### A Schedule Attached to and Made Part of Form 990-PF For the Year Ended June 30, 2011

### Schedule 1 Part IX-A, Line 3

### **Direct Charitable Activities**

From inception, the Summerlee Foundation has convened the leading authorities within its program spheres to assist in strategic planning for both the Foundation and the profession. The Foundation has relied on the direct charitable activity ("DCA") as a requisite element in its charitable endeavors. Among the generally accepted DCA categories, the Foundation has convened educational conferences not limited to its own board and staff, has provided technical assistance/training to grantees and other charitable organizations, has supported the service of Foundation staff on advisory boards and public commissions, and has published and disseminated reports on research findings and held conferences of general interest to the public.

### **Animal Protection Program**

The Summerlee Foundation Program Director for Animal Protection participates in Direct Charitable Activities through a process of collaborating, convening, connecting, and counseling. These activities serve to foster and advance animal welfare and animal philanthropy.

The Program Director for the Animal Protection Program:

- Convened and collaborated with several other animal grantmaking Foundations on two projects: a large, captive wild animal rescue from a bankrupt zoo in Norman, Oklahoma; and a spay neuter initiative for Dallas, Texas called the Big Fix for Big D.
- Participated in conferences and workshops and spoke to grantseekers and colleagues at various venues including the San Antonio Area Foundation's Center for Nonprofit Support Services, Earth Island Institute's Anti-Captivity Campaign for dolphins and orcas strategic planning workshop and the Animal Grantmakers annual meeting.
- Continues monitoring its exit strategy for its initiative in Mexico and provides assistance to the Asociacion Internacional para la Proteccion de los Animales in its endeavors towards primary self-sufficiency.
- Continues its work on case studies related to the Mexico Initiative in order to assist other funders/donors hoping to launch initiatives and programs to aid animals in Mexico.
- Continues to assist the Animal Grantmakers with its state non-profit status, filings and record keeping; and serves as liaison/coordinator for the Foundation Center Philanthropy In/Sight Animal Grantmaking database.

### **Texas History Program**

The Texas History Program of The Summerlee Foundation offers outreach support to Texas history organizations by providing educational workshops and seminars, training, information and resources to their boards and staffs, by serving as a commissioner of the Texas Historical Commission – a state agency, by serving as an advisory director of several Texas historical organizations, by maintaining an extensive research library, and providing technical assistance to those aspiring to research, document, disseminate, and promote Texas History.

One example of direct support this past year is the investigation of the burial of James Coryell at Sarahville de Viesca, a property owned by the Summerlee Foundation, located east of Waco. After discovering a stack of rocks adjoining a slave cemetery, archaeologists from the Texas Historical Commission joined with representatives of the Smithsonian Institution and Summerlee Foundation to investigate the remains of an early Texas Ranger who was killed at the frontier outpost of Sarahville de Viesca. Efforts were to match the Coryell DNA were unsuccessful. Currently, anthropologists from the Smithsonian Museum of Natural History are examining the skeletal remains to learn as much as possible about James Coryell.

### A Schedule Attached to and Made Part of Form 990-PF For the Year Ended June 30, 2011

### Schedule 3 Part XV, Line 2d

### Award Restrictions and Limitations

The Foundation makes grants for two specific purposes: (1) to alleviate fear, pain and suffering of animals and to promote animal protection and the prevention of cruelty to animals, and (2) to research, promote and document all facets of Texas History.

The Animal Protection program currently has funding priorities which will take precedence over any proposals not within these priority issues. In our companion animal program, the Foundation funds only spay and neuter initiatives and the protection of feral cats (TNR under colony management). Special emphasis is given to those communities with the least resources and the greatest challenges of culture, education, economy, and geography.

Our marine program is focusing on the suffering of captive marine mammals and the cruel and devastating impacts of the captive trade industry on dolphins and orcas. Our terrestrial wildlife program prioritizes the protection of mountain lions, coyotes, and bobcats by funding research, education, and advocacy.

The Texas History division of the Foundation funds historical programs in public and private schools, colleges and universities, museums, libraries, archives, public television, and historical, preservation, and archaeological organizations. To be eligible for grant support, Texas history must be the primary focus of the grant proposal. Proposals focusing upon primary research will be given priority over other applications.

In the preservation arena, grant support is restricted to historic structures listed on the National Register of Historic Places – the official list of cultural resources worthy of preservation. The list includes districts, sites, buildings, structures, and objects that are significant in American history, architecture, engineering, and culture.

The program does not generally support the restoration of County Courthouses.

The Texas History division does not fund monuments and memorials. The program does fund Texas history programs outside Texas.
