Form 990, Part III, Line 1 - Statement of Program Service Accomplishments

The purpose of Tioga Nursing Facility is to provide a skilled nursing facility to the elderly and other patients requiring long term care  
It is an affiliate of Guthrie Health

Guthrie Health is a nonprofit health care organization that serves to coordinate the activity of Guthrie Clinic (Clinic) and the affiliates within Guthrie Healthcare System (GHS, see Form 990, Schedule R, for a listing of affiliates of GHS, including Robert Packer Hospital (RPH)) Through the activities of the Clinic, GHS, RPH, and its other affiliates (collectively referred to as "Guthrie"), Guthrie Health provides charitable community-based health care services and programs to improve the health and well-being of the people and communities served by its facilities and providers

These charitable activities include providing primary care and specialty physician services, as well as operating a tertiary care teaching hospital, community hospitals, a research institute, home care, hospice care and a long-term care facility The Guthrie Research Institute and Guthrie Clinical Research functions of the Guthrie Foundation for Medical Education and Research (Research Institute), a subsidiary of GHS, furthers these charitable activities through providing basic science research and patient access to the region's largest panel of clinical trials The facilities and provider offices of Guthrie are located in 23 communities throughout the Northern Tier of Pennsylvania and Southern Tier of New York, with the greatest concentration of services provided principally in Bradford County, Pennsylvania and Chemung and Steuben Counties, New York

The vision of Guthrie is to help shape the delivery of health care in the region through working collaboratively with physicians and other providers, and by distributing its services throughout the region based on community needs Guthrie seeks to be the provider of choice for patients in the Twin Tier region, and to be recognized for its superior quality and service It also strives to advance the practice of medicine through its commitment to teaching and research In keeping with this vision, the core values of Guthrie Health are as follows patient-centeredness, excellence and teamwork

Guthrie providers and facilities provide care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates Because it does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue on the financial statements of Guthrie entities Costs for services and supplies furnished under Guthrie's charity care policy amounted to approximately \$2.56 million in 2011 and \$1.57 million in 2010 when measured at the appropriate entity's established rates

As part of its charitable mission, Guthrie provides care through its hospital emergency departments It ensures that an emergency-based treatment or hospital admission is not delayed or denied pending determination of coverage or a requirement for prepayment or deposit As a result of this policy, Guthrie experienced approximately \$3.1 million and \$2.8 million in bad debts for 2011 and 2010, respectively

In addition to the charity care program and the emergency department bad debts discussed above, Guthrie supports numerous other charitable community activities Examples of these activities include medical education for physicians and nurses, the trauma program and medical research The estimated cost, net of reimbursement, for these programs was \$10.0 million and \$9.8 million in 2011 and 2010, respectively

Guthrie also provides services to patients who participate in the Medicaid programs Revenues generated from patients who participate in the Medicaid program are subject to substantial discounts that result in reimbursement for services rendered below the cost of providing such services In order for patients to meet the guidelines for the Medicaid program, various income-based criteria must be met that validate patients' inability to pay for services and ineligibility under other programs The estimated loss incurred by Guthrie from providing services to Medicaid patients amounted to \$18.5 million and \$18.0 million in 2011 and 2010, respectively The total cost to Guthrie in supporting these charitable mission programs was approximately \$33.6 million and \$31.4 million in 2011 and 2010, respectively

As discussed, RPH and the Clinic work closely together in fulfilling Guthrie's charitable mission A regional Level II trauma center, RPH is a tertiary care teaching hospital, located in Sayre, Pennsylvania, serving the Southern Tier of New York and the Northern Tier of Pennsylvania It also provides residency programs in family practice, internal medicine, and general surgery as well as a fellowship program in vascular surgery and cardiovascular disease Medical student training is provided for students from affiliated medical schools Allied health education is also provided for respiratory therapy, nursing, laboratory science and radiologic technology for students from Pennsylvania and New York colleges and universities

Centers of Excellence within RPH include the following Advanced & Minimally Invasive Surgery, Behavioral Health Services, Breast and Imaging Center, Comprehensive Cancer Center, Cardiovascular Care Center, the Center for Wound Care and Hyperbaric Medicine, Dialysis Centers, Joint Camp Program for Orthopedic Surgery, Sports Medicine, Kidney Stone Treatment Center, First Impressions Birthing Center, Sleep Disorders Testing, and Specialty Eye Care

RPH strives to enhance the quality of life in the communities it serves by providing superior health care services and by leading continuous improvement of community health It achieves this mission by organizing services and directing resources toward meeting community health needs through collaboration with community agencies and by compassionate, effective

and affordable means RPH works closely with the Clinic to ensure that the skills and knowledge of the medical staff produce the maximum community health benefit. As a member of the Guthrie Healthcare System, RPH integrates its programs and activities with those of the long-term care and education and research divisions, so that continuity and synergy result.

As part of GHS, the vision of RPH is to play a leadership role in the development and provision of tertiary-level acute care services. Evidence that RPH is successfully fulfilling this role can be seen in its accomplishments this past year. Highlights of those achievements include accreditation by the Pennsylvania Trauma Systems Foundation Board as a Level II Trauma Center, recipient of Thomson Reuters Everest Award (one of only 23 hospitals in the country) for two consecutive years, as well as receiving the Thomson Reuters 100 Top Hospital National Benchmarks award for the four consecutive year. RPH, a magnet designated hospital, has also been named a Thomson Reuters 100 Top Hospital Cardiovascular six times. GHS has been named one of the top 50 healthcare systems in the country by Thomson Reuters. As part of a fully-integrated health delivery system that organizes its services on a regional basis and is accountable for improving the health of the population it serves, RPH accepts responsibility for meeting the health care needs of the community and is able to document the cost effectiveness and quality of services provided.

The Clinic is a multi-specialty physician group practice that includes nearly 350 specialist and primary care physicians and mid-level providers, headquartered in a facility adjacent to RPH. Physicians within the Clinic provide comprehensive medical care using advanced technologies and methodologies for both diagnosis and treatment. Further, the Clinic provides a broad range of educational opportunities for physicians and other health care providers. It also works closely with the Research Institute, where research contributes to recruiting and retaining physician specialists to serve the region and sustaining proficient medical practices. The Clinic is committed to the advancement of medical knowledge and skills, and every effort is made to provide personal, compassionate medical care. The Clinic operates a regional office network in 23 communities in Pennsylvania and New York, encompassing all of the major population centers in the Twin Tiers area.

The Clinic and GHS have developed certain guiding principles for the provision of patient care, which include a commitment the following:

- \* Practice of clinical excellence,
- \* Utilization of the synergy of a multi-specialty medical group practice,
- \* Development of an integrated system that provides a continuum of care,
- \* Provision of local access to care through support of a regional medical office network,
- \* Provision of services to a distinct geographic region, and
- \* Proactive operations

The Clinic, through the provision of primary care services with ease of access to specialty and sub-specialty care, focuses on making an integrated system of health care easily accessible to patients. With its primary concern the diagnosis and treatment
