Identifier	Return Reference	Explanation
		Part X, Line 2 The Foundation adopted the accounting standard on accounting for uncertainty in income taxes, which addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under this guidance, the Foundation may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities, based on the technical merits of the position. Examples of tax positions include the tax-exempt status of the Foundation and various positions related to the potential sources of unrelated business taxable income (UBIT). The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement. The guidance on accounting for uncertainty in income taxes also addresses de-recognition, classification, interest and penalties on income taxes, and accounting in interim periods. At June 30, 2011 and 2010, there were no unrecognized tax benefits identified or recorded as liabilities. With few exceptions, the Foundation is no longer subject to examinations by tax authorities for years prior to 2007. Part XI, Line 8 Change in value of charitable gift annuities. Part XII, Line 2d Change in value of charitable gift annuities.
