Form 990, Part III, Line 4d	Form 990, Part III, Line 4d Other Program Services Description	OTHER PROGRAM SERVICES 4 Mental Health Counseling & Violence Prevention Paraprofessional Training Program The counselor is Spanish and English speaking Family, group sessions and individual counseling is provided during clinic hours The counselor works closely with WFC physicians to address health conditions brought on by psychological issues Client visits average 4-5 sessions The Violence Prevention Paraprofessional Training Program is designed to train women and teenage girls from our patient community to become community educators Participants are enrolled in an 8-week training course where they learn family violence prevention techniques, signs of mental health issues like depression, and suicide and domestic violence prevention They are then placed into teaching groups where they are mentored and supervised as they lead groups in their community and teach others what they have learned These classes are currently taught in Spanish and empower the participants to be leaders and teachers The number of paraprofessional community educators continues to grow as more people graduate from the program The program empowers families who may be in domestic violence situations to help themselves, their children and their community The program is offered where parents naturally congregate OTHER PROGRAM SERVICES 5 Diabetes Management & Education Program Including Community Outreach This program assists parents who have Type 2 diabetes with education and early treatment The purpose of this program is also to help prevent children from getting diabetes like their parents High school interns and a college student work in partnership with the bi-lingual health educator and dietitian to implement the program Program participants are encouraged to get involved too While they are helping they are also learning how they can improve their own family's health The program includes 1) personal dietary and exercise planning, goal setting and monitoring, 2) quarterly lab tests 3) weekly glucose finger sticks 4) weight and circumference measures, 5) weekly nutrition classes and food demonstrations, 6) one-on-one counseling with the dietitian, and 7) free medications, glucometer and test strips All services are provided in Spanish and English The need to identify people earlier with chronic disease issues like diabetes and high blood pressure has been evident for a long time Through WFC's Community Outreach Program, it partners with the business community who have uninsured employees at their workplace (E-HIP) and locations nearby where people are already going (e.g. the laundry mat, Latino markets) to provide free blood pressure, and blood sugar screening as well as health education and resource referral We have also been able to implement environmental change strategies (HEAL) (e.g. Latino markets offering diabetic friendly food choices that we are telling the patients they should eat) so clients are actually able to change their eating habits the way the doctors, dietitian and health educators at our clinic classes are telling them to (e.g. drink 1% or skim milk instead of whole milk) Our teen promotores interns who are already trained interns at our clinic are involved in all aspects of the program planning, marketing, evaluation, assessment and direct service The students are instrumental in the program's success A bi-lingual health educator runs the program and we have many stories of people with blood sugars over 400 (200 or lower is acceptable for non-fasting persons) and people with very high blood pressure who did not know about their serious health situation until they attended one of our screenings The majority are now patients at our free clinic and getting their health conditions under control

Form 990, Part III, Line 2	Form 990, Part III, Line 2 New Services	Diabetic Clinic In October 2010 the Diabetic clinic was established to provide more comprehensive care for our diabetic patients. It is a monthly clinic that includes a physician visit, retinopathy screening (which is provided by an Ophthalmologist), exercise, dietetic counseling, and foot care by a podiatrist. This clinic was added to our existing services. In addition to wanting to help patients get their blood sugars under control, we also wanted to increase the capacity of our clinic. The diabetic clinic makes it possible for us to see more patients than we were able to before.
