trading in the company's securities (e.g. trading suspension). Stocks placed "Under Review" by CIRA will be monitored daily by CIRA management. As soon as practically possible, CIRA will publish a note re-establishing a rating and investment thesis. Please refer to the end of this statement for a guide describing CIRA ratings. Morgan Stanley and Standard & Poor's research ratings have been normalized by these providers to a 1 (Buy), 2 (Hold), and 3 (Sell). Morgan Stanley Smith Barney is not the author of, does not take responsibility for, and does not guarantee the accuracy, completeness, or timeliness of research prepared by Standard & Poor's

## Alternative Investments

The value and prices assigned to the investments are estimates based on available information typically received from the funds or other sources. These values and prices may not be realized upon the sale or ultimate disposition of the investment and may not reflect more recent market volatility. Citigroup Global Markets Inc. (CGMI) does not maintain custody of these investments. They are listed below solely as a service to the customer and are not covered by SIPC. If your investment is held in "nominee name" at your request, CGMI is the owner of record on the books and records of the issuer. The issuer will only recognize CGMI as the owner of the investment for all purposes including, but not limited to, communications, capital calls and distributions. CGMI is not required to take any action with respect to your investment unless valid instructions are received from you in a timely manner. Some positions reflected on your statement may not represent interests in the fund, but rather redemption proceeds withheld by the issuer pending final valuations which are not subject to the investment performance of the fund and may or may not accrue interest for the length of the withholding.

Cash distributions from these investments are categorized as "other income" herein and will not be reported as taxable income on your year-end Form 1099. You will receive either a Schedule K-1 or such other documentation from the fund each year for use in preparing your annual tax return. Cash distributions that are classified as income may in fact be a return of principal as a result of a sale of assets, particularly private equity and real estate funds. For more information regarding the source of a cash distribution, please consult the fund's investor reports, investor services or year-end tax report.

Due to delays in the availability of the quarterly estimated values for private equity and real estate funds and for certain hedge and fixed income alternatives that report off cycle quarterly estimated values, this report could contain valuation information, specifically valuation dates, that are inconsistent with other holdings and reflect your contributions and distributions subsequent to the valuation dates, if any, as opposed to the actual valuation of underlying assets, which in most cases is going to be prior to the "as of" date on your statement.

The service on those investments designated "(RPTG ONLY)" is limited to performance reporting only. No investment advice or research is provided. If you have any questions, please contact your Financial Advisor.

### Money fund

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

### Money fund

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

## Alternative Investments

The value and prices assigned to the investments are estimates based on available information typically received from the funds or other sources. These values and prices may not be realized upon the sale or ultimate disposition of the investment and may not reflect more recent market volatility. Citigroup Global Markets Inc. (CGMI) does not maintain custody of these investments. They are listed below solely as a service to the customer and are not covered by SIPC. If your investment is held in "nominee name" at your request, CGMI is the owner of record on the books and records of the issuer. The issuer will only recognize CGMI as the owner of the investment for all purposes including, but not limited to, communications, capital calls and distributions. CGMI is not required to take any action with respect to your investment unless valid instructions are received from you in a timely manner. Some positions reflected on your statement may not represent interests in the fund, but rather redemption proceeds withheld by the issuer pending final valuations which are not subject to the investment performance of the fund and may or may not accrue interest for the length of the withholding.

Cash distributions from these investments are categorized as "other income" herein and will not be reported as taxable income on your year-end Form 1099. You will receive either a Schedule K-1 or such other documentation from the fund each year for use in preparing your annual tax return. Cash distributions that are classified as income may in fact be a return of principal as a result of a sale of assets, particularly private equity and real estate funds. For more information regarding the source of a cash distribution, please consult the fund's investor reports, investor services or year-end tax report.

Due to delays in the availability of the quarterly estimated values for private equity and real estate funds and for certain hedge and fixed income alternatives that report off cycle quarterly estimated values, this report could contain valuation information, specifically valuation dates, that are inconsistent with other holdings and reflect your contributions and distributions subsequent to the valuation dates, if any, as opposed to the actual valuation of underlying assets, which in most cases is going to be prior to the "as of" date on your statement.

The service on those investments designated "(RPTG ONLY)" is limited to performance reporting only. No investment advice or research is provided. If you have any questions, please contact your Financial Advisor.

## Money fund

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

## Money fund

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

Citi Investment Research & Analysis (CIRA) ratings may be shown for certain closed-end funds. All research ratings represent the "opinions" of the research provider and are not representations or guarantees of performance. Because the research report contains more complete information regarding the analyst's opinions, analysis, and rating, you should read the entire research report and not infer its contents from the rating. CIRA closed-end fund recommendations include an investment rating and a risk rating. The Investment Rating code (1, 2, 3) is based upon CIRA's expectation of the security's performance relative to its peer group of closed-end funds. The Risk Rating (L, M, H or S) represents the fund's expected risk, taking into account the quality and liquidity of the underlying securities, financial leverage and foreign currency exposure. Please refer to the end of this statement for a guide describing CIRA ratings.

Closed end investment companies are grouped below by portfolio designations. Gain/Loss is provided to assist in tax preparation. It is not intended to calculate investment returns or performance.

## PORTFOLIO DETAILS

Your holdings are valued using the most current prices available to Citigroup Global Markets Inc. (CGMI). In most cases, these values are as of 12/31/10, but in some cases CGMI's sources are unable to provide timely information. To see the date of the most recent price update, please view your account online at [www.smithbarney.com](http://www.smithbarney.com).

Securities purchased or sold are included or excluded in this section as of the trade-date. This section may include securities that have not settled as of this statement closing date. Please see the "Unsettled Purchases/Sales" section for more information. Dividend yield is the estimated annual income, assuming the current dividend, divided by the security's market price at the end of the statement period. We do not guarantee the accuracy of the prices reflected on the statement nor do these prices represent levels at which securities can be bought or sold. **Please Note:** unrealized gain/(loss) is being shown for informational purposes only and should not be used for tax preparation without the assistance of your tax advisor.

## Mutual funds

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

Certain mutual funds may not be transferable to other broker-dealers. For further information, please refer to the fund's Prospectus or call your Financial Advisor. Consulting Group Research (CGR) conducts on-going research on a wide variety of mutual funds for certain investment advisory programs. Your individual mutual fund holdings in your brokerage account may or may not be covered by CGR. Please contact your Financial Advisor for further information regarding whether your mutual fund holdings are covered by CGR.

Yield is the current distribution annualized, divided by the fund's net asset value at the end of the statement period. Distributions may consist of income, capital gains or the return of capital. Distributions and current dividend for funds are based upon information provided by an outside vendor and are not verified by us. "Tax-Based Cost vs. Current Value" is being provided for information purposes only. "Cash Distributions (since inception)" when shown, may reflect distributions on positions no longer held in the account, and may not reflect all distributions received in cash due to but not limited to the following: investments made prior to 1/1/89, asset transfers, recent activity and certain adjustments made in your account. "Total Purchases vs. Current Value" is provided to assist you in comparing your "Total purchases" excluding reinvested distributions, with the current value of the fund's shares in your account. "Fund Value Increase/Decrease" reflects the difference between your total purchases and the current value of the fund's shares, plus cash distributions since inception.

# PORTFOLIO DETAILS

Your holdings are valued using the most current prices available to Citigroup Global Markets Inc. (CGMI). In most cases, these values are as of 12/31/10, but in some cases CGMI's sources are unable to provide timely information. To see the date of the most recent price update, please view your account online at [www.smithbarney.com](http://www.smithbarney.com).

Securities purchased or sold are included or excluded in this section as of the trade-date. This section may include securities that have not settled as of this statement closing date. Please see the "Unsettled Purchases/Sales" section for more information. Dividend yield is the estimated annual income, assuming the current dividend, divided by the security's market price at the end of the statement period. ## Money fund

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

## Alternative Investments

The value and prices assigned to the investments are estimates based on available information typically received from the funds or other sources. These values and prices may not be realized upon the sale or ultimate disposition of the investment and may not reflect more recent market volatility. Citigroup Global Markets Inc. (CGMI) does not maintain custody of these investments. They are listed below solely as a service to the customer and are not covered by SIPC. If your investment is held in "nominee name" at your request, CGMI is the owner of record on the books and records of the issuer. The issuer will only recognize CGMI as the owner of the investment for all purposes including, but not limited to, communications, capital calls and distributions. CGMI is not required to take any action with respect to your investment unless valid instructions are received from you in a timely manner. Some positions reflected on your statement may not represent interests in the fund, but rather redemption proceeds withheld by the issuer pending final valuations which are not subject to the investment performance of the fund and may or may not accrue interest for the length of the withholding.

Cash distributions from these investments are categorized as "other income" herein and will not be reported as taxable income on your year-end Form 1099. You will receive either a Schedule K-1 or such other documentation from the fund each year for use in preparing your annual tax return. Cash distributions that are classified as income may in fact be a return of principal as a result of a sale of assets, particularly private equity and real estate funds. For more information regarding the source of a cash distribution, please consult the fund's investor reports, investor services or year-end tax report.

Due to delays in the availability of the quarterly estimated values for private equity and real estate funds and for certain hedge and fixed income alternatives that report off cycle quarterly estimated values, this report could contain valuation information, specifically valuation dates, that are inconsistent with other holdings and reflect your contributions and distributions subsequent to the valuation dates, if any, as opposed to the actual valuation of underlying assets, which in most cases is going to be prior to the "as of" date on your statement.

The service on those investments designated "(RPTG ONLY)" is limited to performance reporting only. No investment advice or research is provided. If you have any questions, please contact your Financial Advisor.

## TRAK® Personalized Investment Advisory Service

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

Certain mutual funds may not be transferable to other broker-dealers. For further information, please refer to the fund's Prospectus or call your Financial Advisor.

Consulting Group Research (CGR) rating codes (FL, AL or NL) may be shown for certain mutual funds. Please refer to the "Guide to Investment Ratings" at the end of this statement for a description of these rating codes. All research ratings represent the "opinions" of Consulting Group Research and are not representations or guarantees of performance.

Yield is the current distribution annualized, divided by the fund's net asset value at the end of the statement period. Distributions may consist of income, capital gains or the return of capital. Distributions and current dividend for funds are based upon information provided by an outside vendor and are not verified by us. **"Tax-Based Cost vs. Current Value"** is being provided for information purposes only. **"Cash Distributions (since inception)"** when shown, may reflect distributions on positions no longer held in the account, and may not reflect all distributions received in cash due to but not limited to the following: investments made prior to 1/1/89, asset transfers, recent activity and certain adjustments made in your account. **"Total Purchases vs. Current Value"** is provided to assist you in comparing your **"Total purchases"** excluding reinvested distributions, with the current value of the fund's shares in your account. **"Fund Value Increase/Decrease"** reflects the difference between your total purchases and the current value of the fund's shares, plus cash distributions since inception.

## PORTFOLIO DETAILS

Your holdings are valued using the most current prices available to Citigroup Global Markets Inc. (CGMI). In most cases, these values are as of 12/31/10, but in some cases CGMI's sources are unable to provide timely information. To see the date of the most recent price update, please view your account online at [www.smithbarney.com](http://www.smithbarney.com).

Securities purchased or sold are included or excluded in this section as of the trade-date. This section may include securities that have not settled as of this statement closing date. Please see the "Unsettled Purchases/Sales" section for more information. Dividend yield is the estimated annual income, assuming the current dividend, divided by the security's market price at the end of the statement period. We do not guarantee the accuracy of the prices reflected on the statement nor do these prices represent levels at which securities can be bought or sold. **Please Note:** unrealized gain/(loss) is being shown for informational purposes only and should not be used for tax preparation without the assistance of your tax advisor.

## Mutual funds

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

Certain mutual funds may not be transferable to other broker-dealers. For further information, please refer to the fund's Prospectus or call your Financial Advisor.

Consulting Group Research (CGR) conducts on-going research on a wide variety of mutual funds for certain investment advisory programs. Your individual mutual fund holdings in your brokerage account may or may not be covered by CGR. Please contact your Financial Advisor for further information regarding whether your mutual fund holdings are covered by CGR.

Yield is the current distribution annualized, divided by the fund's net asset value at the end of the statement period. Distributions may consist of income, capital gains or the return of capital. Distributions and current dividend for funds are based upon information provided by an outside vendor and are not verified by us. **"Tax-Based Cost vs. Current Value"** is being provided for information purposes only. **"Cash Distributions (since inception)"** when shown, may reflect distributions on positions no longer held in the account, and may not reflect all distributions received in cash due to but not limited to the following: investments made prior to 1/1/89, asset transfers, recent activity and certain adjustments made in your account. **"Total Purchases vs. Current Value"** is provided to assist you in comparing your **"Total purchases"** excluding reinvested distributions, with the current value of the fund's shares in your account. **"Fund Value Increase/Decrease"** reflects the difference between your total purchases and the current value of the fund's shares, plus cash distributions since inception.

## PORTFOLIO DETAILS

Your holdings are valued using the most current prices available to Citigroup Global Markets Inc. (CGMI). In most cases, these values are as of 12/31/10, but in some cases CGMI's sources are unable to provide timely information. To see the date of the most recent price update, please view your account online at [www.smithbarney.com](http://www.smithbarney.com).

Securities purchased or sold are included or excluded in this section as of the trade-date. This section may include securities that have not settled as of this statement closing date. Please see the "Unsettled Purchases/Sales" section for more information. Dividend yield is the estimated annual income, assuming the current dividend, divided by the security's market price at the end of the statement period. We do not guarantee the accuracy of the prices reflected on the statement nor do these prices represent levels at which securities can be bought or sold. Please Note: unrealized gain/(loss) is being shown for informational purposes only and should not be used for tax preparation without the assistance of your tax advisor.

## Mutual funds

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

Certain mutual funds may not be transferable to other broker-dealers. For further information, please refer to the fund's Prospectus or call your Financial Advisor. Consulting Group Research (CGR) conducts on-going research on a wide variety of mutual funds for certain investment advisory programs. Your individual mutual fund holdings in your brokerage account may or may not be covered by CGR. Please contact your Financial Advisor for further information regarding whether your mutual fund holdings are covered by CGR.

Yield is the current distribution annualized, divided by the fund's net asset value at the end of the statement period. Distributions may consist of income, capital gains or the return of capital. Distributions and current dividend for funds are based upon information provided by an outside vendor and are not verified by us. "Tax-Based Cost vs. Current Value" is being provided for information purposes only. "Cash Distributions (since inception)" when shown, may reflect distributions on positions no longer held in the account, and may not reflect all distributions received in cash due to but not limited to the following: investments made prior to 1/1/89, asset transfers, recent activity and certain adjustments made in your account. "Total Purchases vs. Current Value" is provided to assist you in comparing your "Total purchases" excluding reinvested distributions, with the current value of the fund's shares in your account. "Fund Value Increase/Decrease" reflects the difference between your total purchases and the current value of the fund's shares, plus cash distributions since inception.

## Mutual funds

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

Certain mutual funds may not be transferable to other broker-dealers. For further information, please refer to the fund's Prospectus or call your Financial Advisor. Consulting Group Research (CGR) conducts on-going research on a wide variety of mutual funds for certain investment advisory programs. Your individual mutual fund holdings in your brokerage account may or may not be covered by CGR. Please contact your Financial Advisor for further information regarding whether your mutual fund holdings are covered by CGR.

Yield is the current distribution annualized, divided by the fund's net asset value at the end of the statement period. Distributions may consist of income, capital gains or the return of capital. Distributions and current dividend for funds are based upon information provided by an outside vendor and are not verified by us. **"Tax-Based Cost vs. Current Value"** is being provided for information purposes only. **"Cash Distributions (since inception)"** when shown, may reflect distributions on positions no longer held in the account, and may not reflect all distributions received in cash due to but not limited to the following: investments made prior to 1/1/89, asset transfers, recent activity and certain adjustments made in your account. **"Total Purchases vs. Current Value"** is provided to assist you in comparing your **"Total purchases"** excluding reinvested distributions, with the current value of the fund's shares in your account. **"Fund Value Increase/Decrease"** reflects the difference between your total purchases and the current value of the fund's shares, plus cash distributions since inception.

## PORTFOLIO DETAILS

Your holdings are valued using the most current prices available to Citigroup Global Markets Inc. (CGMI). ## Mutual funds

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

Certain mutual funds may not be transferable to other broker-dealers. For further information, please refer to the fund's Prospectus or call your Financial Advisor.

Consulting Group Research (CGR) conducts on-going research on a wide variety of mutual funds for certain investment advisory programs. Your individual mutual fund holdings in your brokerage account may or may not be covered by CGR. Please contact your Financial Advisor for further information regarding whether your mutual fund holdings are covered by CGR.

Yield is the current distribution annualized, divided by the fund's net asset value at the end of the statement period. Distributions may consist of income, capital gains or the return of capital. Distributions and current dividend for funds are based upon information provided by an outside vendor and are not verified by us. "Tax-Based Cost vs. Current Value" is being provided for information purposes only. "Cash Distributions (since inception)" when shown, may reflect distributions on positions no longer held in the account, and may not reflect all distributions received in cash due to but not limited to the following: investments made prior to 1/1/89, asset transfers, recent activity and certain adjustments made in your account. "Total Purchases vs. Current Value" is provided to assist you in comparing your "Total purchases" excluding reinvested distributions, with the current value of the fund's shares in your account. "Fund Value Increase/Decrease" reflects the difference between your total purchases and the current value of the fund's shares, plus cash distributions since inception.

## PORTFOLIO DETAILS

Your holdings are valued using the most current prices available to Citigroup Global Markets Inc. (CGMI). In most cases, these values are as of 12/31/10, but in some cases CGMI's sources are unable to provide timely information. To see the date of the most recent price update, please view your account online at [www.smithbarney.com](http://www.smithbarney.com).

Securities purchased or sold are included or excluded in this section as of the trade-date. This section may include securities that have not settled as of this statement closing date. Please see the "Unsettled Purchases/Sales" section for more information. Dividend yield is the estimated annual income, assuming the current dividend, divided by the security's market price at the end of the statement period. We do not guarantee the accuracy of the prices reflected on the statement nor do these prices represent levels at which securities can be bought or sold. Please Note: unrealized gain/(loss) is being shown for informational purposes only and should not be used for tax preparation without the assistance of your tax advisor.

## Money fund

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

## Alternative Investments

The value and prices assigned to the investments are estimates based on available information typically received from the funds or other sources. These values and prices may not be realized upon the sale or ultimate disposition of the investment and may not reflect more recent market volatility. Citigroup Global Markets Inc. (CGMI) does not maintain custody of these investments. They are listed below solely as a service to the customer and are not covered by SIPC. If your investment is held in "nominee name" at your request, CGMI is the owner of record on the books and records of the issuer. The issuer will only recognize CGMI as the owner of the investment for all purposes including, but not limited to, communications, capital calls and distributions. CGMI is not required to take any action with respect to your investment unless valid instructions are received from you in a timely manner. Some positions reflected on your statement may not represent interests in the fund, but rather redemption proceeds withheld by the issuer pending final valuations which are not subject to the investment performance of the fund and may or may not accrue interest for the length of the withholding.

Cash distributions from these investments are categorized as "other income" herein and will not be reported as taxable income on your year-end Form 1099. You will receive either a Schedule K-1 or such other documentation from the fund each year for use in preparing your annual tax return. Cash distributions that are classified as income may in fact be a return of principal as a result of a sale of assets, particularly private equity and real estate funds. For more information regarding the source of a cash distribution, please consult the fund's investor reports, investor services or year-end tax report.

Due to delays in the availability of the quarterly estimated values for private equity and real estate funds and for certain hedge and fixed income alternatives that report off cycle quarterly estimated values, this report could contain valuation information, specifically valuation dates, that are inconsistent with other holdings and reflect your contributions and distributions subsequent to the valuation dates, if any, as opposed to the actual valuation of underlying assets, which in most cases is going to be prior to the "as of" date on your statement.

The service on those investments designated "(RPTG ONLY)" is limited to performance reporting only. No investment advice or research is provided. If you have any questions, please contact your Financial Advisor.

**Total Client Investment:** Cost of shares directly purchased and still held. Does not include shares purchased through reinvestment

**Cumulative Investment Return:** Estimated Market Value minus Total Client Investment. Cumulative Investment Return is the dollar value of the capital appreciation (depreciation) of all shares purchased and still held, including shares acquired through reinvestment of dividends and distributions, which may be greater or less than the actual income distributed.

**Initial Purchase:** Date of your initial investment in this fund.

**Market Timing:** Merrill Lynch's policies prohibit mutual fund market timing, which involves the purchase and sale of mutual fund shares within short periods of time with the intention of capturing short-term profits resulting from market volatility. Market timing may result in lower returns for long-term fund shareholders because market timers capture short-term gains that would otherwise pass to all shareholders and due to increased transaction costs and fewer assets for investment due to the need to retain cash to satisfy redemptions.

**Total Client Investment:** Cost of shares directly purchased and still held. Does not include shares purchased through reinvestment.

**Cumulative Investment Return:** Estimated Market Value minus Total Client Investment. Cumulative Investment Return is the dollar value of the capital appreciation (depreciation) of all shares purchased and still held, including shares acquired through reinvestment of dividends and distributions, which may be greater or less than the actual income distributed.

**Market Timing:** Merrill Lynch's policies prohibit mutual fund market timing, which involves the purchase and sale of mutual fund shares within short periods of time with the intention of capturing short-term profits resulting from market volatility. Market timing may result in lower returns for long-term fund shareholders because market timers capture short-term gains that would otherwise pass to all shareholders and due to increased transaction costs and fewer assets for investment due to the need to retain cash to satisfy redemptions.

**Unrealized Gain or (Loss):** Estimated Market Value minus Total Cost Basis (total cost of shares directly purchased and still held, as well as cost of shares acquired through reinvestment). Provided for Tax Planning purposes only and is not applicable to retirement accounts.

**Initial Purchase:** Date of your initial investment in this fund.

**Total Client Investment:** Cost of shares directly purchased and still held. Does not include shares purchased through reinvestment.

**Cumulative Investment Return:** Estimated Market Value minus Total Client Investment.

Cumulative Investment Return is the dollar value of the capital appreciation (depreciation) of all shares purchased and still held, including shares acquired through reinvestment of dividends and distributions, which may be greater or less than the actual income distributed.

**Initial Purchase:** Date of your initial investment in this fund.

**Market Timing:** Merrill Lynch's policies prohibit mutual fund market timing, which involves the purchase and sale of mutual fund shares within short periods of time with the intention of capturing short-term profits resulting from market volatility. Market timing may result in lower returns for long-term fund shareholders because market timers capture short-term gains that would otherwise pass to all shareholders and due to increased transaction costs and fewer assets for investment due to the need to retain cash to satisfy redemptions.

**Total Client Investment:** Cost of shares directly purchased and still held. Does not include shares purchased through reinvestment.

**Cumulative Investment Return:** Estimated Market Value minus Total Client Investment. Cumulative Investment Return is the dollar value of the capital appreciation (depreciation) of all shares purchased and still held, including shares acquired through reinvestment of dividends and distributions, which may be greater or less than the actual income distributed.

**Market Timing:** Merrill Lynch's policies prohibit mutual fund market timing, which involves the purchase and sale of mutual fund shares within short periods of time with the intention of capturing short-term profits resulting from market volatility. Market timing may result in lower returns for long-term fund shareholders because market timers capture short-term gains that would otherwise pass to all shareholders and due to increased transaction costs and fewer assets for investment due to the need to retain cash to satisfy redemptions.

\* Long Term Capital Gain Distributions

The long-term capital gain distribution amounts may change due to income reclassification information provided by the issuer. In particular, distributions made by Mutual Funds, REITs and UITs often need to be reclassified as a different type of distribution (including long-term capital gain distributions) after the end of the year in which the distribution was originally paid.

### Long Term Capital Gain Distributions

The long-term capital gain distribution amounts may change due to income reclassification information provided by the issuer. In particular, distributions made by Mutual Funds, REITs and UITs often need to be reclassified as a different type of distribution (including long-term capital gain distributions) after the end of the year in which the distribution was originally paid.
