(Part XII 2c) We have not changed our oversight in the last years. I am the keeper of the books, we have a office manager that pays all the centers bill, and makes all deposits. I inturn the the spreadsheet of disbursements and deposits and post them into an accounting software package. We have a board of directors meeting on the odd months of the year at which time we thourly go over the previous months income and disbursements. We feel that after the three methods of checking that the books are correct.

(Part VI Question 11) We have not in the past shown or reviewed the Form 990 in our governing board meeting. We (I) was not aware that it was neccessary to do so. If it is manditory we can definately do so.

Question 19 The board of directors direct our staff to keep on the documents needed for the day today operations of the center. Any documents that are needed for board approval are brought to the govening board (Board of Directors) and are acted upon before they are put into force. All finacial statements and documents are the property of the center and are accessible to the public after proper identification is shown and reason to view such documents. Not just anyone who walks in has access to such documents.
