Independent Auditor's Report

The Board of Directors
Platte Community Memorial Hospital, Inc. d/b/a Platte Health Center, Inc.
Platte, South Dakota

We have audited the accompanying balance sheets of Platte Community Memorial Hospital, Inc. d/b/a Platte Health Center, Inc. (Health Center) as of June 30, 2011 and 2010, and the related statements of operations, changes in net assets, and cash flows for the years then ended. These financial statements are the responsibility of the Health Center's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Health Center's internal control over financial reporting. Accordingly, we do not express such an opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Platte Health Center, Inc. as of June 30, 2011 and 2010, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Note 1 - Organization and Significant Accounting Policies

Organization

Platte Community Memorial Hospital, Inc. d/b/a Platte Health Center, Inc. (“Health Center”) operates a 17-bed critical access hospital, a 48-bed long-term care facility, a congregate living center located in Platte, South Dakota, and rural health clinics located in Platte, South Dakota and Geddes, South Dakota. The Health Center is organized as a South Dakota nonprofit corporation and is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. The organization’s legal name is Platte Community Memorial Hospital, Inc.; however, the organization conducts all business as Platte Health Center, Inc.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include highly liquid investments with an original maturity of three months or less, excluding assets limited as to use.

Patient and Resident Receivables

Patient and resident receivables are uncollateralized patient, resident and third-party payor obligations. Unpaid patient and resident receivables do not have interest assessed. Payments of patient and resident receivables are allocated to the specific claims identified on the remittance advice or, if unspecified, are applied to the earliest unpaid claim.

The carrying amount of patient and resident receivables is reduced by a valuation allowance that reflects management’s best estimate of amounts that will not be collected from patients and residents and third-party payors. Management reviews patient and resident receivables by payor class and applies percentages to determine estimated amounts that will not be collected from third parties under contractual agreements and amounts that will not be collected from patients and residents due to bad debts. Management considers historical write off and recovery information in determining the estimated bad debt provision. Management also reviews accounts to determine if classification as charity care is appropriate.

Supplies

Supplies are stated at lower of cost (first-in, first-out) or market.

Investments and Investment Income

Investments with readily determinable market values are stated at fair value. The fair value of all debt and equity securities with readily determinable fair values are based on quotations obtained from national and foreign securities exchanges. The Health Center has adopted Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 825. ASC 825 permits entities to choose to measure many financial instruments and certain other items at fair value. Unrealized gains and losses on all investments with readily determinable market values are recorded in earnings as a component of revenues in excess of (less than) expenses. Investment income or loss (including interest income, dividends, net changes in unrealized gains and losses, and net realized gains and losses) is included in revenues in excess of (less than) expenses unless the income or loss is restricted by donor or law. Investment income is recorded as nonoperating revenue in the statement of operations.

The Health Center participates in the Avera Pooled Investment Fund, a fund administered by Avera Health. The Pooled Investment Fund has a portion of its holdings in alternative investments, which are not readily marketable. These alternative investments include partnerships and other interests that invest in hedge funds, real asset funds, and private equity/venture capital funds, among others. Certain alternative investments held within the Avera Pooled Investment Fund include liquidity and redemption limitations. Alternative investments representing less than 3% ownership interest are carried at cost, subject to an annual review for impairment. Alternative investments representing greater than 3% ownership interest are recorded using the equity method. Investment income, including interest, dividends, realized gains and losses, and unrealized gains and losses are allocated to participants of the Avera Pooled Investment Fund.

Assets Limited As To Use

Assets limited as to use include assets set aside by the Board of Directors for funded depreciation to be used for future capital expenditures, over which the Board retains control and may, at its discretion, subsequently use for other purposes and assets restricted under a loan agreement. Assets limited as to use that are available for obligations classified as current liabilities are reported in current assets.

Fair Value Measurements

The Health Center has determined the fair value of certain assets and liabilities in accordance with the provisions of ASC 820, Fair Value Measurements and Disclosures, which provides a framework for measuring fair value under generally accepted accounting principles.

ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 requires that valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. ASC 820 also establishes a fair value hierarchy, which prioritizes the valuation inputs into three broad levels.

Level 1 inputs consist of quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the related asset or liability. Level 3 inputs are unobservable inputs related to the asset or liability.

Interest in Net Assets of Foundation

Avera Health Foundation (Foundation), an affiliate of the Health Center, solicits contributions and holds funds on behalf of the Health Center. The Health Center's interest in these funds is recorded as other assets in the accompanying financial statements and as temporarily or permanently restricted net assets if donors have placed restrictions on the use of the funds. Changes in the funds held by the Foundation are recorded as changes in net assets of foundation in the accompanying financial statements.

Property and Equipment

Property and equipment acquisitions in excess of \$5,000 (\$1,000 for nursing home acquisitions) are capitalized and recorded at cost. Depreciation is provided over the estimated useful life of each depreciable asset and is computed using the straight-line method. Equipment under capital lease obligations is amortized on the straight-line method over the shorter period of the lease term or the estimated useful life of the equipment. Such amortization is included in depreciation and amortization in the accompanying financial statements. The estimated useful lives of property and equipment are as follows:

Land improvements	5-25 years
Buildings and improvements	5-50 years
Equipment	3-20 years

Gifts of long-lived assets such as land, buildings, or equipment are reported as unrestricted net assets, and are excluded from revenues in excess of (less than) expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted net assets. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Deferred Financing Costs

Deferred financing costs are amortized over the period the related obligation is outstanding using the straight-line method. Amortization of deferred financing costs is included in interest expense in the accompanying financial statements.

Deferred Revenue

The Health Center recognizes deferred revenue for amounts billed to nursing home residents where services have not been provided. Grants are also recorded as deferred revenue when the Health Center receives grant money in advance of qualifying grant expenditures. Grant revenue is recognized and included in operating income at the time qualifying expenditures are made by the Health Center.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the Health Center has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained by the Health Center in perpetuity.

Revenues In Excess of (Less Than) Expenses

Revenues in excess of (less than) expenses excludes transfers of assets to and from related parties for other than goods and services, and contributions of long-lived assets, including assets acquired using contributions which were restricted by donors.

Net Patient and Resident Service Revenue

The Health Center has agreements with third-party payors that provide for payments to the Health Center at amounts different from its established rates. Payment arrangements include prospectively determined rates per diem, reimbursed costs, and discounted charges. Net patient and resident service revenue is reported at the estimated net realizable amounts from patients, residents, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

Charity Care

To fulfill its mission of community service, the Health Center provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Health Center does not pursue collection of amounts determined to qualify as charity care, they are not reported as patient and resident service revenue.

Advertising Costs

The Health Center expenses advertising costs as incurred.

Income Taxes

The Health Center is organized as a nonprofit corporation as described in Section 501(c)(3) of the Internal Revenue Code and is exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. The Health Center is required to file a Return of Organizations Exempt from Income Tax (Form 990) with the Internal Revenue

Service (IRS). The Health Center had no cash paid for income taxes for the years ended June 30, 2011 and 2010, respectively.

The Health Center believes that it has appropriate support for any tax positions taken affecting its annual filing requirements, and as such, does not have any uncertain tax positions that are material to the financial statements. The Health Center would recognize future accrued interest and penalties related to unrecognized tax benefits and liabilities in income tax expense if such interest and penalties are incurred.

Reclassifications

Reclassifications have been made to the June 30, 2010 financial information to make it conform to the current year presentation. The reclassifications had no effect on previously reported operating results or changes in net assets.

Note 2 - Charity Care

The Health Center maintains records to identify and monitor the level of charity care it provides. These records include the amount of charges foregone for services and supplies furnished under its charity care policy and equivalent service statistics. These amounts do not include those services that are provided to patients and residents covered by Medicare, Medicaid, state agencies, county, and other third-party payors where less than full charges are received.

The amount of charges foregone, based on established rates, during the years ended June 30, 2011 and 2010, was \$100,166 and \$60,092, respectively. The amounts of charity care specified above exclude expenses associated with a number of additional community services provided by the Health Center.

Note 3 - Net Patient and Resident Service Revenue

The Health Center has agreements with third-party payors that provide for payments to the Health Center at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows:

Medicare – Hospital: The Health Center is licensed as a Critical Access Hospital (CAH). The Health Center is reimbursed for most inpatient, outpatient, and clinic services on a cost based methodology with final settlement determined after submission of annual cost reports by the Health Center and are subject to audits thereof by the Medicare fiscal intermediary. The Health Center's Medicare cost reports have been audited by the Medicare fiscal intermediary through June 30, 2008. The Health Center's classification of patients under the Medicare program and the appropriateness of their admission are subject to an independent review by a peer review organization under contract with the Health Center.

Medicare – Clinics: The clinics are designated as Provider Based Rural Health Clinics by the Medicare program. As a result, clinical services rendered to Medicare program beneficiaries are reimbursed at cost.

Medicaid: Services rendered to Medicaid program beneficiaries for Health Center services are paid using a percent of charges methodology with no settlement process.

Wellmark – Blue Cross: Services rendered to Wellmark – Blue Cross subscribers are paid under a prospectively determined percentage of charges methodology.

Medicare and Medicaid – Nursing Home: The Health Center participates in the Medicare program for which payments for resident services is made on a prospectively determined per diem rate which varies based on a case-mix resident classification system. The Health Center is reimbursed for Medicaid nursing home resident services through prospective per diems which are determined on a cost-related basis subject to certain limitations as prescribed by the South Dakota Department of Social Services regulations. These rates are subject to retroactive adjustment by field audit.

Other: The Health Center has also entered into payment agreements with certain commercial insurance carriers and managed care insurance carriers and other organizations. The basis for payment to the Health Center under these agreements includes prospectively determined rates per discharge, discounts from established charges, and prospectively determined daily rates.

Laws and regulations governing Medicare, Medicaid, and other programs are extremely complex and subject to interpretation. As a result, there is an ongoing level of uncertainty relative to the estimated liability for prior period cost reports. There is a reasonable possibility that recorded estimates will change by a material amount in the near term.

A summary of patient and resident service revenue and contractual adjustments for the years ended June 30, 2011 and 2010, is as follows:

The Center is a participant in the Avera Pooled Investment Fund, a fund administered by Avera Health that is maintained for the benefit of facilities that are sponsored, operated, or managed by Avera Health. Investments are made in conformity with the objectives and guidelines of the Avera Health Pooled Investment Committee. Within the fund, facilities share in a pool of investments that are managed by various fund managers. Asset valuation and income and losses of the fund are allocated to participating members based on the carrying amount of their investment in the fund. The Pooled Investment Fund includes investments in securities that are measured at fair value using inputs under the guidance provided by ASC 820. The Pooled Investment Fund also contains investments that are recorded at historical cost or under the equity method as described in the Fund's investment policy.

	<u><u>\$ 9,080,415</u></u>

Substantially all of the Health Center's assets at June 30, 2011, are pledged as collateral for the debt obligations.

Note 8 - Temporarily and Permanently Restricted Net Assets

As discussed in Note 1, the Avera Health Foundation solicits and holds contributions on behalf of the Health Center. Some of the contributions are restricted by the donors for specific purposes.

Temporarily restricted net assets are available for the following purposes at June 30, 2011 and 2010:

	2011	2010
To support various health care related programs and services	<u>\$ 230,378</u>	<u>\$ 40,299</u>

Permanently restricted net assets at June 30, 2011 and 2010, are restricted to:

	2011	2010
Funds to be held in perpetuity, income from which is to be used to support hospital operating and capital needs at the discretion of the board of directors	<u>\$ 1,440,692</u>	<u>\$ 1,112,255</u>

Note 9 - Endowment

The Health Center's endowments consist of a portion of their interest in the net assets of the Avera Health Foundation. The Avera Health Foundation includes endowment funds which have been established for a variety of purposes. As required by generally accepted accounting principles, net assets associated with endowment funds, including funds designated by the Board of Directors to function as endowments (if any), are classified and reported based on the existence or absence of donor-imposed restrictions. The Health Center's permanently restricted endowment funds are donor restricted and totaled \$1,440,692 and \$1,112,255 at June 30, 2011 and 2010, respectively. The Health Center's board designated endowment funds totaled \$13,247 and \$0 at June 30, 2011 and 2010, respectively.

Interpretation of Relevant Law

The Health Center has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Health Center classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Health Center in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

1. The duration and preservation of the fund
2. The purposes of the Health Center and the donor-restricted endowment fund
3. General economic conditions
4. The possible effect of inflation and deflation
5. The expected total return from income and the appreciation of investments
6. Other resources of the Health Center
7. The investment policies of the Health Center

Changes in endowment net assets for the year ending June 30, 2011 and 2010, are as follows:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Endowment net assets, June 30, 2009	\$ -	\$ -	\$ 896,140	\$ 896,140
Change in interest in net assets of Avera Health Foundation	<u>-</u>	<u>-</u>	<u>216,115</u>	<u>216,115</u>
Endowment net assets, June 30, 2010	- -	- -	1,112,255	1,112,255
Change in interest in net assets of Avera Health Foundation	<u>13,247</u>	<u>-</u>	<u>328,437</u>	<u>341,684</u>
Endowment net assets, June 30, 2011	<u><u>\$ 13,247</u></u>	<u><u>\$ -</u></u>	<u><u>\$ 1,440,692</u></u>	<u><u>\$ 1,453,939</u></u>

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor restricted endowment funds may fall below the level that the donor requires the Health Center to retain as a fund of perpetual duration. In accordance with generally accepted accounting principles, deficiencies of this nature are reported in unrestricted net assets. There were no such deficiencies that were deemed material as of June 30, 2011 and 2010.

Return Objectives and Risk Parameters

Through its affiliation with the Avera Health Foundation, the Health Center has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Health Center must hold in perpetuity or for a donor-specified period(s). Under these policies, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce results that meet the price and yield investment returns established by the Avera Pooled Investment Committee while assuming a moderate level of investment risk. The Health Center expects its endowment funds with the Avera Health Foundation, over time, to provide an average rate of return of approximately 6%-8% annually. Actual returns in any given year may vary from this amount.

Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the Health Center relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Health Center targets a diversified asset allocation including equity securities, fixed-income securities, hedge funds, and private equity to achieve its long-term return objectives within prudent risk constraints.

Spending Policy and How the Investment Objectives Relate to Spending Policy

The Avera Health Foundation Board of Directors determines the annual spending rate and distribution amounts based on a review of the average market value of the endowment fund over the most recent 20 quarters. Local governing boards review the spending rate and distribution information and determine if payouts that would invade the corpus would be fiscally responsible.

Note 10 - Pension Plan

The Health Center has a defined contribution pension plan under which employees become participants upon reaching age 21 and completion of one year of service during which the employee completes at least 1,000 hours of service. The Health Center matches the employees' contribution up to 3%. Contributions are deposited with the plan trustee who invests the plan assets. Total pension plan expense for the years ended June 30, 2011 and 2010, was \$96,885 and \$100,589, respectively.

Note 11 - Concentrations of Credit Risk

The Health Center grants credit, without collateral, to its patients and residents, most of whom are insured under third-party payor agreements. The mix of receivables from third-party payors, patients and residents at June 30, 2011 and 2010, was as follows:

	<u>2011</u>	<u>2010</u>
Medicare	35%	32%
Medicaid	4%	6%
Blue Cross	8%	9%
Other third-party payors and patients/residents	<u>53%</u>	<u>53%</u>
	<u>100%</u>	<u>100%</u>

The Health Center's cash balances are maintained in various bank deposit accounts. At various times during the years ended June 30, 2011 and 2010, the balances of these deposits were in excess of federally insured limits.

Note 12 - Functional Expenses

The Health Center provides health care services to residents within its geographic location. Expenses related to providing these services by functional class for the years ended June 30, 2011 and 2010, are as follows:

	2011	2010
Patient and resident health care services	\$ 9,963,153	\$ 9,448,049
General and administrative	<u>1,217,001</u>	<u>1,021,626</u>
	<u><u>\$ 11,180,154</u></u>	<u><u>\$ 10,469,675</u></u>

Note 13 - Contingencies

Malpractice Insurance, Litigation and Claims

The Hospital has malpractice insurance coverage to provide protection for professional liability losses on a claims-made basis subject to a limit of \$1 million per claim and an annual aggregate limit of \$3 million. The Hospital is also insured under an excess umbrella liability policy with a limit of \$10 million. Should the claims made policy not be renewed or replaced with equivalent insurance, claims based on occurrences during its term, but reported subsequently, would be uninsured.

Note 14 - Subsequent Events

The Health Center has evaluated subsequent events through November 4, 2011, the date which the financial statements were available to be issued.
