Bad Debt Reporting in Accordance with HFMA Statement 15	Part III, Section A, Line 1	CHRISTUS Health follows in principle Healthcare Financial Management Association Statement No. 15. The system has adopted an uncompensated care policy where revenue from services provided to the uninsured is recognized at the time of payment, rather than at the time of service. This policy is the result of a lack of reasonable assurance of collection for services provided to the uninsured due to the system's historically low collection rate. Management has estimated that the difference between recording revenue from the uninsured on a cash basis, rather than the accrual basis, is immaterial. Accordingly, all accounts receivable from the uninsured have been fully reserved in the allowance for uncompensated care. Bad Debt Expense (At Cost) Part III, Section A, Line 2: The organization uses Form 990, Schedule H, Worksheet A to determine the bad debt expense at cost reported at Schedule H, Part III, Section A, Line 2 using the cost-to-charge ratio calculated at Form 990, Schedule H, worksheet 2, Line 11. The organization's total bad debt expense (total of all hospital facilities) is in accordance with the organization's financial statements, which is computed as bad debt net of contractual allowance, payments received and recoveries of bad debt previously written off. Estimate of Bad Debt Expense Attributable to Patients Eligible Under Organization's Charity Care Policy Part III, Section A, Line 3: CHRISTUS Health Northern Louisiana recognizes that some patients are unable to or unwilling to ask for financial assistance due to barriers to applying for assistance such as education level and literacy, documentation limitations and fear of the application process. In order to estimate the amount of the organization's bad debt expense (at cost) attributable to patients who are eligible under the organization's charity care policy but have not qualified, the organization engaged PARO Decision Support, LLC. PARO Charity Score is designed to identify patients that likely qualify for financial assistance based on a predictive model and other financial and asset estimates for the patient derived from public record sources. In order to classify patient bad debt accounts as accounts that would qualify for charity care, the following criteria were established based on an analysis of historical data of Christus Health and its related organizations: 1. PARO Score of less than or equal to 586, which is a predictor defining the likely socioeconomic conditions for the patient; 2. Estimated Federal Poverty Level of less than or equal to 226%, which is based on estimated household size and estimated household income; and 3. Third party data available on patient accounts which indicate that the patient is not a homeowner or a probable homeowner. Bad Debt Expense Footnote Part III, Section A, Line 4: The footnote to the CHRISTUS Health consolidated financial statements says, "The preparation of the accompanying consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management of the system to make assumptions, estimates, and judgments that affect the amounts reported in the financial statements, including the notes thereto, and related disclosures of commitments and contingencies, if any. The system considers critical accounting policies to be those that require more significant judgments and estimates in the preparation of its financial statements, including the following: recognition of net patient revenues, which include contractual allowances, provisions for bad debt, reserves for losses and expenses related to health care professional and general liabilities, determination of fair values of certain financial instruments, determination of fair value of certain goodwill and long-lived assets, and risks and assumptions for measurement of pension and retiree medical liabilities. Management relies on historical experience and on other assumptions believed to be reasonable under the circumstances in making its judgment and estimates. Actual results could differ materially from these estimates." In order to determine the bad debt expense at cost (Schedule H, Part III, Section A, Line 2), the organization's total bad debt expense (total of all hospital facilities) in accordance with the organization's financial statements was multiplied by the cost-to-charge ratio. Extent to which shortfall should be treated as community benefit. Costing Methodology Part III, Section B, Line 8: The amount on Schedule H, Part III, Line 6 is determined by calculating Medicare Allowable Costs using worksheet A of the Medicare Cost Report. Worksheet A of the Medicare Cost Report requires the organization to remove non-allowable expenses from total expenses via the adjustments to expenses worksheets within the Medicare Cost Report. The amount reported on Schedule H, Part III, Line 6 does not take into account all costs incurred by the filing organization associated with the filing organization.

Affiliated health care system	Part VI, Line 6	CHRISTUS HEALTH NORTHERN LOUISIANA is part of CHRISTUS Health, an international, Catholic, faith based, nonprofit health system comprised of almost 350 services and facilities including more than 50 hospitals and long term care facilities, 175 clinics and outpatient centers, and other community health ministries and community development ventures. CHRISTUS services can be found in Arkansas, Georgia, Iowa, Louisiana, Missouri, New Mexico, Texas, and six provinces of Mexico. A common mission, core values and vision unite the health system. Each region, including CHRISTUS HEALTH NORTHERN LOUISIANA, develops five-year and ten-year strategic plans that help set the yearly operational plans and budgets. Regional strategic goals are set in collaboration with CHRISTUS Health and include metrics that will be used to measure community benefit, clinical outcomes, patient satisfaction, and Associate engagement. CHRISTUS Health provides updated market, demographics, and health indicator data on an annual basis. The data supplied from CHRISTUS Health along with the system wide strategic initiatives are consistent with the community needs assessment of the region. CHRISTUS HEALTH NORTHERN LOUISIANA, in turn, partners with other nonprofit groups (churches, health care providers, and government agencies) to create collaborations where health needs can be addressed and the general health of individuals and the community is improved.

DESCRIPTION OF OTHER PROGRAM SERVICES	FORM 990, PART III, LINE 4D	COMMUNITY SERVICES FOR THE POOR AND UNDERSERVED ROOTED IN OUR MISSION AND TRADITION, FOUNDERS AND SPONSORS OF CHRISTUS HEALTH AND THOSE WHO CO-MINISTER WITH THEM SEEK NEW AND INNOVATIVE WAYS OF DELIVERING QUALITY HEALTH CARE THAT IS BOTH AFFORDABLE AND ACCESSIBLE TO ALL. TODAY, MORE THAN EVER, CHRISTUS HEALTH STRIVES TO IMPROVE THE TOTAL HEALTH STATUS OF THE COMMUNITY THROUGH PROGRAMS THAT PLACE SERVICES WHERE THEY ARE NEEDED THE MOST, WITH SPECIAL ATTENTION AND PREFERENCE GIVEN TO PROGRAMS THAT SUPPORT AND BENEFIT THE HEALTH AND WELFARE OF THE POOR AND UNDERSERVED. COMMUNITY SERVICES FOR THE POOR AND UNDERSERVED REPRESENT THE UNPAID COST OF SERVICES PROVIDED FOR WHICH A PATIENT IS NOT BILLED, OR FOR WHICH A FEE HAS BEEN ASSESSED THAT RECOVERS ONLY A PORTION OF THE COST OF THE RENDERED SERVICE. THIS CATEGORY INCLUDES INITIATIVES THAT REACH OUT TO THOSE IN NEED THROUGH COMMUNITY HEALTH AND SOCIAL PROGRAMS. THESE PROGRAMS SEEK JUSTICE FOR THE VULNERABLE AND WORK TO BRING ABOUT CHANGES IN OUR POLITICAL AND ECONOMIC SYSTEMS. THE PROGRAMS COVER A BROAD SPECTRUM OF SERVICES INCLUDING COMMUNITY CLINICS, EDUCATION AND WELLNESS FOR TEEN MOMS, MEALS ON WHEELS, TRANSPORTATION SERVICES AND A VARIETY OF OTHER SOCIAL SERVICES. CHRISTUS HEALTH NORTHERN LOUISIANA OPENS ITS DOORS TO VARIOUS COMMUNITY ORGANIZATIONS, GROUPS, CLUBS, STATE AGENCIES, AND SUPPORT GROUPS WHICH NEED MEETING AND/OR OFFICE SPACE. THIS SERVICE IS PROVIDED AT NO COST TO THESE COMMUNITY, NON-PROFIT ORGANIZATIONS OR STATE AGENCIES. CHRISTUS HEALTH NORTHERN LOUISIANA PROVIDES NEEDED OFFICE SPACE AT LITTLE TO NO EXPENSE TO VARIOUS NON-PROFIT ORGANIZATIONS. CHRISTUS HEALTH NORTHERN LOUISIANA PROVIDES MEALS FOR RESIDENTS OF RUTHERFORD HOUSE, A LOCAL RESIDENTIAL, REHABILITATIVE JUVENILE PROGRAM AND THE SHREVEPORT/BOSSIER RESCUE MISSION, A HOMELESS AND/OR DISPLACED SHELTER/HOUSING PROGRAM LOCATED IN SHREVEPORT, LOUISIANA. SOME EXAMPLES OF CHRISTUS HEALTH COMMUNITY BENEFITS ACCOUNTED FOR UNDER COMMUNITY SERVICES FOR THE POOR AND UNDERSERVED INCLUDE THE CHRISTUS COMMUNITY DIRECT INVESTMENT PROGRAM (CDI) AND THE CHRISTUS FUND. THE CHRISTUS BOARD OF DIRECTORS APPROVED THE FUNDING OF A CDI LOAN PROGRAM TO ENSURE THAT THE WORK OF SOCIAL ACCOUNTABILITY AND MORAL AND ETHICAL STEWARDSHIP CONTINUES IN SPITE OF CHALLENGING FISCAL CONDITIONS FACED BY LOCAL OPERATING ENTITIES. THE PURPOSE OF THE CDI PROGRAM IS TO SUPPORT COMMUNITY-DRIVEN INITIATIVES PRIMARILY FOR AFFORDABLE HOUSING AND ECONOMIC DEVELOPMENT BY PROVIDING FINANCING AT BELOW-MARKET INTEREST RATES TO NOT-FOR-PROFIT ORGANIZATIONS AT TERMS NOT EXCEEDING MORE THAN FIVE YEARS. THE INCOME LOST FROM THE DIFFERENCE IN THE MARKET RATE LESS OUR LOAN RATE (FOREGONE INCOME) IS CONSIDERED A COMMUNITY BENEFIT FOR REPORTING PURPOSES. THE COST OF THESE INVESTMENTS IS NOT INCLUDED IN THE PROGRAM SERVICE EXPENSES OF CHRISTUS HEALTH NORTHERN LOUISIANA. THOUGH OUTSTANDING LOAN BALANCES VARY THROUGHOUT THE YEAR, THE OUTSTANDING LOAN BALANCE AT THE END OF FISCAL YEAR 2011 WAS \$1,748,055. THE FOREGONE INTEREST FOR CHRISTUS HEALTH NORTHERN LOUISIANA IN FY2011 WAS \$31,417. CHRISTUS HEALTH ESTABLISHED THE CHRISTUS FUND TO PROVIDE RESOURCES TO NOT-FOR-PROFIT AGENCIES AND GROUPS WHOSE VISION, MISSION AND GOALS ARE CONSISTENT WITH CHRISTUS HEALTH'S MISSION, VALUES AND PHILOSOPHY OF A HEALTHY COMMUNITY. WE BELIEVE THAT BY WORKING TOGETHER, WE CAN MAKE A PROFOUND DIFFERENCE IN THE QUALITY OF PEOPLES' LIVES AND CREATE SUSTAINABLE HEALTH IN OUR COMMUNITIES. DURING FY2011, THE TOTAL GRANT MONEY DISTRIBUTED TO THE NORTHERN LOUISIANA REGION WAS \$50,000. THE COST OF THESE GRANTS IS NOT INCLUDED IN THE PROGRAM SERVICE EXPENSES OF CHRISTUS HEALTH NORTHERN LOUISIANA. PROGRAM SERVICE EXPENSES = \$594,784. GRANTS = \$281,670. Independent Auditors' Report

The Board of Directors
CHRISTUS Health

We have audited the consolidated balance sheets of CHRISTUS Health as of June 30, 2011 and 2010, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended. These consolidated financial statements are the responsibility of CHRISTUS Health's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of CHRISTUS Health's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of CHRISTUS Health's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note 3 to the consolidated financial statements, CHRISTUS Health changed its method of accounting for goodwill and noncontrolling interest.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of CHRISTUS Health at June 30, 2011 and 2010, and the results of its consolidated operations and changes in its net assets and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States.

CHRISTUS Health

Notes to Consolidated Financial Statements

June 30, 2011

1. Mission, Vision, and Organization of CHRISTUS Health

CHRISTUS Health was incorporated as a Texas nonprofit corporation on December 15, 1998. CHRISTUS Health (CHRISTUS or the System) is sponsored by the Congregation of the Sisters of Charity of the Incarnate Word of Houston, Texas, and the Congregation of the Sisters of the Incarnate Word of San Antonio, Texas. The Congregation of the Sisters of Charity of the Incarnate Word of Houston, Texas sponsors the Sisters of Charity Health Care System (SCH), and the Congregation of the Sisters of Charity of the Incarnate Word of San Antonio, Texas sponsors the Incarnate Word Health System (IWHS). SCH and IWHS continue to exist and carry out their ministries.

The mission of CHRISTUS Health is to extend the healing ministry of Jesus Christ. The Gospel values underlying the mission statement challenge CHRISTUS Health to make choices that respond to the economically disadvantaged and the underserved with health care needs. The growth and development of CHRISTUS Health are determined by the health care needs of the communities that CHRISTUS Health serves, its available resources, and the interrelationship of those serving and those being served. Responsible stewardship mandates that CHRISTUS searches out new, effective means to deliver quality health care and to promote wholeness in the human person.

The vision of CHRISTUS Health is to be a leader, a partner, and an advocate in the creation of innovative health and wellness solutions that improve the lives of individuals and communities so that all may experience God's healing presence and love.

The consolidated financial statements of CHRISTUS Health include activities of its affiliated market-based organizations and other related entities, all of which are wholly or majority-owned and commonly referred to as regions or entities. For purposes of these consolidated financial statements, the "System" is defined as CHRISTUS Health's affiliated market-based organizations and other related entities. The other related entities include, but are not limited to, hospital foundations, professional office buildings, management services organizations, physician groups, a collection agency, self-insurance trusts, an offshore captive insurance company, health plans, integrated community health networks, and diagnostic imaging companies.

CHRISTUS Health controls or owns, directly or indirectly, or manages various nonprofit and for-profit corporations and other organizations that currently operate in the states of Texas, Arkansas, Georgia, Louisiana, Missouri, New Mexico, Iowa, and in the Republic of Mexico.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

1. Mission, Vision, and Organization of CHRISTUS Health (continued)

CHRISTUS Health and certain affiliated nonprofit corporations are generally exempt from federal income taxes under Section 501(a) of the Internal Revenue Code, as organizations described in Section 501(c)(3)

2. Community Health

In accordance with its mission and philosophy, the System commits significant resources to improving the health of the communities it serves. In support of its mission, the System provides programs and services for entire communities, with a special consideration for those who are poor and underserved.

Programs and Services for the Poor and Underserved – represent the financial commitment to serve those who have inadequate resources and/or are uninsured or underinsured. Services are offered with the conviction that health care is a basic human right and all deserve access. The categories included as programs and services for the poor and the underserved are as follows:

- *Charity Care* – in accordance with the Catholic Health Association (CHA) guidelines, charity care represents the unpaid costs of free or discounted health services provided to persons who cannot afford to pay and who meet the organization's criteria for financial assistance. Traditional charity care is defined by the state of Texas as the unreimbursed costs of providing, funding, or otherwise financially supporting the health care services provided to a person with income at or below 200% of the federal poverty level. Charity care services provided to these patients are not reported as revenue in the consolidated statements of operations and changes in net assets as there is minimal or no expectation of payment.
- *Unpaid Costs of Medicaid and Other Public Programs for the Indigent* – represent the cost of providing services to beneficiaries of public programs, including state Medicaid and indigent care programs, in excess of any payments received from all sources.

Community Services for the Poor and Underserved – represent the unpaid cost of services provided for which a patient is not billed, or for which a fee has been assessed that recovers only a portion of the cost of the rendered service. This category includes services to those in need through community health programs. The programs cover a broad spectrum of services, from community health centers to immunizations for children and seniors, meals on wheels,

transportation services, home repair projects, and a variety of other social services. These programs may also seek justice for the vulnerable and work to bring about changes in political and economic systems.

Examples of CHRISTUS Health Community Benefits accounted for under Community Services for the Poor and Underserved include:

- The CHRISTUS Community Direct Investment (CDI) Program was established to support community-driven initiatives primarily for affordable housing and economic development by providing financing at below-market interest rates. The majority of the support is provided to programs in the CHRISTUS operating regions. The amount the System would have earned on these monies is the forgone income that is considered a community benefit.
- The CHRISTUS Fund was established for the purpose of providing grants to support community planning, healthy community initiatives, and community-based programs, with a focus on the poor and underserved areas where CHRISTUS Health ministries and sponsoring congregations are involved.

Community Services Provided for the Broader Community – represent the unpaid cost of services provided for the benefit of the entire community. The majority of these expenditures are for graduate medical education programs, either through CHRISTUS-sponsored or affiliated programs. Other benefits for the broader community include health promotion and wellness programs, health screenings, newsletters, and radio or television programs intended for health education. These programs are not intended to be financially self-supporting.

Education and Research – represents the direct costs associated with medical education and other health professional educational programs in excess of governmental payments.

Other Community Services – represent leadership activities, community planning, and advocacy.

3. Summary of Significant Accounting Policies

Basis of Consolidation

The consolidated financial statements include the accounts of all entities of the System (see Note 1) All significant inter-entity transactions and accounts have been eliminated in consolidation

Use of Estimates

The preparation of the accompanying consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management of the System to make assumptions, estimates, and judgments that affect the amounts reported in the financial statements, including the notes thereto, and related disclosures of commitments and contingencies, if any The System considers critical accounting policies to be those that require more significant judgments and estimates in the preparation of its financial statements, including the following recognition of net patient revenues, which include contractual allowances, provisions for bad debt, reserves for losses and expenses related to health care professional and general liabilities, determination of fair values of certain financial instruments, determination of fair value of certain goodwill and long-lived assets, and risks and assumptions for measurement of pension and retiree medical liabilities Management relies on historical experience and on other assumptions believed to be reasonable under the circumstances in making its judgments and estimates Actual results could differ materially from these estimates

Cash and Cash Equivalents

Cash equivalents include short-term, highly liquid investments with original maturities of three months or less

Investments

The System's investment portfolio is classified as trading, with unrealized gains and losses included in revenues in excess of expenses Investments in equity securities and funds with readily determinable fair values and all investments in debt securities are measured at fair value in the consolidated balance sheets Investments also include equity investments in managed funds structured as limited liability corporations or partnerships These investments are accounted for under the equity method

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

3. Summary of Significant Accounting Policies (continued)

Investment income or loss (including equity investment earnings on managed funds, realized and unrealized gains and losses, computed on the average-cost basis of the security at the time of sale, and interest and dividends) is included in revenues in excess of expenses unless the income or loss is restricted by donor or law

Investment income earned on assets held by trustees under bond indenture agreements, assets held by foundations, assets deposited in trust funds for self-insurance purposes, and funds held by insurance subsidiaries in accordance with industry practices is included in other revenue in the consolidated statements of operations and changes in net assets

Derivative Financial Instruments

The System utilizes interest rate swaps to hedge interest rate exposures. Changes in the fair value of the System's interest rate swaps are recorded as a component of nonoperating investment gain in the consolidated statements of operations and changes in net assets. The expense representing the net of the payments made and received under the swap agreements is also recorded as a component of nonoperating investment gain.

Inventories

The System values inventories, which consist principally of medical supplies and pharmaceuticals, at the lower of cost (first-in, first-out, or weighted-average cost valuation method) or market basis.

Property, Plant, and Equipment

Property, plant, and equipment acquisitions are recorded at cost or, if donated, at fair value at the time of donation. Expenditures that materially increase values, change capacities, or extend useful lives are capitalized. Routine maintenance, repairs, and minor equipment replacement costs are charged against operations.

Depreciation is calculated and recorded over the estimated useful life of each class of depreciable assets using the straight-line method. The *American Hospital Association – Estimated Useful Lives of Depreciable Hospital Assets* is used as a general guide in establishing depreciable lives. Amortization of capital leases is included in depreciation expense.

3. Summary of Significant Accounting Policies (continued)

Assets Held for Sale

A long-lived asset or disposal group of assets and liabilities that is expected to be sold, and for which it is probable that the sale will be completed within one year, is classified as held for sale. For long-lived assets held for sale, an impairment charge is recorded if the carrying amount of the asset exceeds its fair value less costs to sell. Such valuations include estimates of fair values generally based upon discounted cash flows less incremental direct costs to transact a sale.

Asset Impairment

The System periodically evaluates the carrying value of its operating long-lived assets and assets held for sale for impairment when indicators of impairment are identified. These evaluations are primarily based on the estimated recoverability of the assets' carrying value. Impairment write-downs are recognized as a reduction in operating gain for the operating long-lived assets and as a reduction in nonoperating gain for the assets held for sale at the time the impairment is identified.

In March 2011, management determined that the Bossier Medical Center asset group held for sale in the Northern Louisiana Region had a valuation lower than its recorded book value and that there was no reasonable expectation of recovery. An impairment adjustment of \$6,400,000 was recorded to adjust the carrying value to the estimated fair value less costs to sell, which is included in other nonoperating loss in the consolidated statement of operations and changes in net assets.

Investments in Unconsolidated Organizations

The System has investments in certain organizations for which it does not have a majority ownership interest or significant control, and therefore these organizations do not require consolidation. Generally, these investments are recorded using the equity method of accounting for those organizations in which the System owns greater than 20%. The cost method of accounting is used for organizations in which the System owns 20% or less.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

3. Summary of Significant Accounting Policies (continued)

Securities Lending

The System participates in securities lending transactions facilitated by the lending agent. Such loans are secured by collateral of 102% of the market value of domestic securities and 105% of the market value of foreign securities at the time of the loan. Per the securities lending agreement, such collateral will typically be cash or debt securities issued by the U S Government or any of its agencies. Cash collateral received in connection with these loans is currently invested in a pooled fund of securities that mature in no more than 13 months, and is maintained by the lending agent. The securities on loan and invested collateral are marked to market throughout the duration of the loan.

Goodwill

The System records goodwill arising from a business combination as the excess of purchase price over the fair value of identifiable tangible and intangible assets acquired and liabilities assumed. At June 30, 2011 and 2010, the System had goodwill of \$91,600,000 and \$125,800,000, respectively. Beginning in fiscal year 2011, with the adoption of ASU 2010-07 as described below, the amortization of goodwill ceased and goodwill is tested at least annually for impairment at the reporting unit level. Impairment is the condition that exists when the carrying amount of goodwill exceeds its implied fair value. The System has determined that its reporting units are the various geographic Regions of the System. The first step in the impairment process is to determine the fair value of the reporting unit and then compare it to the carrying value, including goodwill. If the fair value exceeds the carrying value, no further action is required and no impairment loss is recognized.

The System determined that the use of the income and market approaches were the most appropriate methods of measuring fair value of the reporting units. These are considered Level 3 valuations in the valuation hierarchy described in Note 6. Under the income approach, fair value is estimated using a discounted cash flow analysis. Under the market approach, fair value is estimated using a guideline company method and a comparable transaction method. Both the income approach and the market approach require significant assumptions to determine the fair value of each reporting unit. The significant assumptions used in the income approach include estimates of future revenues, profits, capital expenditures, working capital requirements, operating plans, industry data, and an appropriate discount rate for each reporting unit. The significant assumptions utilized in the market approach include the determination of appropriate market comparables and estimated multiples of net revenue and earnings before interest, taxes, depreciation, and amortization.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

3. Summary of Significant Accounting Policies (continued)

Additional impairment assessments may be performed on an interim basis if the System encounters events or changes in circumstances that would indicate that it is more likely than not that the carrying value of goodwill has been impaired. The System performed a transitional impairment test as of July 1, 2010, upon adoption of the guidance in Accounting Standards Update (ASU) 2010-07, *Not-for-Profit Entities: Mergers and Acquisitions*. As a result of the transitional impairment test, goodwill at the Northern Louisiana, Central Louisiana, and Spohn Regions totaling \$34,752,000 was written off, which is recorded as the effect of a change in accounting principle in the consolidated statement of operations and changes in net assets.

Deferred Financing Costs

Deferred financing costs, net of accumulated amortization, included in other assets at June 30, 2011 and 2010, are \$20,019,000 and \$20,689,000, respectively, which are being amortized using the interest method, over the terms of the indebtedness to which they relate.

Temporary and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the System has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained by the System in perpetuity.

Patient Accounts Receivable, Estimated Payables to Third-Party Payors, and Net Patient Service Revenue

The System has agreements with third-party payors that provide for payments to the System at amounts different from established rates. Patient accounts receivable and net patient service revenue are reported at the estimated net realizable amounts from third-party payors and others for services rendered. Estimated retroactive adjustments under reimbursement agreements with third-party payors are included in net patient service revenue and estimated third-party payor settlements. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined.

The System has adopted an uncompensated care policy whereby revenue from services provided to the uninsured is recognized at the time of payment, rather than at the time of service. This policy is a result of the lack of reasonable assurance of collection for services provided to the uninsured due to the System's historically low collection rate. Management has estimated that

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

3. Summary of Significant Accounting Policies (continued)

the difference between recording this revenue on the cash basis versus the accrual basis is immaterial to net patient service revenue for fiscal years 2011 and 2010. Accordingly, all accounts receivable from the uninsured have been fully reserved in the allowance for uncompensated care. The resulting adjustment is recorded as revenue deductions from gross charges to arrive at net patient service revenue.

Accounts Receivable Allowance

The System's recorded allowance for uncompensated care is based on expected net collections, after contractual adjustments, primarily from patients. Management routinely assesses these recorded allowances relative to changes in payor mix, cash collections, write-offs, recoveries, and market dynamics.

Premium Revenue and Associated Costs

Premium revenue represents revenues derived under capitated arrangements with third parties. In return for these premiums, the contracting entity is responsible for providing essentially all health care services to enrolled participants. Costs for providing these services, including services provided by other health care providers, are included as operating expenses in the consolidated financial statements. At June 30, 2011 and 2010, the respective contracting entities have accrued expenses for incurred but not reported claims based upon claims experience. The contracting entities maintain stop-loss insurance coverage to limit exposure for certain catastrophic claims.

Other Revenue

Other revenue is derived from services other than providing health care services or coverage to patients, residents, or enrollees. This revenue typically includes investment income from all funds held by a trustee, malpractice funds, or other miscellaneous investment activities, rental of health care facility space, sales of medical and pharmaceutical supplies to employees, physicians, and others, proceeds from sales of cafeteria meals and guest trays to employees, medical staff, and visitors, and proceeds from sales at gift shops, snack bars, newsstands, parking lots, vending machines, or other service facilities operated by the health care organization.

3. Summary of Significant Accounting Policies (continued)

Donor-Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations and changes in net assets as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying consolidated financial statements.

International Operations

The System owns a 59.6% interest in CHRISTUS Muguerza, S A de C V (CHRISTUS Muguerza), headquartered in Monterrey, Mexico. CHRISTUS Muguerza is a private health care system and is subject to taxes in accordance with the regulations of the Republic of Mexico. The financial statements of CHRISTUS Muguerza are presented in accordance with accounting principles generally accepted in the United States and are consolidated in the CHRISTUS Health consolidated financial statements.

Effective September 13, 2010, CHRISTUS Health increased its ownership interest in CHRISTUS Muguerza from 55.9% to 59.6% by purchasing 5,132,048 additional shares for cash consideration in the amount of \$5,000,000.

Minimum Revenue Guarantees

CHRISTUS enters into agreements with non-employed physicians that include minimum revenue guarantees. These guarantees primarily arise through physician recruiting efforts and vary by physician specialty. Generally, the term of these guarantees ranges from one to two years, with the majority including a forgiveness period that begins during the second year of the guarantees. The estimated amount of the liability for CHRISTUS' obligation under these guarantees was \$6,798,000 and \$7,043,000 at June 30, 2011 and 2010, respectively, and is included in accrued expenses and other long-term obligations in the accompanying consolidated balance sheets.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

3. Summary of Significant Accounting Policies (continued)

The maximum amount of future payments that the System could be required to make under all existing guarantees is approximately \$12,405,000

Asset Retirement Obligations

CHRISTUS estimates the conditional asset retirement obligation primarily associated with asbestos abatement to be \$7,430,000 and \$7,524,000 as of June 30, 2011 and 2010, respectively

Uncertainty in Income Taxes

The authoritative guidance in Accounting Standards Codification (ASC) Topic 740, *Income Taxes*, creates a single model to address uncertainty in tax positions and clarifies the accounting for income taxes by prescribing the minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. Under the requirements of this guidance, tax-exempt organizations could be required to record an obligation as the result of a tax position they have historically taken on various tax exposure items. There are no material unrecorded tax liabilities as of June 30, 2011 and 2010.

New Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board (FASB) issued a new accounting pronouncement regarding mergers and acquisitions for not-for-profit entities, ASU 2010-07, *Not-for-Profit Entities: Mergers and Acquisitions*. The pronouncement establishes principles and requirements for how a not-for-profit entity accounts for mergers and acquisitions. The pronouncement also makes FASB Statement No. 142, *Goodwill and Other Intangible Assets*, found under ASC Topic 350, and FASB Statement No. 160, *Noncontrolling Interests in Consolidated Financial Statements*, found under ASC Topic 810, fully applicable to not-for-profit entities. These pronouncements were effective for CHRISTUS on July 1, 2010. The System's adoption of the guidance in ASC Topic 350 resulted in the cessation of amortizing goodwill effective July 1, 2010. The transitional impairment analysis performed as of July 1, 2010, resulted in the impairment of \$34,752,000 of goodwill, which is reflected as the effect of a change in accounting principle in the accompanying consolidated statement of operations and changes in net assets. The System's adoption of the guidance in ASC Topic 810 on July 1, 2010, did not materially affect its financial position or results of operations, other than reclassifying its noncontrolling interest (previously shown as minority interest) in various entities to a component of net assets on the consolidated balance sheet. Additionally, noncontrolling interest expense is

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

3. Summary of Significant Accounting Policies (continued)

no longer reported as a reduction in revenues in excess of expenses on the consolidated statement of operations and changes in net assets, but instead is shown below revenues in excess of expenses under the heading “revenues in excess of expenses attributable to noncontrolling interest” on the statement of operations and changes in net assets for all periods presented

In January 2010, the FASB issued ASU 2010-06, which clarifies certain existing fair value measurement disclosure requirements of ASC Topic 820 (formerly SFAS No 157, *Fair Value Measurements*) and also requires additional fair value measurement disclosures. Specifically, ASU 2010-06 clarifies that assets and liabilities must be categorized by major class, or level, of asset or liability, and provides guidance regarding the identification of such major classes. Additionally, disclosures are required about valuation techniques and the inputs to those techniques for those assets or liabilities designated as Level 2 or Level 3 instruments. Disclosures regarding transfers between Level 1 and Level 2 assets and liabilities are required, as well as a deeper level of disaggregation of activity within existing rollforwards of the fair value of Level 3 assets and liabilities.

In August 2010, the FASB issued ASU 2010-23, *Health Care Entities (Topic 954): Measuring Charity Care for Disclosure*. ASU 2010-23 is intended to reduce the diversity in practice regarding the measurement basis used in the disclosure of charity care. ASU 2010-23 requires that cost be used as the measurement basis for charity care disclosure purposes and that cost be identified as the direct and indirect costs of providing the charity care, and requires disclosure of the method used to identify or determine such costs. This ASU is effective for CHRISTUS on July 1, 2011. CHRISTUS is currently evaluating the impact on its disclosures from the adoption of this pronouncement.

In August 2010, the FASB issued ASU 2010-24, *Health Care Entities (Topic 954): Presentation of Insurance Claims and Related Insurance Recoveries*. The amendments in the ASU clarify that a health care entity may not net insurance recoveries against related claim liabilities. In addition, the amount of the claim liability must be determined without consideration of insurance recoveries. This ASU is effective for CHRISTUS on July 1, 2011. CHRISTUS is currently evaluating the impact on its consolidated financial position and results of operations from the adoption of this pronouncement.

In July 2011, the FASB issued ASU 2011-07, *Health Care Entities (Topic 954): Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities*. The amendments in the ASU require

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

3. Summary of Significant Accounting Policies (continued)

CHRISTUS to change the presentation of its consolidated statement of operations and changes in net assets by reclassifying the provision for bad debts associated with patient service revenue from an operating expense to a deduction from patient service revenue (net of contractual allowances and discounts). Additionally, the ASU requires enhanced disclosure about CHRISTUS' policies for recognizing revenue and assessing bad debts, patient service revenue (net of contractual allowances and discounts), and qualitative and quantitative information about changes in the allowance for doubtful accounts. This ASU is effective for CHRISTUS on July 1, 2012, with early adoption permitted. CHRISTUS is currently evaluating the impact on its consolidated financial position and results of operations from the adoption of this pronouncement.

Reclassifications

Certain amounts have been reclassified in the prior year's financial statements to conform to the classifications used in the current year.

4. Net Patient Service Revenue

Net patient service revenue is reported at the estimated net realizable amounts from third-party payors and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Amounts subject to retroactive adjustments are estimated and recorded in the period the related services are rendered and adjusted in future periods as final settlements are determined. The estimated settlements recorded at June 30, 2011 and 2010 could differ from actual settlements. Inpatient acute care services and outpatient services rendered to Medicare program beneficiaries are paid at prospectively determined rates. These rates vary according to a patient diagnosis related group classification system that is based on clinical, diagnostic, and other factors.

Inpatient and outpatient services rendered to Medicaid program beneficiaries are paid under cost reimbursement methodologies, prospectively determined rates per discharge, and prospectively determined or negotiated rates.

Revenue from the Medicare and Medicaid programs accounted for approximately 26.6% and 3.5%, respectively, of the System's net patient revenue for the fiscal year ended 2011 and 27.4% and 5.0%, respectively, of the System's net patient revenue for the fiscal year ended 2010. Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

4. Net Patient Service Revenue (continued)

The System has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment to the System under these agreements includes prospectively determined rates per discharge, discounts from established charges, and negotiated daily rates.

In July 1991, the Texas Legislature passed a bill authorizing a state program (Medicaid Dispro), whereby all hospitals in the state of Texas that qualified as a disproportionate share health care provider would receive Medicaid Dispro funds. This program, with certain revisions, was extended through September 30, 2011, and is administered by the Texas Department of Health. In 1993, the Texas Legislature expanded the number of hospitals qualifying to receive Medicaid Dispro funds to include rural facilities. The source of these funds is assessments from qualifying hospitals that are matched at a specific percentage by the federal government.

Additionally, the federal Medicaid rules allow for hospitals to be reimbursed for some of the uncompensated cost of treating Medicaid and uninsured patients up to an Upper Payment Limit (UPL). UPL programs act as mechanisms to draw federal Medicaid dollars into local communities. The Texas Medicaid program has chosen a county-specific UPL strategy to receive supplemental federal matching funds. Under these programs, various hospital participants in the respective counties have elected to provide health care services to the indigent population in the county as charity services and, as such, no third party has an obligation to pay for these services. Separately, and with no legal obligation or link to the hospitals' provision of charity services, the tax-supported governmental entity may choose, entirely at its discretion, to contribute a portion of its tax revenues into the state's Medicaid program. The amounts transferred by the governmental entity to the state Medicaid program are then matched at the federal level, and the total amount (the amount transferred to the state Medicaid program by the governmental entity and the related federal match) is then paid to the hospital participants based upon each hospital's individual applicable funding entitlement. In addition to the allocations received by the Medicaid program, hospital participants in some communities may make charity community benefit transfers to each other throughout the year to reach a previously agreed-upon sharing ratio.

Medicaid supplemental payments, which include Medicaid Dispro and UPL payments, net of settlements and amounts transferred between program participants, of approximately \$334,267,000 and \$265,311,000 were recorded in 2011 and 2010, respectively. Net patient service revenue in the accompanying consolidated statements of operations and changes in net assets includes all Medicaid supplemental funds.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

4. Net Patient Service Revenue (continued)

The Texas Health and Human Services Commission (HHSC) has filed an application with the Centers for Medicare and Medicaid Services (CMS) to approve an 1115(b) demonstration waiver from traditional Medicaid financial and eligibility rules. The approval of such waiver could impact the revenue the System receives under the Medicaid supplemental payments. The amounts of future reimbursements under these programs cannot be assured beyond August 31, 2011. For fiscal years 2011 and 2010, net patient service revenue increased approximately \$16,403,000 and \$19,643,000, respectively, related to changes in estimates for cost report re-openings, appeals, and tentative and final cost report settlements on filed cost reports, of which some are still subject to audit, additional re-opening, and/or appeal.

The health care industry is subject to numerous laws and regulations of federal, state, and local governments. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, participation requirements of government health care programs, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Government activity has continued with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by health care providers. Violations of these laws and regulations could result in expulsion from government health care programs, together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed. There are matters currently under audit and/or review by regulatory and government officials. These reviews and audits may or may not result in revisions to cost reports, resubmitted billings, unasserted possible claims that are probable of assertion, or loss contingencies. Compliance with such laws and regulations may be subject to future government review and interpretation, as well as regulatory actions.

Cash and cash equivalents include cash, money market bank accounts, interest-bearing bank accounts, and debt securities with original maturities of less than three months. United States Government securities include debt securities issued by the U S Government or a U S Government agency. Fixed income securities include corporate debt securities, common collective trusts, and certificates of deposit greater than three months. Marketable equity securities include domestic and foreign stocks, as well as mutual funds and common collective trusts. Equity in managed funds includes investments in limited liability partnerships or corporations and other alternative investments. Other investments include municipal and foreign fixed income instruments and restricted investments held by the System's philanthropic foundations.

The System's equity investments in managed funds are recorded based on the System's share of the underlying value of marketable securities held by these funds, as reported to the System. Equity method investments include reported changes in value as reported to the System by the fund custodians. These investments are recorded at amounts confirmed by fund custodians. These amounts cannot be validated by the management of the System, and there can be no assurance such reported amounts will be ultimately realized.

The System's investments are subject to various types of risks, as explained below.

CHRISTUS Health

5. Cash and Investments (continued)

Fixed Income

This investment class includes investments in various fixed income instruments that include investment-grade and high-yield domestic and international bonds, preferred stocks, mortgage pools, master limited partnership units, and bonds issued by U S Government agencies. This investment class also includes investments in common trust funds, mutual funds, and exchange-traded funds that hold investments in fixed income securities. The fixed income investments are exposed to various kinds and levels of risk, including interest rate risk, credit risk, foreign exchange risk, and liquidity risk.

Equities

This investment class consists primarily of common equity securities of domestic and foreign companies. These securities trade through the major public domestic and international exchanges. This investment class also includes investments in common trust funds, mutual funds, and exchange-traded funds that hold investments in equity securities. The equity securities investments are exposed to various risks, including market risk, individual security risk, foreign exchange risk, and, for common equity of companies with a small market capitalization, liquidity risk.

Equity Investments in Managed Funds

These funds are invested with external investment managers who invest primarily in various alternative categories, including long and short equity positions, managed futures, emerging markets, distressed enterprises, and arbitrage positions. These investments are domestic and international in nature, are illiquid, and may not be realized for a period of several years after the investments are made. The risks associated with these investments are numerous, resulting in a greater likelihood of losing invested capital. The risks include the following:

Nonregulation Risk – These funds are not required to register with the Securities and Exchange Commission (SEC) and are not subject to regulatory controls.

Managerial Risk – Fund managers may fail to produce the intended returns and are not subject to oversight.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

5. Cash and Investments (continued)

Minimal Liquidity – Many funds impose lock-up periods that prevent investors from redeeming their shares or impose penalties to redeem

Limited Transparency – As unregistered investment vehicles, funds are not required to disclose the holdings in their portfolios to investors

Investment Strategy Risk – The funds often employ sophisticated, risky investment strategies, are speculative, and may use leverage, which could result in volatile returns

The System has no commitments for funding to equity investments in managed funds as of June 30, 2011. Assets whose use is limited or restricted consisted of the following at June 30, 2011 and 2010 (in thousands)

	<u>2011</u>	<u>2010</u>

6. Fair Value Measurements

The three-level valuation hierarchy for disclosure of fair value measurements is based on the transparency of inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follows:

- Level 1 – Inputs to the valuation methodology are quoted prices for similar assets and liabilities in active markets
- Level 2 – Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement

A financial instrument's categorization within the valuation hierarchy is based on the lowest level of input that is significant to the fair value measurement.

The valuation methodologies used for instruments measured at fair value as presented in the tables above are as follows

- *Investments* – Investments are valued at quoted prices available in an active market and are classified within Level 1 of the valuation hierarchy

Investments valued based on evaluated bid prices provided by third-party pricing services where quoted market prices are not available are classified within Level 2 of the valuation hierarchy

- *Interest rate swap agreements* – Interest rate swap agreements are valued using third-party models that use observable market conditions as their input and are classified within Level 2 of the valuation hierarchy

6. Fair Value Measurements (continued)

At June 30, 2011 and 2010, the System's financial instruments included cash and cash equivalents, accounts receivable, assets limited as to use, accounts payable and accrued expenses, estimated third-party payor settlements, and long-term debt. The carrying amounts reported in the consolidated balance sheets for these financial instruments, except for long-term debt, approximate their fair value.

The System's fixed rate debt is enhanced with bond insurance. The estimated fair value of the fixed rate debt, if it were not enhanced by insurance, approximates \$632,290,000 at June 30, 2011, as compared to its carrying value of \$592,506,000.

At June 30, 2011, the System has several issues of variable rate demand and auction-rate bonds outstanding. The System's continued participation in these debt programs depends on its ability to extend or replace the existing credit facilities supporting the respective standby purchase agreements. If these credit facilities are not available, the System will likely refund these outstanding series with available funds or funds derived from fixed rate series proceeds. It is not practicable to estimate the fair value of the variable rate demand and auction-rate bonds separate from the value supported by the credit facilities.

7. Property, Plant, and Equipment

Property, plant, and equipment at June 30, 2011 and 2010, consisted of the following (in thousands):

	<u>2011</u>	<u>2010</u>
Land	\$ 217,307	\$ 204,160
Land improvements	73,391	70,231

7. Property, Plant, and Equipment (continued)

Depreciation expense for the System for fiscal years 2011 and 2010 totaled \$210,668,000 and \$220,889,000, respectively

8. Investments in Unconsolidated Organizations

The System has unrestricted investments in unconsolidated organizations of \$188,550,000 and \$174,580,000 at June 30, 2011 and 2010, respectively. The following investments account for 95% and 94% of the System's total investments in unconsolidated organizations in 2011 and 2010, respectively

Baptist St. Anthony's Health System

CHRISTUS Health has a 50% membership interest in Baptist St. Anthony's Health System (BSAHS), a Texas nonprofit corporation. BSAHS is a market leader in the Amarillo area. CHRISTUS Health's recorded investment in BSAHS, accounted for under the equity method, was \$162,488,000 and \$138,148,000 at June 30, 2011 and 2010, respectively. The 2011 and 2010 balance includes \$8,648,000 and \$8,513,000, respectively, of restricted net assets that are included in other restricted assets. CHRISTUS Health recorded its share of BSAHS's gains from operations of \$24,707,000 and \$15,263,000 in 2011 and 2010, respectively. The System also recorded its share of the change in unrealized gains on investments of \$249,000 and \$197,000 at June 30, 2011 and 2010, respectively, as changes in unrestricted net assets. Additionally, the System had a note receivable from BSAHS resulting from the formation of the joint venture that was paid off in the first quarter of fiscal year 2011. At June 30, 2010, the principal amount of the note receivable was \$7,950,000, and is included in notes and other receivables in the consolidated balance sheets.

Preferred Professional Insurance Company

CHRISTUS Health has a 12.1% ownership interest in Preferred Providers Insurance Company (PPIC), a taxable Nebraska corporation. This corporation, formed in 1988, was established to provide excess professional and general liability insurance. CHRISTUS Health's recorded investment in PPIC, accounted for under the cost method, was \$17,059,000 at both June 30, 2011 and 2010. The System recorded income from its investment in PPIC in fiscal years 2011 and 2010 of \$789,000 and \$222,000, respectively.

CS USP Surgery Centers, L.P.

CHRISTUS Spohn Health System Corporation has a 50% ownership interest in a Texas limited liability partnership with United Surgical Partners International, Inc for the purpose of owning and operating ambulatory surgery centers in Corpus Christi, Texas. The venture consists of two surgery centers near the campus of Spohn Shoreline, specifically Corpus Christi Outpatient Surgery and SurgiCare. CHRISTUS Health's recorded investment, accounted for under the equity method, was \$5,762,000 and \$5,947,000 at June 30, 2011 and 2010, respectively. The System recorded its share of income from operations in fiscal years 2011 and 2010 of \$645,000 and \$666,000, respectively.

Omega Lab Joint Venture

CHRISTUS Health has a 40% ownership interest in Omega Lab Joint Venture. At June 30, 2011 and 2010, the System's recorded investment in Omega Lab Joint Venture, accounted for under the equity method, was \$3,152,000 and \$3,079,000, respectively. The System recorded its share of Omega Lab Joint Venture income from operations in fiscal years 2011 and 2010 of \$520,000 and \$678,000, respectively.

9. Long-Term Debt (continued)

Certain entities of CHRISTUS Health that are otherwise included in the consolidated financial statements of CHRISTUS Health are excluded from the CHRISTUS Health Obligated Group. These entities include, but are not limited to, the CHRISTUS Health Liability Retention Trust, Emerald Assurance, CHRISTUS St. Vincent Regional Medical Center, CHRISTUS Health Utah, CHRISTUS Provider Network, CHRISTUS Continuing Care, CHRISTUS Muguerza, S A de C V, and various philanthropic foundations.

Under the provisions of the Master Trust Indenture, the obligations of CHRISTUS Health and the other members of the Obligated Group are secured by a pledge of gross revenues. Additionally, each member of the Obligated Group has undertaken certain covenants, including the following: to ensure the payment of debt service, to ensure the payment of taxes and other claims, to deliver compliance statement(s), to preserve corporate existence, to maintain books and records subject to inspection by the Master Trustee, to maintain insurance, to conform to defined lien limitations, to establish adequate service rates, to maintain a sufficient debt service coverage and indebtedness ratio, to maintain a required aggregate amount of unrestricted cash and investments, and to adhere to certain defined conditions with respect to consolidation, merger, conveyance or transfer, and admission or withdrawal of Obligated Group members pursuant to the Master Trust Indenture, insurer, and letter of credit bank agreements.

In August 2009, CHRISTUS Health issued debt in the amount of \$231,005,000, which consisted of \$156,005,000 in fixed rate bonds (Series 2009A) and \$75,000,000 in variable rate demand bonds (VRDBs) (Series 2009B). The issues were used to refund the outstanding Series 2007C and Series 2008D bonds and to fund a debt service reserve fund for the Series 2009A bonds. The Series 2007C bonds were supported by a standby bond purchase agreement provided by Landesbank Hessen-Thüringen Girozentrale, acting through its New York branch, which was terminated as part of the transaction. The Series 2009B VRDBs were initially supported by a letter of credit issued by The Bank of New York Mellon that would have expired on February 28, 2012. Subsequent to June 30, 2011, the letter of credit was amended to expire on July 31, 2014.

In December 2009, CHRISTUS Health issued \$72,695,000 of fixed rate bonds (Series 2009C). The issue refinanced the outstanding 2008 C-5 VRDBs. As a result of this transaction, the letter of credit supporting the Series 2005 C-5 bonds with Compass Bank was terminated. CHRISTUS Health also converted \$54,260,000 of auction rate securities to fixed rate bonds through a reoffering of the Series 2005 C-3 bonds. The fixed rate bonds are insured by FSA (currently Assured Guaranty).

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

9. Long-Term Debt (continued)

The outstanding Series 2008C VRDBs are supported by letters of credit issued by Bank of America that expire on December 17, 2015

In June 2010, the System redeemed the remaining portion of the Series 1998A fixed rate bonds before the final maturity. In December 2010, CHRISTUS Health converted \$93,380,000 of auction rate securities to fixed rate bonds through a reoffering of the Series 2005 A-5 and 2005 A-6 bonds. The fixed rate bonds are insured by Assured Guaranty Municipal Corp (AGMC).

The System recorded a loss on the early extinguishment of debt of \$508,000 and \$4,399,000 in fiscal years 2011 and 2010, respectively, which is recorded in other nonoperating loss.

In addition, the CHRISTUS Health System was obligated on approximately \$152,059,000 and \$143,923,000 of additional long-term debt, which included capitalized leases and notes payable to others as of June 30, 2011 and 2010, respectively.

Principal payments for all long-term debt for the next five years and thereafter are as follows (in thousands):

2012	\$ 57,904
2013	56,107
2014	53,519
2015	56,173
2016	58,908
Thereafter	950,329
Total debt	<u>\$ 1,232,940</u>

10. Derivative Financial Instruments

Interest rate swap contracts between the System and third parties (counterparties) provide for the periodic exchange of payments between the parties based on changes in a defined index and a fixed rate and expose the System to market risk and credit risk. Credit risk is the risk that contractual obligations of the counterparties will not be fulfilled. Concentrations of credit risk relate to groups of counterparties that have similar economic or industry characteristics that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. Counterparty credit risk is managed by requiring high credit standards for the System's counterparties. The counterparties to these contracts are financial

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

10. Derivative Financial Instruments (continued)

institutions that carry investment-grade credit ratings. The interest rate swap contracts contain certain collateral provisions applicable to both parties to mitigate credit risk. CHRISTUS has complied with these provisions as required. No collateral was posted at June 30, 2011. The System does not anticipate nonperformance by its counterparties. Market risk is the adverse effect on the value of a financial instrument that results from a change in interest rates. The market risk associated with interest rate changes is managed by establishing and monitoring parameters that limit the types and degrees of market risk that may be undertaken. Management also mitigates risk through periodic reviews of their derivative positions in the context of their blended cost of capital. As of June 2011, CHRISTUS Health has interest rate swap agreements to manage interest rate risk exposure, not designated as hedging instruments, with a total notional amount of \$1,221,065,000.

At June 30, 2011, the fair value of these swap agreements was a net liability of \$59,973,000, with \$72,348,000 recorded as a liability and \$12,375,000 recorded as an asset on the consolidated balance sheet. At June 30, 2010, the fair value of these swap agreements was a net liability of \$89,776,000, with \$94,600,000 recorded as a liability and \$4,824,000 recorded as an asset on the consolidated balance sheet. The change in fair value of \$29,803,000 and \$18,953,000 for the years ended June 30, 2011 and 2010, respectively, is combined with the payments, net of receipts made under the agreements, of \$17,592,000 and \$17,884,000 for the years ended June 30, 2011 and 2010, respectively. This total is included in nonoperating investment gain in the statements of operations and changes in net assets.

The following tables summarize the fair value at June 30, 2011 and 2010, and the income (loss) recorded related to the interest rate swap agreements as of and for the years ended June 30, 2011 and 2010, in thousands.

10. Derivative Financial Instruments (continued)

On August 26, 2011, CHRISTUS terminated two swaps with counterparty Citigroup. CHRISTUS terminated one of the 2005 Fixed Payor Swaps with an original notional amount of \$54,075,000 and a termination date of July 1, 2022, and the Constant Maturity Swap with a notional amount of \$200,000,000 and a termination date of June 1, 2022. CHRISTUS received net proceeds of \$5,785,000 as a result of the terminations.

11. Cash Balance Plan and Postretirement Health Care Benefits

Cash Balance Plan

The System has established a noncontributory, defined-benefit retirement plan that operates as a cash balance plan and covers substantially all CHRISTUS Health employees who meet age and service requirements. The plan benefits are calculated based on a cash balance formula wherein participants earn an annual accrual of 6% of compensation and participant account balances accrue interest at a rate that tracks ten-year treasury notes, the maximum rate is 8% and the minimum rate is 2%.

Postretirement Health Care Benefits

Comprehensive medical benefits are provided to eligible active employees who, immediately upon retirement and attainment of age 55, will receive a pension under the CHRISTUS Health retirement plan. Postretirement benefits are also provided to former employees who are currently receiving pension benefits. The comprehensive medical program, which is self-insured, provides reimbursement benefits until the participant attains age 65. The program also covers dependents of retirees, in addition to former employees. Contributions are required. Retirees may choose one of two self-insured indemnity plan options. Effective February 1, 1999, the CHRISTUS Health postretirement benefit plan was curtailed prospectively. As of the effective date, new employees or employees that had not vested as of that date are not eligible for the postretirement health care benefits. The liability associated with the postretirement plan will be reduced as employee participation decreases.

Simplified Early Retirement Plan (SERP)

Prior to the formation of CHRISTUS, a plan for executives was curtailed prospectively. Under this plan, eligible participants receive a cash benefit payment until death and participate in the System's retiree health, dental, and group term life program. Fewer than two dozen participating

11. Cash Balance Plan and Postretirement Health Care Benefits (continued)

retirees currently maintain benefit payment status. Benefits are recalculated when participants attain age 65 and remain constant thereafter. At June 30, 2011 and 2010, the total liability recorded pertaining to this SERP was \$5,175,000 and \$5,481,000, respectively.

Restoration Plan

The restoration plan, a nonqualified, deferred compensation plan, was designed to restore benefits that are lost under the cash balance plan due to the statutory limit on recognizable compensation. Eligibility is limited to designated executives. The plan provides benefits upon termination of employment to qualifying participants. Plan benefits are calculated using the same methodology for the cash balance plan, vesting requirements are also the same. The restoration plan is unfunded.

The measurement date for all plans is June 30. Components of net periodic benefit cost, recorded as a component of employee compensation and benefits, for the years ended June 30, 2011 and 2010, consisted of the following (in thousands):

	Cash Balance Plan		Postretirement		SERP		Restoration Plan

At June 30, 2011 and 2010, unrestricted net assets include \$133,519,000 and \$233,574,000, respectively, of amounts arising from defined-benefit plans that have not yet been recognized in net periodic benefit cost. Amounts recognized in unrestricted net assets expected to be recognized in net periodic benefit cost during fiscal 2012 are \$7,356,000.

11. Cash Balance Plan and Postretirement Health Care Benefits (continued)

As of June 30, 2011 and 2010, the CHRISTUS cash balance plan had accumulated benefit obligations of \$767,586,000 and \$747,206,000, respectively. Assumptions used to determine benefit obligations and net periodic benefit cost for the fiscal years were as follows:

	Cash Balance Plan		Postretirement		SERP		Restoration Plan	
	2011	2010	2011	2010	2011	2010	2011	2010
Benefit obligations								
Discount rate	5.15%	4.83%	4.96%	4.92%	5.15%	4.83%	5.15%	4.83%
Rate of compensation increase	4.09	4.61	N/A	N/A	4.09	4.61	4.09	4.61
Net periodic benefit cost								
Discount rate	4.83	5.84	4.96	4.92	4.83	5.84	4.83	5.84
Expected long-term return on plan assets	7.50	7.50	N/A	N/A	N/A	N/A	N/A	N/A
Rate of compensation increase	4.61	4.61	N/A	N/A	4.61	4.61	4.61	4.61

The investment objective with regard to the plan assets is one of long-term capital appreciation and generation of a stream of current income. This balanced approach is expected to earn long-term total returns, consisting of capital appreciation and current income, that are commensurate with the expected rate of return used by the plans.

The following information pertains only to the CHRISTUS Health postretirement plan. The first table details information pertaining to assumed health care cost trend rates. The second table depicts the effect of a 1% point change in assumed health care cost trend rates.

	Postretirement			Postretirement	
	2011	2010		1% Point Increase	1% Point Decrease
				<i>(In Thousands)</i>	
Assumed health care cost trend rates at June 30	9.0%	8.0%

Investment Policy and Asset Allocations

The investment policies and strategies for the assets of the cash balance plan incorporate a well-diversified approach that is expected to generate long-term returns from capital appreciation and a growing stream of current income. This approach recognizes that assets are exposed to risk and the market value of the plan assets may fluctuate from year to year. Risk tolerance is determined based on the plan's financial stability and the ability to withstand return volatility. In developing the expected return on plan assets, the System evaluates the historical performance of total plan assets, the relative weighting of plan assets, interest rates, economic indicators, and industry forecasts. In line with the investment return objective and risk parameters, the mix of assets includes a diversified portfolio of equity, fixed income, and alternative investments. Equity investments include international stocks and a blend of domestic growth and value stocks of various sizes of capitalization. The aggregate asset allocation is rebalanced as needed, but not less than on an annual basis.

The asset allocations for the cash balance plan at June 30, 2011 and 2010, by asset category, are detailed below (in thousands). The postretirement plan, SERP, and restoration plan are unfunded.

	2011	2010
Cash and cash equivalents	\$ 98,516	\$ 95,839

Fair value at June 30, 2011	<u>\$ 100,760</u>	<u>\$ 61,340</u>	<u>\$ 12,453</u>	<u>\$ 5,123</u>

The cash balance plan has \$58,858,000 of funding commitments to equity investments in managed funds as of June 30, 2011

Contributions

In fiscal year 2012, CHRISTUS expects to contribute \$56,400,000 to the cash balance plan based on asset values for the plan year beginning January 1, 2011. Contributions to the cash balance plan of \$55,865,000, and \$49,000,000 were made for plan years beginning January 1, 2010 and 2009, respectively. Since the postretirement plan, SERP, and restoration plan are unfunded, no cash contributions are expected.

Defined-Contribution Plans

The System has a defined-contribution plan (the Matched Savings Plan) covering substantially all CHRISTUS Health employees. Annual employee contributions are limited to 50% of compensation, up to the Internal Revenue Service dollar limits. The System will match 50% of employee contributions, not to exceed 4% of annual compensation. Employer contributions vest to the employee over a five-year period. For the years ended June 30, 2011 and 2010, expenses attributable to the Matched Savings Plan amounted to \$8,173,381 and \$9,632,255, respectively.

CHRISTUS St Vincent Regional Medical Center (St Vincent) has two 403(b) defined-contribution plans for union and nonunion employees. St Vincent makes a set lump-sum contribution per year for nurse union employees and a contribution of 3.5% of gross salaries for nonunion employees, as defined by the plans' agreements. For fiscal years 2011 and 2010, St Vincent has incurred approximately \$3,960,000 and \$3,781,000 in expenses related to the plans, respectively.

11. Cash Balance Plan and Postretirement Health Care Benefits (continued)

ExecuFLEX Benefit Plan

The System established an ExecuFLEX plan (ExecuFLEX), which is limited to designated executives. Plan participants receive an ExecuFLEX allowance to be allocated among four different components: CHRISTUS Health ExecuFLEX Individual Long-Term Disability Plan, CHRISTUS Health ExecuFLEX Supplemental Survivor Plan, CHRISTUS Health ExecuFLEX Spouse Survivor Plan, and CHRISTUS Health ExecuFLEX Deferred Income Account (DIA) Plan.

CHRISTUS Health maintains a collateral interest in the individual life insurance policies under the supplemental survivor plan and the spouse survivor plan to the extent of the cumulative advanced premiums paid on behalf of the participant(s). Upon termination of employment, a participant is required to surrender any policy with a cash surrender value less than the advanced premiums.

The DIA Plan is a nonqualified, deferred compensation plan, eligibility is limited to designated executives. Benefits vest based on certain qualifying events and are paid to participants when fully vested. The funds contributed by participants to this component of the ExecuFLEX Plan are held in a Rabbi Trust until vesting requirements have been satisfied. The System has an asset recorded for the investments in the Rabbi Trust with a corresponding liability. As of June 30, 2011 and 2010, the total asset and the corresponding liability were \$9,044,000 and \$7,411,000, respectively.

12. Self-Funded Liabilities

The System self-funds and insures for primary professional and general liability, workers' compensation, and employee medical benefits. A wholly owned, captive insurance company, Emerald Assurance Cayman Ltd. (Emerald), is used to fund primary professional and general liability. Additionally, the System internally sets aside funds for workers' compensation and employee medical benefits. Funding amounts are based on actuarial recommendations.

The assets of the captive insurance company, internally designated funds, and the estimated liability for losses are reported in the consolidated balance sheets. Investment income from the assets and the provision for estimated self-funded losses and administrative costs are reported in the consolidated statements of operations and changes in net assets. The estimated self-funded

12. Self-Funded Liabilities (continued)

losses include expected claim payments, including settlement costs for reported claims and an actuarial determination of expected losses related to claims that have been incurred but not reported

Emerald was incorporated in the Cayman Islands on June 27, 2003, and operates subject to the provisions of the Companies Law (2003 Revision) of the Cayman Islands. Emerald was granted an Unrestricted Class “B” Insurer’s license on June 30, 2003, which it holds subject to the provisions of the Insurance Law (2003 Revision) of the Cayman Islands. Emerald has received an undertaking from the Cayman Islands government exempting it from local income, profits, and capital gains taxes until July 29, 2023. No such taxes are currently levied in the Cayman Islands.

13. Concentrations of Credit Risk

The System grants credit without collateral to its patients, most of whom are local residents of the geographies of the various System health care centers and are insured under third-party payor agreements. The mix of gross accounts receivables from patients and third-party payors at June 30, 2011 and 2010, was as follows:

	2011	2010
Medicare	24.6%	24.7%
Medicaid	5.3	8.8
Managed care organizations	36.6	37.4
Commercial insurance	4.6	6.5
Self-pay	15.9	11.5
Others	13.0	11.1
	100.0%	100.0%

14. Commitments and Contingencies

Operating Leases

The System leases various equipment and facilities under noncancelable operating leases expiring at various dates through May 19, 2045. Total rental expense in 2011 and 2010 for all operating leases was approximately \$46,948,000 and \$43,857,000, respectively.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

14. Commitments and Contingencies (continued)

The System's leases have varying terms, which may include renewal or purchase options and escalation clauses, that are factored into determining minimum lease payments. The following is a schedule by year of future minimum lease payments under operating leases as of June 30, 2011, that have initial or remaining lease terms in excess of one year (in thousands)

2012	\$ 31,459
2013	27,389
2014	23,338
2015	19,240
2016	15,562
Thereafter	32,306
Total	<u>\$ 149,294</u>

From time to time, the System is subject to litigation in the ordinary course of operations. In management's opinion, any future settlements or judgments on asserted or unasserted claims will not have a material effect on the System's consolidated financial statements.

CHRISTUS Spohn Health System Corporation (CHRISTUS Spohn) has received a request and subpoena from the Health and Human Services Office of the Inspector General (OIG) for one-day stay information, and CHRISTUS Spohn has worked with the OIG and the U.S. Attorney's office in the Southern District of Texas to comply with this request. While maximum penalties could have a material impact on CHRISTUS Health's financial condition, management anticipates that any final settlement will not have a material adverse impact on its financial condition.

CHRISTUS Health has received notification that several regions have been identified as part of the nationwide Department of Justice (DOJ) investigation to determine whether, in certain cases, implantable cardioverter defibrillators (ICDs) were provided to certain Medicare beneficiaries in accordance with national coverage criteria. Through October 12, 2011, the DOJ has not asserted any claims against the System. The System continues to fully cooperate with the DOJ in its investigation. While maximum penalties could have a material impact on CHRISTUS Health's financial condition, management anticipates that any final settlement will not have a material adverse impact on its financial condition.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

14. Commitments and Contingencies (continued)

Because the government's enforcement efforts presently are widespread within the industry and may vary from region to region, there can be no assurance that the compliance program will significantly reduce or eliminate the exposure of the System to civil or criminal sanctions or adverse administrative determinations

15. Functional Expenses

The System provides general health care services to residents throughout various geographic locations. Expenses related to providing these services at June 30, 2011 and 2010, are as follows (in thousands)

	<u>2011</u>	<u>2010</u>
Health care services	\$ 2,721,502	\$ 2,633,422
Physician services	188,017	158,133

16. Temporarily and Permanently Restricted Net Assets

Permanently restricted net assets at June 30, 2011 and 2010, are restricted as follows (in thousands)

	2011	2010
Investments to be held in perpetuity, the income from which is expendable to support health care services (reported as operating income)	\$ 7,699	\$ 7,550
Endowment requiring income to be added to original gift	3,922	3,174
Other	1,930	2,396
Total	<u>\$ 13,551</u>	<u>\$ 13,120</u>

17. Assets Held for Sale

During fiscal year 2009, the System implemented a plan to monetize nonoperational assets where appropriate. As a result, several properties were identified and marketing plans were developed. The System classified certain long-lived assets as held for sale in fiscal years 2011 and 2010. The System has classified \$2,150,000 and \$28,308,000 as assets held for sale at June 30, 2011 and 2010, respectively. During fiscal year 2011, land of approximately \$16,100,000 that was classified as held for sale at June 30, 2010 was reclassified as property, plant, and equipment at June 30, 2011.

Approximately \$1,147,000 of the assets held for sale balance at June 30, 2011 is land. The remaining \$1,003,000 represents nonoperational buildings in several Regions. Approximately \$2,150,000 of the assets held for sale at June 30, 2010 continue to be classified as held for sale at June 30, 2011. This classification is considered appropriate due to market conditions and length of time required to execute sale transactions. The assets are recorded at the lower of the book or estimated fair value at June 30, 2011.

19. Significant Events

Expansion of Healthcare Operations – Santa Rosa

In July 2009, the CHRISTUS Santa Rosa Region bought a 38% ownership interest in the Foundation Surgery Affiliates of New Braunfels, LLC (FSA) for cash consideration of \$2,417,000. In addition to the cash purchase price, CHRISTUS Santa Rosa paid cash consideration of \$558,000 to FSA to terminate the management agreement of the facility. The FSA facility is located in New Braunfels, Texas. Subsequent to the acquisition, FSA merged with CHRISTUS Santa Rosa Outpatient Surgery – New Braunfels, LP. CHRISTUS Santa Rosa has an ownership interest of 55.95% in the merged entity. The transactions were accounted for under the pooling method of accounting. CHRISTUS Santa Rosa and CHRISTUS Santa Rosa Outpatient Surgery – New Braunfels, LP executed a management services agreement whereby CHRISTUS Santa Rosa will perform certain management services for the combined entity.

19. Significant Events (continued)

In September 2009, CHRISTUS Santa Rosa purchased a 51% ownership interest in the Foundation Surgery Center of San Antonio for an estimated cash consideration of \$14,400,000 and the assumption of \$23,500,000 in debt. Foundation Surgery Center has total assets of \$19,500,000, including \$4,600,000 in current assets, and total liabilities of \$27,400,000 after acquisition. Foundation Surgery Center of San Antonio has four locations in San Antonio and performs approximately 25,000 procedures annually. CHRISTUS Santa Rosa also paid cash consideration of approximately \$4,600,000 to assume the management agreement. The transaction resulted in approximately \$19,000,000 in goodwill.

Effective July 1, 2010, the System reorganized its post-acute operations. Certain long-term acute care facilities operated by Dubuis Health System were transferred to CHRISTUS Continuing Care, which resulted in approximately \$24,400,000 recorded in other changes in unrestricted net assets at June 30, 2010. Subsequently, the System ceased to consolidate Dubuis Health System.

On February 4, 2011, substantially all the operating assets of CHRISTUS St. Joseph Villa in Salt Lake City, Utah, were sold to The Ensign Group for a sale price of \$16,500,000. CHRISTUS St. Joseph Villa is a continuing care retirement facility with 327 beds/units offering independent and assisted living, long-term care, post-acute care and geriatric services. The gain from operations for the year ended June 30, 2011 was \$647,000, which is included in other nonoperating loss on the consolidated statement of operations and changes in net assets. The transaction resulted in a gain from the sale of \$4,300,000, which is included in other nonoperating activity in the consolidated statement of operations and changes in net assets.

20. Subsequent Events

The System evaluated events and transactions occurring subsequent to June 30, 2011 through October 12, 2011, the date of issuance of the accompanying consolidated financial statements. During this period, there were no subsequent events requiring recognition in the consolidated financial statements.

CHRISTUS Health

Community Benefit (Unaudited)

CHRISTUS complies with the Catholic Health Association's (CHA), *A Guide for Planning and Reporting Community Benefits*, '2008, and the state of Texas reporting requirements. CHA guidelines have adopted the instructions for IRS Form 990, Schedule H.

Following is a summary of the System's quantifiable costs of community benefits provided for the years ended June 30, 2011 and 2010 (in thousands)

	2011	2010
	<i>(Unaudited)</i>	
Programs and services for the poor and underserved		
Charity care at unpaid cost	\$ 172,473	\$ 168,553
Unpaid cost of Medicaid and other public programs	(146,355)	(133,446)
Community services for the poor and underserved	124,732	132,616
Total for the poor and underserved	150,850	167,723
Community services for the broader community		
Education and research	11,152	16,473
Other community services	6,463	6,536
Total for the broader community	17,615	23,009
Total community benefits	\$ 168,465	\$ 190,732

The totals are calculated following CHA guidelines and adhere to IRS Form 990, Schedule H methodology. CHRISTUS Health has multiple reporting requirements of charity care and community benefit, which vary based on the definitional and timing requirements of each requesting organization.

In addition to the community benefits reported above, the state of Texas requires that the unpaid costs of Medicare and other government-sponsored programs be reported. For the fiscal years ended 2011 and 2010, the unpaid costs of these programs were \$169,292,000 and \$158,404,000, respectively. The unpaid costs of the Medicare program represent the cost of providing services to primarily elderly beneficiaries of the Medicare program, in excess of governmental and managed care contract payments. The unpaid costs of other government-sponsored programs represent the cost for providing health care services to the beneficiaries of the Department of Defense (DOD) civilian care, included as per the state of Texas guidelines.

CHRISTUS Health

Community Benefit (Unaudited) (continued)

As noted, the CHRISTUS Community Direct Investment (CDI) Program was established to support community-driven initiatives, primarily for affordable housing and economic development, by providing financing at below-market interest rates. At June 30, 2011 and 2010, the CDI Program had \$6,104,117 and \$8,147,000, respectively, in outstanding loans, approximately 75% and 82%, respectively, of these loans relate to projects in CHRISTUS Health regions. The difference between the interest rates charged on the loans and the amount that the System would have earned on these monies is the forgone interest that is considered a community benefit. In fiscal years 2011 and 2010, the amount recognized as a community benefit related to this program was \$203,001 and \$234,816, respectively.

As noted, the CHRISTUS Fund was established for the purpose of providing grants to support community planning, healthy community initiatives, and community-based programs, with a focus on the poor and underserved areas where CHRISTUS Health ministries and sponsoring congregations are involved. During fiscal years 2011 and 2010, the CHRISTUS Fund provided grants of \$1,679,159 and \$1,603,133, respectively, approximately 96% and 94% of the grants relate to programs in CHRISTUS regions in 2011 and 2010, respectively.
