Independent Auditors' Report

The Board of Directors
MedStar Health, Inc

We have audited the accompanying consolidated balance sheets of MedStar Health, Inc (the Corporation) as of June 30, 2011 and 2010 and the related consolidated statements of operations and changes in net assets, and cash flows for the years then ended These consolidated financial statements are the responsibility of the Corporation's management Our responsibility is to express an opinion on these consolidated financial statements based on our audits

We conducted our audits in accordance with auditing standards generally accepted in the United States of America Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control over financial reporting Accordingly, we express no such opinion An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation We believe that our audits provide a reasonable basis for our opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of MedStar Health, Inc as of June 30, 2011 and 2010, and the results of their operations and their cash flows for the years then ended in conformity with U S generally accepted accounting principles

The Corporation's affiliation with St Mary's Hospital was accounted for as an "as-if pooling of interests" in accordance with U S generally accepted accounting principles Accordingly, the assets and liabilities of St Mary's Hospital and its subsidiaries were recorded at their carrying values The financial position and results of operations of St Mary's Hospital are included in the accompanying consolidated financial statements for the period beginning on or after July 1, 2009 Net assets increased by $76 1 on July 1, 2009 due to the affiliation

(c) Basis of Presentation

The consolidated financial statements are prepared on the accrual basis of accounting in accordance with U S generally accepted accounting principles All majority owned and direct member entities are consolidated All entities where the Corporation exercises significant influence but for which it does not have control are accounted for under the equity method All other entities are accounted for under the cost method All significant intercompany accounts and transactions have been eliminated

(d) Use of Estimates

The preparation of financial statements in conformity with U S generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period Actual results could differ from those estimates

(e) Cash Equivalents

All highly liquid investments with a maturity date of three months or less when purchased are considered to be cash equivalents

(f) Investments and Assets whose use is Limited or Restricted

The Corporation's investment portfolio is considered trading and is classified as current or noncurrent assets based on management's intention as to use All debt and equity securities are reported at fair value principally based on quoted market prices on the consolidated balance sheets

The Corporation has investments which under U S generally accepted accounting principles are considered alternative investments, including commingled equity funds totaling $95 2 and $32 4 at June 30, 2011 and 2010, respectively, inflation hedging equity, commodity, and fixed income funds totaling $64 9 and $35 5 at June 30, 2011 and 2010, respectively, and hedge fund of funds and private equity totaling $108 4 and $91 4 at June 30, 2011 and 2010, respectively These funds utilize

various types of debt and equity securities and derivative instruments in their investment strategies Alternative investments are recorded under the equity method

Investments in unconsolidated affiliates are accounted for under the cost or equity method of accounting, as appropriate and are included in other assets in the consolidated balance sheets The Corporation utilizes the equity method of accounting for its investments in entities over which it exercises significant influence The Corporation's equity income or loss is recognized in nonoperating gains (losses)

Investments limited as to use or restricted include assets held by trustees under bond indenture, self-insurance trust arrangements, assets restricted by donor, and assets designated by the Board of Directors for future capital improvements and other purposes over which it retains control and may, at its discretion, use for other purposes Amounts from these funds required to meet current liabilities have been classified in the consolidated balance sheets as current assets Purchases and sales of securities are recorded on a trade-date basis

Investment income (interest and dividends) including realized gains and losses on investment sales are reported as nonoperating gains or losses in the excess of revenues over expenses in the accompanying consolidated statements of operations and changes in net assets unless the income or loss is restricted by the donor or law Investment income on funds held in trust for self-insurance purposes is included in other operating revenue Investment income and net gains (losses) that are restricted by the donor are recorded as a component of changes in temporarily or permanently restricted net assets, in accordance with donor imposed restrictions Realized gains and losses are determined based on the specific security's original purchase price or adjusted cost if the investment was previously determined to be other-than-temporarily impaired Unrealized gains and losses are included in nonoperating gains (losses) within the excess of revenue over expenses

(g) Inventories

Inventories, which primarily consist of medical supplies and pharmaceuticals at many of the operating entities, are stated at the lower of cost or market, with cost being determined primarily under the average cost or first-in, first-out methods

(Dollars in millions)

(h) Property and Equipment

Property and equipment acquisitions are recorded at cost and are depreciated or amortized over the estimated useful lives of the assets. Estimated useful lives range from three to forty years. Amortization of assets held under capital leases are computed using the shorter of the lease term or the estimated useful life of the leased asset and is included in depreciation and amortization expense. Interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets. Interest expense capitalized totaled $1.3 and $7.0 for 2011 and 2010, respectively, which was offset by investment earnings of $0.1 and $1.2, respectively. Depreciation is computed on a straight-line basis. Major classes and estimated useful lives of property and equipment are as follows:

Leasehold improvements	Lease term
Buildings and improvements	10 – 40 years
Equipment	3 – 20 years

Gifts of long-lived assets such as land, buildings, or equipment are reported as unrestricted support, and are excluded from the excess of revenues over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

(i) Interest in Net Assets of Foundation

The Corporation recognizes its rights to assets held by recipient organizations, which accept cash or other financial assets from a donor and agree to use those assets on behalf of or transfer those assets, the return on investment of those assets, or both, to the Corporation. Changes in the Corporation's economic interests in these financially interrelated organizations are recognized in the consolidated statements of operations and changes in net assets as a component of changes in temporarily restricted net assets.

(j) Internal-Use Software

The Corporation capitalizes the direct costs, including internal personnel costs, associated with the implementation of new information systems for internal use. The Corporation capitalized $1.1 and $1.6 during the years ended June 30, 2011 and 2010, respectively. Capitalized amounts are amortized over the estimated lives of the software, generally three to five years.

(k) Financing Costs

Financing costs incurred in issuing bonds have been capitalized and included in other assets. These costs are being amortized over the estimated duration of the related debt using the effective interest method. Accumulated amortization totaled $4.6 and $4.2 at June 30, 2011 and 2010, respectively.

(Continued)

(l) Estimated Professional Liability Costs

The provision for estimated self-insured professional liability claims includes estimates of the ultimate costs for both reported claims and claims incurred but not reported These estimates are based on actuarial analysis of historical trends, claims asserted and reported incidents

(m) Leases

Lease arrangements, including assets under construction, are capitalized when such leases convey substantially all the risks and benefits incidental to ownership Capital leases are amortized over either the lease term or the life of the related assets, depending upon available purchase options and lease renewal features Amortization related to capital leases is included in the statements of operations within depreciation and amortization expense

(n) Derivatives

The Corporation utilizes derivative financial instruments to manage its interest rate risks associated with tax-exempt debt The Corporation does not hold or issue derivative financial instruments for trading purposes The derivative instruments are recorded on the balance sheet at their respective fair values The Corporation's current derivative investments do not qualify for hedge accounting, therefore, the changes in fair value have been recognized in the accompanying consolidated statements of operations and changes in net assets as mark-to-market adjustments The fair market value of the derivative instruments are included in other long-term liabilities in the accompanying consolidated balance sheets

(o) Net Patient Service Revenue

Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments due to future audits, reviews and investigations The differences between the estimated and actual amounts are recorded as part of net patient service revenue in future periods as the amounts become known, or as years are no longer subject to audit, review or investigation Payment arrangements include prospectively determined rates per discharge, fee-for-service, discounted charges, and per diem payments Hospital inpatient services, hospital outpatient services, the physician component of physician/managed care networks, and other patient services consists of revenue, which is recognized when the services are rendered based on billable charges Other patient service revenue primarily consists of home care, long-term care and other nonhospital patient services

Premium revenue consists of amounts received from the State of Maryland by the Corporation's managed care organization for providing medical services to subscribing participants, regardless of services actually performed The managed care organization provides services primarily to enrolled Medicaid beneficiaries This revenue is recognized ratably over the contractual period for the provision of services Medical expenses of the managed care organization include a provision for incurred but unreported claims

(p) Charity Care

The Corporation provides care to patients who meet certain criteria under its charity care policies without charge or at amounts less than established rates. Because the Corporation does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue.

(q) Grants

Federal grants are accounted for as either an exchange transaction or as a contribution based on terms and conditions of the grant. If the grant is accounted for as an exchange transaction, revenue is recognized as other operating revenue when earned. If the grant is accounted for as a contribution, the revenues are recognized as either other operating revenue, or as temporarily restricted contributions depending on the restrictions within the grant.

(r) Contributions

Unconditional promises to give cash and other assets to the Corporation are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statement of operations as net assets released from restrictions in other operating revenue. Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying consolidated financial statements.

(s) Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the period that includes the enactment date. Any changes to the valuation allowance on the deferred tax asset are reflected in the year of the change. The Corporation accounts for uncertain tax positions in accordance with the FASB Accounting Standards Codification (ASC) Topic 740, *Income Taxes*.

(t) Excess of Revenue over Expenses

The consolidated statements of operations and changes in net assets includes a performance indicator, which is the excess of revenue over expenses. Changes in unrestricted net assets that are excluded from excess of revenue over expenses, include unrealized gains and losses on investments classified as other-than-trading securities, contributions of long-lived assets (including assets acquired using contributions that by donor restriction were to be used for the purpose of acquiring

such assets), certain changes in accounting principle and defined benefit obligations in excess of recognized pension cost, among others

(u) Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the Corporation or individual operating units has been limited by donors to a specific time period or purpose Permanently restricted net assets have been restricted by donors to be maintained by the Corporation or individual operating units in perpetuity

(v) Fair Value of Financial Instruments

The following methods and assumptions were used to estimate the fair value of financial instruments

Cash and cash equivalents, receivables, other current assets, other assets, current liabilities and long-term liabilities The carrying amount reported in the consolidated balance sheets for each of these assets and liabilities approximates their fair value

The fair value of investments, assets whose use is limited or restricted and the interest rate swap is discussed in note 3 The fair value of long term debt is discussed in note 6

(w) Reclassifications

Certain prior year amounts have been reclassified to conform with current period presentation, the effect of which is not material

(x) New Accounting Pronouncements

In July 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No 2011-07, *Health Care Entities (Topic 954), Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities (ASU 2011-07)*, which requires a health care entity to change the presentation of their statement of operations by reclassifying the provision for bad debts associated with patient service revenue from an operating expense to a deduction from patient service revenue (net of contractual allowances and discounts) Additionally, enhanced disclosures about an entity's policies for recognizing revenue, assessing bad debts, as well as qualitative and quantitative information about changes in the allowance for doubtful accounts are required The adoption of ASU 2011-07 is effective for the Corporation beginning July 1, 2012

In August 2010, the FASB issued ASU No 2010-24, *Health Care Entities (Topic 954), Presentation of Insurance Claims and Related Insurance Recoveries (ASU 2010-24)*, which clarified that a health care entity should not net insurance recoveries against a related claim liability Additionally, the amount of the claim liability should be determined without consideration of insurance recoveries The adoption of ASU 2010-24 is effective beginning July 1, 2011 and is not expected to have an impact on the Corporation's consolidated financial statements

In August 2010, the FASB issued ASU No 2010-23, *Health Care Entities (Topic 954), Measuring Charity Care for Disclosure* ASU 2010-23 is intended to reduce the diversity in practice regarding the measurement basis used in the disclosure of charity care ASU 2010-23 requires that cost be used as the measurement basis for charity care disclosure purposes and that cost be identified as the direct and indirect cost of providing the charity care, and requires disclosure of the method used to identify or determine such costs The adoption of ASU 2010-23 is effective for the Corporation beginning July 1, 2011

In January 2010, FASB issued ASU No 2010-07, *Not-for-Profit Entities (Topic 958), Not-for-Profit Entities Mergers and Acquisition (ASU 2010-07)*, which codified previous guidance on accounting for a combination of not-for-profit entities and applies to a combination that meets the definition of either a merger of not-for-profit entities or an acquisition by a not-for-profit entity ASU 2010-07 also amends previous guidance for the reporting of goodwill and other intangibles and noncontrolling interests in consolidated financial statements to make their provisions fully applicable to not-for-profit entities This guidance establishes that goodwill be tested annually for impairment and an impairment loss be recognized if it is determined that the carrying amount of the reporting unit's net assets exceeds its fair value Beginning on July 1, 2010, the Corporation applied the transition provisions of the guidance which requires the Corporation to cease amortization of previously recognized goodwill and to test goodwill for impairment annually or more frequently if events or circumstances indicate that the carrying value of an asset may not be recoverable The Corporation completed a transitional and annual goodwill impairment test No adjustments to the carrying value of previously recognized goodwill were recorded during the year ended June 30, 2011 The guidance also requires the presentation of noncontrolling interests in the net assets of consolidated subsidiaries be reported as a separate component of the appropriate class of net assets in the consolidated balance sheets and the amount of consolidated excess of revenues over expenses attributable to the Corporation and to the noncontrolling interest be disclosed The provisions of the standard related to the presentation and disclosure of noncontrolling interests are to be applied retrospectively to all periods presented The adoption of this standard did not have a material impact on the Corporation's consolidated financial statements, except the following

(a) Noncontrolling interests of $8 2 as of July 1, 2009 were reclassified from other long-term liabilities to unrestricted net assets, separate from the Corporation's unrestricted net assets

(b) Consolidated excess of revenues over expenses includes excess of revenues over expenses attributable to both the Corporation and noncontrolling interests

In January 2010, the FASB issued ASU 2010-06, *Improving Disclosures about Fair Value Measurements* ASU 2010-06 amends ASC Topic 820, *Fair Value Measurements and Disclosures*, to require a number of additional disclosures regarding fair value measurements Effective fiscal year 2010, ASU 2010-06 required disclosure of the amounts of significant transfers between Level I and Level II investments and the reasons for such transfers, the reasons for any transfers in or out of Level III investments and disclosure of the policy for determining when transfers among levels are recognized ASU 2010-06 also clarified that disclosures should be provided for each class of assets and liabilities and clarified the requirement to disclose information about the valuation techniques

(Dollars in millions)

and inputs used in estimating Level II and Level III measurements Effective in fiscal year 2011, ASU 2010-06 also requires that information in the reconciliation of recurring Level III measurements about purchases, sales, issuances and settlements be provided on a gross basis The adoption of ASU 2010-06 only required additional disclosures and did not have an impact on the consolidated financial statements As the Corporation does not have significant transfers between Levels, or any Level III measurements, no additional disclosures were necessary

(2) Investments and Assets Whose Use Is Limited or Restricted

Investments and assets whose use is limited or restricted as of June 30, 2011 and 2010, at fair value or under the equity method of accounting in the case of alternative investments, consist of the following

Total investment return	$ 146 4	92 7

(3) Fair Value of Financial Instruments

The Corporation adopted ASC Topic 820, *Fair Value Measurements and Disclosures* on July 1, 2008 The guidance provides for the following

- Defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, and establishes a framework for measuring fair value,
- Establishes a three-level hierarchy for fair value measurement,
- Requires consideration of the Corporation's nonperformance risk when valuing liabilities, and
- Expands disclosures about instruments measured at fair value

The three-level valuation hierarchy for fair value measurements is based upon observable and unobservable inputs Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Corporation's market assumptions The three level valuation hierarchy is defined as follows

- Level 1 – Quoted prices for identical instruments in active markets,
- Level 2 – Quoted prices for similar instruments in active markets, quoted prices for identical or similar investments in markets that are not active, and model derived valuations whose significant inputs are observable, and

(Dollars in millions)

- Level 3 – Instruments whose significant inputs are unobservable

The Corporation has incorporated an Investment Policy Statement (IPS) into the investment program The IPS, which has been formally adopted by the Corporation's Board of Directors, contains numerous standards designed to ensure adequate diversification by asset class and geography The IPS also limits all investments by manager and position size, and limits fixed income position size based on credit ratings, which serves to further mitigate the risks associated with the investment program At June 30, 2011 and 2010, management believes that all investments were being managed in a manner consistent with the IPS

The table below presents the Corporation's investable assets and liabilities as of June 30, 2011, aggregated by the three level valuation hierarchy

Related to the District borrowings, the Corporation entered into an interest rate swap with Wells Fargo Bank, National Association in a notional amount totaling $150 0 (reduced to $114 5 at August 2011) The swap agreement expires in fiscal year 2027 The interest rate swap is part of a comprehensive and long-term capital structure strategy The purpose of the swap is to mitigate the effect of potential interest rate volatility and minimize the variability of the Corporation's average cost of capital Under the terms of the swap, the Corporation pays a fixed rate and receives a variable rate Collateral is only required to be posted under the swap in the event that the Corporation's credit ratings are downgraded by two rating agencies below the BBB – or Baa2 – level To date, no collateral postings have been required At June 30, 2011 and 2010, the variable interest rate under these agreements was 0 12% and 0 23%, respectively The fixed rate was 3 69% as of June 30, 2011 and 2010 The variable rates are capped at 14 0% The fair value of the interest rate swap at June 30, 2011 and 2010 was $15 4 and $18 1, respectively, and is included in other long-term liabilities The change in fair value of the swap is reported in nonoperating gains (losses) in the statements of operations and changes in net assets

In February 2004, MHHEFA issued $170 3 in bonds (Series 2004 Bonds) on behalf of the Corporation The proceeds of the Series 2004 Bonds were loaned to the Corporation pursuant to a loan agreement with MHHEFA upon execution of an obligation pursuant to the Master Trust Indenture The Series 2004 Bonds were issued as $40 5 serial bonds maturing 2009 through 2025 ($10 8 repaid through August 2011), $49 7

term bonds maturing 2024 and $80 1 term bonds maturing 2033 Such Bonds were issued at fixed rates Series 2004 Bonds maturing on or after August 2015 are subject to redemption or purchase at the option of the Corporation prior to maturity beginning in 2014

In January 2007, MHHEFA issued $145 0 in bonds (Series 2007 Bonds) on behalf of the Corporation The Series 2007 Bonds were issued at a net premium of $3 6, resulting in total proceeds of $148 6 The proceeds of the Series 2007 Bonds were loaned to the Corporation pursuant to a loan agreement with MHHEFA upon execution of an obligation pursuant to the Master Trust Indenture The proceeds from the offering, in conjunction with an equity contribution from the Corporation, have been used at Franklin Square Hospital to fund the construction of a seven-story patient tower, expanded parking, a new power plant, renovation of certain contiguous areas to the patient tower, site design, and to fund capitalized interest and transaction costs for the project The Series 2007 Bonds were issued as $56 0 term bonds maturing 2042 and $89 0 term bonds maturing 2046 Such Bonds were issued at fixed rates Series 2007 Bonds maturing on or after May 2042 are subject to redemption or purchase at the option of the Corporation prior to maturity beginning in 2016

The Corporation, which is currently the sole member of an "obligated group" as defined in the Master Trust Indenture, is bound by the provisions of the Master Trust Indenture for payment of any outstanding obligations under existing loan agreements All of the hospitals except Montgomery General Hospital (MGH), St Mary's Hospital, and certain other affiliates (the guarantors) of the Corporation are parties to a guaranty agreement pursuant to which they jointly and severally guaranty the payment and performance of the obligations under the Master Trust Indenture The obligations of the guarantors under the Guaranty Agreement are collateralized by deeds of trust granted by the hospitals Under the Master Trust Indenture and the deeds of trust, as collateral for the payments due thereunder, the Corporation and certain hospital affiliates, have granted a security interest in their revenues subject to permitted encumbrances

Under the Master Trust Indenture, the Corporation is required to maintain, among other covenants, a maximum annual debt service coverage ratio of not less than 1 10 to 1 0 Under the loan agreements relating to the Series 1998 Bonds, the Corporation is required to maintain a historical debt service coverage ratio of not less than 2 0 to 1 0 and to maintain at least 65 days cash on hand In the event the Corporation does not meet either of these requirements, it is required to fund a trustee-held debt service reserve fund securing the Series 1998 Bonds The amount to be deposited shall equal the lesser of 10% of the principal amount of such outstanding bonds, or the largest annual debt service with respect to such bonds in any future year, or 125% of the average annual debt service of future years At June 30, 2011 and 2010, there were no funds required to be held in the debt service reserve fund for the Series 1998 Bonds

The Corporation maintains a $250 0 revolving credit agreement provided by a group of banks The facility was restructured in fiscal 2011 and now expires November 2013 The facility is evidenced by an obligation issued under the Master Trust Indenture The outstanding balance on the facility was $155 0 at June 30, 2011 and June 30, 2010 Of the outstanding balance, $47 8 and $48 9 was being held in operating cash at June 30, 2011 and 2010, respectively, in order to maximize the Corporation's liquidity Proceeds were also utilized in fiscal 2008 and 2009 to retire Montgomery General Hospital's tax-exempt debt and interest rate hedge, and to fund a portion of a project on Montgomery General Hospital's campus The facility includes certain covenants, including a requirement to maintain Days Cash on Hand of 70 days, measured

semi-annually at each June 30 and December 31, and a Debt Service Coverage ratio of 1 25, measured quarterly on a rolling four quarters basis In addition, the Corporation is required to maintain a minimum credit rating of Baa2 from Moody's Investor's Service, and BBB from Standard & Poor's and Fitch Ratings

In addition, the Corporation maintains a $30 0 letter of credit facility, provided by a single lender, which is also evidenced by an obligation issued under the Master Trust Indenture This facility is principally used to securitize certain regulatory obligations under various insurance programs This facility, which has terms and conditions similar to the revolving credit agreement, was restructured in fiscal 2011 and now expires in November 2013 However, the standby letters of credit issued under the facility can be canceled at the bank's option each year At June 30, 2011 and 2010, standby letters of credit issued pursuant to the facility were $16 8 and $17 0, respectively However, no amounts have been drawn by the beneficiaries under the standby letters of credit

St Mary's Hospital has certain debt outstanding, including 2002 St Mary's County General Obligation bonds with an outstanding balance of $15 0 at August 2011 and Series 2009 MHHEFA bonds with an outstanding balance of $15 4 at August 2011 The bonds are secured by a mortgage on the real property of St Mary's Hospital and a pledge of St Mary's Hospital's revenues Under terms of the financing documents, St Mary's Hospital is required to maintain days cash on hand of 85 days, and to maintain a historical debt service coverage ratio in excess of 1 10 St Mary's Hospital is also subject to certain additional covenants and tests on an ongoing basis The 2009 bonds trade in a weekly mode backed by a letter of credit issued by Bank of America, N A and remarketed by Merrill Lynch, Pierce, Fenner & Smith, Incorporated The term of the letter of credit is three years, expiring in February 2012 Management expects to extend the letter of credit or refinance the bonds In the event of a failed remarketing, the 2009 bonds would be tendered to the bank and repaid under the normal amortization schedule for the bonds The 2009 bonds are included in the current portion of long-term debt in the consolidated balance sheets

(7) Retirement Plans

The Corporation has two qualified defined benefit pension plans (MedStar Health, Inc Pension Equity Plan (PEP) and MedStar Health, Inc Cash Balance Retirement Plan (CBRP)) covering substantially all full-time employees hired before 2005, and a supplemental executive pension plan (SEPP) for certain executive management employees St Mary's Hospital also has a defined benefit plan that substantially covers all employees of St Mary's Hospital

Benefits under the plans are substantially based on years of service and the employees' career earnings The Corporation contributes to the plans based on actuarially determined amounts necessary to provide assets sufficient to meet benefits to be paid to plan participants and to meet the minimum funding requirements of the Employee Retirement Income Security Act of 1974, as amended by the Pension Protection Act of 2006, and Internal Revenue Service regulations Effective July 1, 2000, employees of the Transferred Businesses (see note 17) became participants in one of the Corporation's pension plans and are reflected in the pension information provided below

The Corporation's investment policies are established by the MedStar Health, Inc Investment Committee, comprised of members of the board of directors, other community leaders, and management Among its

(Dollars in millions)

responsibilities, the Investment Committee is charged with establishing and reviewing asset allocation strategies, monitoring investment manager performance, and making decisions to retain and terminate investment managers Assets of each of the Corporation's pension plans are managed in a similar fashion by the same group of investment managers The Corporation has incorporated an Investment Policy Statement (IPS) into the investment program The IPS, which has been formally adopted by the Corporation's Board of Directors, contains numerous standards designed to ensure adequate diversification by asset class and geography The IPS also limits all investments by manager and position size, and limits fixed income position size based on credit ratings, which serves to further mitigate the risks associated with the investment program At June 30, 2011 and 2010, management believes that all investments were being managed in a manner consistent with the IPS

The Investment Committee has adopted certain target ranges for various asset classes within the pension portfolio At June 30, 2011, these targets included the investment of approximately 49% of the portfolio in publicly traded equities, 25% in fixed income securities, 12% in hedge funds, 3% in private equity, 10% in inflation hedging strategies (including real estate), and 1% in cash At June 30, 2010, these targets included the investment of approximately 52 5% of the portfolio in publicly traded equities, 24% in fixed income securities, 10% in hedge funds, 5% in private equity, 7 5% in inflation hedging strategies (including real estate), and 1% in cash Actual asset allocations fluctuate depending upon gains and losses within asset classes over periods of time, the timing of plan contributions and distributions, and rebalancing decisions Due to these fluctuations, actual asset allocations could exceed these levels over certain periods in time

The following table illustrates the actual allocations at June 30

Investments in hedge fund-of-funds are typically carried at estimated fair value Fair value is based on the Net Asset Value (NAV) of the shares in each investment company or partnership Such investment companies or partnerships mark-to-market or mark-to-fair value the underlying assets and liabilities in accordance with GAAP Realized and unrealized gains and losses of the investment companies and partnerships are included in their respective operations in the current year Changes in unrealized gains or losses on investments, including those for which partial liquidations were effected in the course of the year, are calculated as the difference between the NAV of the investment at year-end less the NAV of the

investment at the beginning of the year, as adjusted for contributions and redemptions made during the year and certain lock-up provisions Generally, no dividends or other distributions are paid

Investments in limited partnership interests are carried at fair value as determined by the General Partner in the absence of readily ascertainable market values The fair value of limited partnership interests is generally based on fair value capital balances reported by the underlying partnerships, subject to management review and adjustment Security values of companies traded on exchanges, or quoted on NASDAQ, are based upon the last reported sales price on the valuation date Security values of companies traded over the counter, but not quoted on NASDAQ, and securities for which no sale occurred on the valuation date are based upon the last quoted bid price The value of any security for which a market quotation is not readily available may be its cost, provided however, that the General Partner adjusts such cost value to reflect any bona fide third party transactions in such a security between knowledgeable investors, of which the General Partner has knowledge In the absence of any such third party transactions, the General Partner may use other information to develop a good faith determination of value Examples include, but are not limited to, discounted cash flow models, absolute value models, and price multiple models Inputs for these models may include, but are not limited to, financial statement information, discount rates, and salvage value assumptions

The valuation of both marketable and nonmarketable securities may include discounts to reflect a lack of liquidity or extraordinary risks, which may be associated with the investment Determination of fair value is performed on a quarterly basis by the General Partner Because of the inherent uncertainty of valuation, the determined values may differ significantly from the values that would have been used had a ready market for those investments existed

The Corporation has established a long-term investment return target of 8 25% and 8 50% for PEP and CBRP in 2011 and 2010, respectively These assumptions are based on historical returns achieved in the investment portfolios over the last ten years and represent the return that can reasonably be expected to be generated on a similarly structured portfolio in the future

The Corporation recognizes the funded status of defined benefit pension plans in the balance sheet and the recognition in unrestricted net assets of unrecognized gains or losses, prior service costs or credits and transition assets or obligations The funded status is measured as the difference between the fair value of

(Dollars in millions)

the plan's assets and the projected benefit obligation of the plan The measurement date for the plans is June 30 In April 2009, the Corporation announced a freeze to benefit accruals in the CBRP and PEP, except for certain union-represented employees covered by the CBRP The freeze was effective December 31, 2009 Effective January 1, 2010, affected associates earn all future benefits through the Corporation's defined contribution retirement savings plan

In March 2011, the Corporation terminated the SEPP plan effective December 31, 2011 The freeze constitutes a curtailment and as such, the Corporation remeasured the lump sum value of participants' benefits as of March 31, 2011 The remeasurement and curtailment accounting resulted in an increase to net assets of approximately $3 4 Participants will be paid their accrued benefit, in the amount of $7 6, in March 2012, which is included in other current liabilities in the consolidated balance sheets

In May 2011, the National Nurses United employees at the Washington Hospital Center entered into a new collective bargaining agreement whereby they agreed to a freeze of their benefit accruals in the CBRP (see note 9) The freeze was effective December 31, 2010 Effective January 1, 2011, National Nurses United employees earn all future benefits through the Corporation's defined contribution retirement savings plan The freeze constitutes a curtailment and as such, the Corporation remeasured the plans' assets and projected benefit obligations at May 1, 2011 The remeasurement and curtailment accounting resulted in a reduction to net assets of approximately $2 2

The following are deferred pension costs which have not yet been recognized in periodic pension expense but instead are accrued in unrestricted net assets, as of June 30, 2011 and 2010 Unrecognized actuarial losses represent unexpected changes in the projected benefit obligation and plan assets over time, primarily due to changes in assumed discount rates and investment experience Unrecognized prior service cost is the impact of changes in plan benefits applied retrospectively to employee service previously rendered Deferred pension costs are amortized into annual pension expense over the average remaining assumed service period for active employees

The Corporation's policy is to write-off all patient accounts that have been identified as uncollectible An allowance for uncollectible accounts is recorded for accounts not yet written off which are expected to become uncollectible in future periods

Under the Maryland Health Services Cost Review Commission (the Commission) rate methodology, amounts payable for services in 2011 and 2010 to Maryland hospital patients under the Medicare and Medicaid insurance programs are computed at 94% of regulated charges and hospital patients under the Blue Cross and approved health maintenance organization insurance programs are computed at 98% of regulated charges Maryland accounts receivable from these third-party payors have been adjusted to reflect the difference between charges and the payable amounts

Certain Maryland-based hospital charges are subject to review and approval by the Maryland Health Services Cost Review Commission (HSCRC)

The HSCRC has jurisdiction over hospital reimbursement in Maryland by agreement with the Centers for Medicare and Medicaid Services (CMS) This agreement is based on a waiver from the Medicare Prospective Payment System reimbursement principles granted under Section 1814(b) of the Social Security Act The waiver will continue as long as cumulative comparisons of cost per admission between Maryland and the nation continue to be favorable Management believes that the waiver will remain in effect at least through June 30, 2012

Effective July 1, 2000 through June 30, 2003 under a contract with the HSCRC and the Maryland Hospitals, a charge per case methodology was implemented to more effectively tie compliance standards to waiver performance Under this methodology, actual charges per case are required to meet hospital specific targets established by the HSCRC, which are adjusted for changes in actual case-mix The HSCRC and Maryland Hospitals completed a three year contract that expired on June 30, 2006 The contract has been renewed yearly and this methodology will continue through June 30, 2012 The HSCRC implemented an observation status change that became effective July 1, 2010 in which one-day stay cases that used to be counted as admissions are now considered outpatient visits

Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount Management periodically reviews recorded amounts receivable from or payable to third party payors and may adjust these balances as new information becomes available In addition, revenue received under certain third-party agreements is subject to audit During 2011 and 2010, certain of the Corporation's prior year third party cost reports were audited and settled, or tentatively settled, by third party payors Adjustments resulting from such audits and management reviews of unaudited years and open claims are reflected as adjustments to revenue in the year that the adjustment becomes known The effect of these adjustments was to increase net patient service revenue by $6 0 and $2 3 during the years ended June 30, 2011 and 2010, respectively Although certain other prior year cost reports submitted to third party payors remain subject to audit and retroactive adjustment, management does not expect any material adverse settlements

Through its MedStar Family Choice, Inc subsidiary, the Corporation enters into fee-for-service and capitation agreements with independent health professionals and organizations to provide covered services to eligible enrollees where such services cannot be provided by its employed physicians or controlled entities Medical and clinical expenses from these agreements include claim payments, capitation payments, and estimates of outstanding claims liabilities for services provided prior to the balance sheet date The estimates of outstanding claims liabilities ($14 9 and $11 7 at June 30, 2011 and 2010,

respectively) are based on management's analysis of historical claims paid reports and as well as review of health services utilization during the period Changes in these estimates are recorded in the period of change Claims payments and capitation payments are expensed in the period services are provided to eligible enrollees

Visiting Nurse Association (VNA) has resolved the investigation by the Office of Inspector General (OIG) of the Department of Health and Human Services related to its cost reports for the years 1998 through 2000 This investigation resulted in VNA entering into a five-year Corporate Integrity Agreement (CIA) The VNA ended the term of the CIA in May 2010 and submitted its final report in June 2010 A letter from the OIG was received by the VNA dated November 9, 2010, confirming that the VNA satisfied the obligations of the CIA and that the VNA has been removed from the OIG's website

(9) Certain Significant Risks and Uncertainties

The Corporation provides general acute healthcare services in the State of Maryland and the District of Columbia The Corporation and other healthcare providers are subject to certain inherent risks, including the following

- Dependence on revenues derived from reimbursement by the Federal Medicare and state Medicaid programs,
- Regulation of hospital rates by the State of Maryland Health Services Cost Review Commission,
- Government regulation, government budgetary constraints and proposed legislative and regulatory changes, and,
- Lawsuits alleging malpractice or other claims

Such inherent risks require the use of certain management estimates in the preparation of the Corporation's consolidated financial statements and it is reasonably possible that a change in such estimates may occur

The Medicare and state Medicaid reimbursement programs represent a substantial portion of the Corporation's revenues and the Corporation's operations are subject to a variety of other Federal, state and local regulatory requirements Failure to maintain required regulatory approvals and licenses and/or changes in such regulatory requirements could have a significant adverse effect on the Corporation

Changes in federal and state reimbursement funding mechanisms and related government budgetary constraints could have a significant adverse effect on the Corporation

The healthcare industry is also subject to numerous laws and regulations from federal, state and local governments, and the government has aggressively increased enforcement of Medicare and Medicaid anti-fraud and abuse laws The Corporation's compliance with these laws and regulations is subject to periodic governmental review, which could result in enforcement actions unknown or unasserted at this time Management is aware of certain asserted and unasserted legal claims by the government, and is presently unable to determine the outcome of these claims Management has provided requested information to the government in conjunction with certain government investigations The final outcomes of these government investigations cannot be determined at this time

(Dollars in millions)

The federal government and many states have aggressively increased enforcement under Medicare and Medicaid anti-fraud and abuse laws and physician self referral laws (STARK law and regulation) Recent federal initiatives have prompted a national review of federally funded healthcare programs In addition, the federal government and many states have implemented programs to audit and recover potential overpayments to providers from the Medicare and Medicaid programs In September 2009, the Corporation was notified that the recovery audit contractors (RAC) would begin auditing company operations in 2010 and the Corporation received its first request for records in the fourth quarter of fiscal year 2010 The Corporation continues to receive these requests from the RAC and has implemented a response program as well as a compliance program to monitor conformance with applicable laws and regulations, but the possibility of future government review and enforcement action exists

As a result of recently enacted and pending federal health care reform legislation, substantial changes are anticipated in the United States health care system Such legislation includes numerous provisions affecting the delivery of health care services, the financing of health care costs, reimbursement to health care providers and the legal obligations of health insurers, providers and employers These provisions are currently slated to take effect at specified times over the next decade This federal health care reform legislation did not affect the 2011 or 2010 consolidated financial statements

The Corporation and one of its' hospitals have been notified of a wage-hour lawsuit brought by a few of its employees This is in the initial stages of investigation, thus the final outcome of this matter cannot be determined at this time

(10) Self-Insurance Programs

The Corporation maintains self-insurance programs for professional and general liability risks, employee health and workers' compensation Estimated liabilities have been recorded based on actuarial estimation of reported and incurred but not reported claims The combined accrued liabilities for these programs as of June 30, 2011 and 2010 were as follows

		2011	2010
Professional and general liability	$	207 4	205 2
Employee health		19 3	17 3
Workers' compensation		27 9	24 7
Total liabilities		254 6	247 2
Less current portion		(58 0)	(56 3)
	$	196 6	190 9

The Corporations' self insurance program for professional and general liability is responsible for the following exposures at June 30, 2011

(a) For professional liability, the first $5 0 exposure for each claim with an inner aggregate of $2 5 for the period July 1, 2010 through December 31, 2010 For the period January 1, 2011 through June 30,

2011, the Corporation is responsible for the first $5 0 exposure for each claim plus an inner aggregate (effective January 1, 2011, the inner aggregate was changed from a $2 5 annual inner aggregate to a $5 0 inner aggregate spread over a 24-month exposure period ending December 31, 2012) For Montgomery General Hospital (MGH), the Corporation is responsible for the first $2 0 exposure for each claim (also subject to the inner aggregate structures noted above)

(b) For general liability, the Corporation is responsible for the first $3 0 exposure for each claim (for MGH, the first $2 0 exposure for each claim)

Commercial excess re-insurance has been purchased above this self-insured retention in multiple layers and in twin towers Each tower has seven layers of excess re-insurance coverage These seven layers combine to provide up to $100 0 per claim and $100 0 in the annual aggregate for professional liability and general liability exposure The Corporation maintains reinsurance contracts with various highly rated commercial insurance companies

The professional and general liabilities at June 30, 2011 and 2010 have been discounted at a rate of 3 75% The workers' compensation liabilities at June 30, 2011 and 2010 have been discounted at a rate of 3 5%

Assets available to fund these liabilities are held in separate accounts (see note 2) Contributions required to fund professional and general liability, employee health benefits and workers' compensation programs are determined by the plans' administrators based on appropriate actuarial assumptions The professional and general liability programs are administered through an offshore wholly owned captive insurance company, Greenspring Financial Insurance Limited (GFIL) domiciled in Grand Cayman Island

Effective March 1, 2010, MGH transitioned from its previous professional liability coverage under Freestate Healthcare Insurance Company, Ltd , (Freestate) to coverage under GFIL Through this program, MGH maintained professional liability insurance coverage of $1 0 per occurrence with a $3 0 aggregate limit MGH maintained an umbrella policy to cover the periods prior to joining GFIL with coverage of $10 0 per claim and $10 0 in the annual aggregate In addition, also effective January 1, 2009, MGH was brought into the coverage provided to the Corporation under its commercial excess re-insurance program with coverage of $100 0 per claim and $100 0 in the annual aggregate

St Mary's Hospital maintains professional liability coverage with a commercial insurer St Mary's Hospital professional liability insurance coverage is on a claims made basis, with $1 0 per incident coverage, up to a maximum of $3 0 annually The policy contains a per incident deductible and includes prior acts coverage St Mary's Hospital also maintains an umbrella excess policy in the amount of $5 0 and accrues for the estimated cost of uninsured asserted and unasserted malpractice claims when incidents occur

The Corporation, in the normal course of business, is a party to a number of legal and regulatory proceedings Management does not expect that the results of these proceedings will have a material adverse effect on the consolidated financial position or results of operations of the Corporation

(11) Unrestricted Net Assets

Effective July 1, 2010, the Corporation adopted new accounting guidance (applied retroactively to July 1, 2009) that requires a not-for-profit reporting entity to account for and present noncontrolling interests in a consolidated subsidiary as a separate component of the appropriate class of consolidated net assets The income attributable to noncontrolling interests is excluded from operating income and included within other nonoperating gains on the consolidated statements of operations and changes in net assets The following table presents a reconciliation of the changes in consolidated unrestricted net assets attributable to the Corporation's controlling interest and noncontrolling interest, including amounts such as the performance indicator and other changes in unrestricted net assets as of and for the years ended June 30, 2011 and 2010

(12) Temporarily and Permanently Restricted Net Assets

Temporarily and permanently restricted net assets as of June 30, 2011 and 2010 are available for the following purposes

		2011	2010
Temporary restrictions			
Interest in net assets of foundation	$	49 2	41 1
Other		36 2	32 9
	$	85 4	74 0
Permanent restrictions			
Investments to be held in perpetuity, the income from which is available to support health care services	$	37 7	37 0

Temporarily restricted net assets are available for the purposes of purchasing property and equipment, providing health education, research and other healthcare services

(13) Endowment Net Assets

The Corporation's endowments consist of individual donor-restricted funds established for a variety of purposes Net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions

(a) Interpretation of Relevant Law

The Corporation has interpreted the State Prudent Management of Institutional Funds Act (SPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary As a result of this interpretation, the Corporation classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the organization in a manner consistent with the standard of prudence prescribed by SPMIFA In accordance with SPMIFA, the Corporation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds

(1) The duration and preservation of the fund

(2) The purposes of the Corporation and the donor-restricted endowment fund

(3) General economic conditions

(Continued)

(Dollars in millions)

(4) The possible effect of inflation and deflation

(5) The expected total return from income and the appreciation of investments

(6) Other resources of the Corporation

(7) The investment policies of the Corporation

(b) Endowment Net Assets Consist of the Following at June 30, 2011

	Unrestricted	Temporarily restricted	Permanently restricted	Total
Donor-restricted endowment funds	$ (0 2)	1 7	37 7	39 2
Total endowed net assets	$ (0 2)	1 7	37 7	39 2

(c) Endowment Net Assets Consist of the Following at June 30, 2010

	Unrestricted	Temporarily restricted	Permanently restricted	Total
Donor-restricted endowment funds	$ (2 4)	0 8	37 0	35 4
Total endowed net assets	$ (2 4)	0 8	37 0	35 4

(d) Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or SPMIFA requires the Corporation to retain as a fund of perpetual duration In accordance with GAAP, deficiencies of this nature that are reported in unrestricted net assets were $0 2 and $2 4 as of June 30, 2011 and 2010, respectively These deficiencies resulted from unfavorable market fluctuations

(e) Investment Strategies

The Corporation has adopted policies for corporate investments, including endowment assets, that seek to maximize risk-adjusted returns with preservation of principal Endowment assets include those assets of donor-restricted funds that the Corporation must hold in perpetuity or for a donor-specified period(s) The endowment assets are invested in a manner that is intended to hold a mix of investment assets designed to meet the objectives of the account The Corporation expects its

endowment funds, over time, to provide an average rate of return that generates earnings to achieve the endowment purpose

To satisfy its long-term rate-of-return objectives, the Corporation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends) The Corporation employs a diversified asset allocation structure to achieve its long-term return objectives within prudent risk constraints

The Corporation monitors the endowment funds returns and appropriates average returns for use In establishing this practice, the Corporation considered the long-term expected return on its endowment This is consistent with the Corporation's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return

(14) Income Taxes

The Corporation and the majority of its subsidiaries are not-for-profit corporations as defined in Section 501(c)(3) of the Internal Revenue Code and are exempt from federal income taxes under Section 501(a) of the Code The Corporation's tax-exempt businesses generate nominal amounts of unrelated business income subject to income tax For corporate income tax purposes, the Corporation has two consolidated groups of for-profit, taxable entities The parent companies of these groups are Parkway Ventures, Inc and MedStar Enterprises, Inc

The Corporation's taxable subsidiaries have approximately $249 6 of net operating loss (NOL) carryforwards as of June 30, 2011, which expire in varying periods through 2031, available to offset future taxable income This NOL carryforward represents $94 8 of gross deferred tax assets In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment At June 30, 2011, the Corporation increased its net deferred tax asset by $1 4, which was recorded in nonoperating income At June 30, 2010, the Corporation decreased its net deferred tax asset by $1 4, which was recorded in nonoperating income The remaining amount of the deferred tax asset considered realizable, $25 4, could be reduced if estimates of future taxable income during the carry forward period are reduced The current tax provisions for the years ended June 30, 2011 and 2010 were immaterial

(15) Charity Care

In addition to charity care, the Corporation funds numerous programs designed to benefit the healthcare interests of the communities it serves, examples of which are health education programs and services, health information and referral services, school-based clinics, public health screenings and home care The costs associated with these programs are recorded in the appropriate operating expense categories The Corporation provided $80 5 and $74 5 of charity care during the years ended June 30, 2011 and 2010, respectively, based on charges foregone (based on established rates)

(Dollars in millions)

(16) Leases

The Corporation is obligated under various operating leases with initial terms of one year or more Aggregate future minimum payments as of June 30, 2011 are as follows

2012	$	39 9
2013		28 5
2014		24 3
2015		15 8
2016		12 6
2017 and thereafter		36 6
Total minimum lease payments	$	157 7

Certain leases include provisions allowing the minimum rental payments to be adjusted annually for increases in operating costs and, in some cases, real estate taxes attributable to leased property Total rental expense for all operating leases amounted to approximately $59 1 and $55 3 during the years ended June 30, 2011 and 2010, respectively

(17) Commitments and Contingencies

In February 2000 and on June 30, 2000, the Corporation and Georgetown University (the University) signed certain definitive agreements whereby the Corporation would receive through purchase or capital lease substantially all of the assets (including working capital) owned by the University that constitutes the Georgetown University Hospital, the Community Practice Network, the Faculty Practice Group and certain office buildings and a parking lot on the campus (collectively referred to as the Transferred Businesses) These agreements became effective July 1, 2000 and transferred control of the identified physical plant and other real property assets of the Transferred Businesses to the Corporation for use as an academic medical center for a minimum of ninety-eight years At the end of the one hundred and fifty year lease term (including a fifty-two year renewal), the University shall convey all leased assets, excluding the underlying land, to the Corporation for a nominal amount and enter into a rent-free ground lease for the Corporation's use This transaction was accounted for under the purchase method of accounting effective July 1, 2000

In recognition of the value of the transaction, the Corporation shall annually pay the University 50% of the amount by which the combined operating earnings before interest, taxes, depreciation and amortization (EBITDA), as defined in the asset purchase agreement, of certain entities of the Corporation in the Washington D C area (collectively referred to as the Washington Clinical Enterprises) exceeds $60 0, subject to certain adjustments These additional payments expire when cumulative payments reach $70 0 No amounts were due under these agreements at June 30, 2011 The Corporation paid $1 7 to the University through the year ended June 30, 2011

The Corporation also entered into an Academic Affiliation and Operations Agreement (Affiliation Agreement) with the University The purpose of this agreement is to make available to the University the facilities of the Transferred Businesses and provide the Corporation with a first-class University medical

center The University shall make payments to the Corporation determined by multiplying the University School of Medicine's total undergraduate tuition revenue by 36% for providing teaching services The Corporation recognized $15 0 and $10 2 of tuition revenue during the years ended June 30, 2011 and 2010, respectively In support of academic programs at the University, for each fiscal year following the termination of the additional payment terms in the asset purchase agreement described above, the Corporation shall pay to the University 17 5% of the operating EBITDA of the Washington Clinical Enterprises in excess of $60 0, subject to certain adjustments No amounts were due under this Affiliation Agreement at June 30, 2011

The Corporation and the University also entered into a Research Agreement to sustain and advance a program of health-related University research at the Transferred Business facilities Under this agreement the University is required to reimburse the Corporation for certain costs incurred by the Corporation in support of University sponsored research Amounts reimbursed to the Corporation were $2 9 for the years ended June 30, 2011 and 2010

Georgetown University Hospital and the University are parties to a fixed fee shared services agreement Georgetown University provided to Georgetown University Hospital the following services utilities, telephone/IT services, transportation services and library services Expenses charged for such services were $11 9 and $13 4 for 2011 and 2010, respectively

The WHC campus is subject to the lien of a Permitted Encumbrance in the amount of $21 5 to the United States government This encumbrance was created in the deed of the hospital property from the United States government to WHC in February 1960 There is no repayment date for this lien stated in the deed Under enabling legislation, repayment could be required after a determination that the property is no longer required for hospital services or the property is disposed of, in which event all or a portion of the lien may be payable to the government This lien is subordinated to the Deed of Trust on the WHC campus

(18) Functional Expenses

The Corporation considers integrated health services, research and management and general to be its primary functional categories for purposes of expense classification Management and general include information systems, general corporate management, advertising and marketing Functional categories of expenses for the years ended June 30, 2011 and 2010 are as follows

		2011	2010
Integrated health services	$	3,180 0	3,087 9
Management and general		717 4	662 5
